The Magic of Tinned Fish Chris McDade,2021-06-29 Named one of The Best Cookbooks of 2021 by The New York Times "Excellent. . . . Thanks to McDade's assured guidance, those curious about this understated pantry staple will have no trouble diving in. Salty and satisfying, these recipes hit the spot." —Publishers Weekly TINNED FISH IS ONE OF THE WORLD'S GREAT INGREDIENTS: brilliantly versatile, harvested and preserved at the peak of its quality and flavor, more economical than fresh seafood will ever be, as healthy and nutrient-packed as food gets. Focusing on sustainable and easy-to-find anchovies, sardines, mackerel, shellfish, and more, here are 75 recipes that will change the way we think about and cook with tinned fish. Whether it's creating an addictively delicious Spaghetti con le Sarde, transforming a pork roast with a mackerel-based "tonnato" sauce, elevating mac and cheese with crab, or digging into the simplest and best snack ever—anchovies, bread, and butter—cooking with tinned fish is pure magic.

Ideology and the Ideologists Lewis S. Feuer,2011-12-31 The revival of ideology, which began early in the second half of the last century, has led to reconsideration of the following questions: What underlies the pattern of the rise and decline of the ideological mode of thought? What leads young intellectuals to search for an ideology? What accounts for the changes in ideological fashion over time and nation, and shifts from one set of philosophical tenets to another? Who indeed are the intellectuals? Studies of ideology have tended to range themselves for or against particular viewpoints, or have concerned themselves with defining perspectives. The purpose of this book is to examine the common causal patterns in the development of various differing ideologies. Feuer finds that any ideology may be said to be composed of three ingredients: The most basic and invariant is some form of Mosaic myth. Every ideology also has its characteristic philosophical tenets spreading from left to right, which conform to the cycle of ideas; and, finally, an ideology must be taken up by some section of the population who can translate it into action. Intellectuals in generational revolt find in some version of the ideological myth a charter and dramatization of their emotions, aims, and actions. Since each generation of intellectuals tends to reject its predecessors' doctrines, a law of intellectual fashion arises the alternation of philosophical doctrines. Ideology has inevitably made for an authoritarian presumption on the part of master-intellectuals and marginal ones and assumes their antagonism to objective truth and science. It is Feuer's contention that only when intellectuals abandon ideology in favor of science or scholarship will an unfortunate chapter in the history of human unreason be overcome.

Meanings of Violence Jon Abbink,Göran Aijmer,2020-08-20 There are good reasons to look at violence from new perspectives. In its endless manifestations violence is part and parcel of human existence, and is very probably a constituting element of human society. And yet violent action - warfare, penalties, insults, feuding, assault, murder, rape, suicide, sports - remains in all its complexity one of the least understood fields of human social life.The book's contributors identify the symbolic and ritualized aspects of violence, and suggest ways of 'reading' violence as it occurs in the world, whether as violent duelling and age-group violence in Southern Ethiopia, bullfighting in Iberia, cattle rustling in Kenya, guerrilla and militia wars in Colombia, or public executions in China.These case studies suggest that 'violence' is not a simple, universal urge, but is contingent and context-dependent, shaped by social relations of power, force and dominance. To be the victim of violence is a humiliating and frightening experience. But the many ambiguities that occur in the use of violence must be considered, to understand why peace seems only to exist as a contrast to the violation of peace.

Vuzz Philippe Druillet,2022-10-05 Vuzz is a warrior. A looter who has simple needs in life: to fight, to eat and to make love. Vuzz lives a world where ruined cities are home to zombies, giant rabbits, and salacious wizards. A world where everything is desolation and uncertainties. A world where Vuzz can ultimately only count on himself. Which suits him just fine... Featured in stunning black and white, this story is deliberately offbeat and humorous, utilizing a stripped-down narration and minimalist illustrations. In the other works of Philippe Druillet, Vuzz is a character like no other!

Law and the Media Lieve Gies,2007-12-06 Introducing readers to the study of law, media and popular culture, this text, using three original case studies, re-examines the assumptions underpinning existing research and suggests alternatives. Arguing that the study of law, media and popular culture should be embedded in the sociology of everyday life, the author focuses on four specific topics, in which there is scope for further development. These are the facts that: the current literature in this field predominantly focuses on crime, neglecting the way the media portrays less spectacular, more run-of-the-mill legal topics fiction, primarily, has captured scholars' attention, with remarkably less being paid to representations of law, other than crime, in factual media textual analysis continues to be the preferred method in the study of law and the media the literature is dominated by a fear of corrosive media effects, while the potential of the media and popular culture to improve public legal knowledge, facilitate access to justice and promote legal change remains largely undocumented. Exploring the often uneasy relationship between law and popular culture from specific socio-legal perspectives, including systems theory, semiotics of law and legal pluralism, this book is an essential read for those studying and researching in this area.

Taming the Atom Hans Christian Von Baeyer,2000-01-01 Fascinating, accessible study recounts the process of discovery, from atomism of the Greeks to quantum revolutions of the 1920s and the theories and conjectures of today. Topics include components of the atom, quantum mechanics, atomic landscape, atoms in isolation, more. Lucid and entertaining. — The New York Times Book Review.

National Television Violence Study National Television Violence Study,1998-04-16 This third annual report presents comparative year-to-year data on the nature of violence on television across programme genres and channel types in the United States. It contains an analysis of how the new television rating system was initially implemented and tracks trends over three years in the use of programme advisories and content codes. It also evaluates public service announcements designed to prevent handgun violence among adolescents. Finally, it provides new analyses of 'high risk' presentations of violence most likely to adversely affect younger audiences.

Learning Sequences in Music Edwin Gordon,2012 Learning Sequences in Music: Skill, Content, and Patterns is a milestone in music education. This book is perhaps the most provocative exploration ever written of how we learn music, from infancy to adulthood, and what we should do to teach music more effectively. Revised, expanded, and completely rewritten for this eighth and final edition, Professor Edwin E. Gordon's continued research reaffirms his place as perhaps the world's principal thinker and researcher in music education. Early controversial ideas championed by Gordon have now been widely accepted in the field: the importance of standardized

tests, the crucial role of early childhood music education, and the fundamental need to teach audiation as a precursor to music reading. Professor Gordon continues to present a feast of ideas in this new edition, combining the latest experimental and observational research in music learning with his own experience teaching students of all ages. Topics covered include: the state of music today, audiation, individual differences, aptitude, readiness, and measurement and evaluation. This book is a monumental achievement sure to be read and reread by generations of music educators to come.--Publisher's description.

Fifty Years of Illustration Lawrence Zeegan,Caroline Roberts,2014-10-28 This book charts contemporary illustration's rich history: from the rampant idealism of the 1960s to the bleak realism of the 1970s, and from the over-blown consumerism of the 1980s to the digital explosion of the 1990s, followed by the increasing diversification of illustration in the early twenty-first century. The book explores the contexts in which the discipline has operated and looks historically, sociologically, politically, and culturally at the key factors at play across each decade, while artworks by key illustrators bring the decade to life. Contemporary illustration's impact and influence on design and popular culture are investigated through introductory essays and profiles of leading practitioners, illustrated with examples of the finest work.

Ladybird By Design Lawrence Zeegen, Professor,2015-03-31 Ladybird By Design is a fascinating look at the social and design history of the well-known publisher Ladybird Books, released to celebrate 100 years since the familiar ladybird was first registered as a logo in 1915. Ladybird by Design charts the rise of the company that was initially known as Wills & Hepworth, from its origin as a small Loughborough printer to its growth into a global publisher beloved by millions of children, teachers and parents. It delves into the stories behind the beautiful art and design of the iconic mini hardback books that have adorned children's bookshelves for generations, and explores the career of Editorial Director Douglas Keen, who commissioned many of the books from the 1950s to the 70s, as well as those of the artists who brought them to life. In addition to a range of classic covers and images from books, Ladybird By Design also contains a selection of rare photographs and artwork, and includes sections on favourite series such as Well-Loved Tales, Nature, How it Works, Key Words, Junior Science, Hobbies and Interests, People at Work and Adventures from History, through to information on the exciting books still being published by Ladybird today. Written by Professor Lawrence Zeegen, a well-known illustrator and Dean of the School Design at the London College of Communication.
