*Hyperbole and a Half* Allie Brosh, 2013-10-29 #1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's *Hyperbole and a Half* showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn't me

wrote it—but I soon discovered that I’m not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars\* Stories about dogs The secret to eternal happiness\* \*These are lies. Perhaps I have underestimated my sneakiness!

*The Last Lecture* Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise

and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

**50 Years of the LEGO Brick** Christian Humberg, 2008 The influential Italian architectural historian Manfredo Tafuri (1935-1994) invoked the productive possibilities of crisis, writing that history is a project of crisis (*progetto di crisi*). In this entry in the *Writing Architecture* series, Marco Biraghi explores Tafuri's multifaceted and often knotty oeuvre, using the historian's concept of a project of crisis as a lens through which to examine his historical construction of contemporary architecture. Mindful of Tafuri's statement that there is no such thing as criticism, only history, Biraghi carefully maps the influences on Tafuri's writing - Walter Benjamin, Karl Krauss, Massimo Cacciari, and the architect Ludovico Quaroni, among others -- in order to create a portrait of one of the most complex minds in twentieth-century architecture and architectural history. Tracing an arc from Tafuri's first articles in the magazine *Contropiano* to the idea of contradiction at the center of the project of crisis, Biraghi cites Tafuri's writing on some of his contemporaries, including Louis Kahn, Le Corbusier, Robert Venturi, Aldo Rossi, and the Five Architects (Peter Eisenman, Michael Graves, Charles Gwathmey, John Hejduk, and Richard Meier). Tafuri's historical construction of the contemporary, Biraghi explains, is based on the idea that the past is open, providing the present with ever-changing and indeterminate form. There is no contradiction between Tafuri the historian and Tafuri the contemporary critic, only the greatest possible integration. The importance of Tafuri's interpretation of architecture goes beyond mere academic or historiographic

interest, Biraghi argues; Tafuri's notion of the project of crisis is fundamentally important in understanding our present-day architectural condition
