British Airways Keith Gaskell,2005-04-09 Britain's premier airline is now among the world's elite. This book summarizes the early pioneering days and the nationalized postwar years of Britain European Airways and the British Overseas Airways Corporation. We then see the joining of these two under the banner of British Airways and follow its early history into successful privatization and the airline's freedom to pursue new ventures. Every type of aircraft that has been operated by BA is described the nuances of livery styles are illustrated in color. British Airways has acquired airlines, invested in others and has franchise partners; these are identified and the aircraft described.

British Airways Annual Report and Accounts British Airways,1972

The History of British European Airways Charles Woodley,2006-01-01 BEA was formed in 1946 and took over most UK domestic and European routes under the British government's nationalisation policy. It began operations with a fleet of outdated and hopelessly uneconomic passenger aircraft that were derivatives of wartime types such as the DC-3, Avro Viking and Rapide. By the end of 1955 the airline had re-equipped with more modern types such as the jet-prop Viscount and moved into a profit for the first time. From 1960 onwards the airline introduced larger jets such as the Comet, Trident and BAC 1-11. BEA merged with the British Overseas Airways Corporation in 1974 to form British Airways. This book looks at BEA's predecessors, its formation and early operation from Croydon and Northolt and the move to the newly-opened London Heathrow. The evolving structure is explained with chapters covering engineering bases, terminals, European and domestic services, cargo services and helicopter operations. The aircraft flown are all described in detail and the book includes anecdotes from former crew and ground-staff, a full fleet list and is highly illustrated throughout.

Airline Arthur Reed,1990 While touching on the company's role in the early days of aviation, Airline is largely concerned with recent history - with the merger between BEA and BOAC, the move in 1987 from the public to the private sector and the coming together of BA and British Caledonia.

Thirty Seconds to Impact Maria Burkill,Peter Burkill,2010-03-18 When Peter took charge of the flight deck of the 777 and took off from Beijing airport, there was nothing to suggest that this trip would be anything other than a routine flight of the sort he had made so many times before. It was not until moments before landing that anything went wrong. Coming in to Heathrow Airport, the plane suffered inexplicable loss of power to both engines, and it was suddenly likely that the plane would plough into a built-up area outside the airport, with the loss of all lives on board. Peter tells us in graphic detail his thoughts and actions when he managed to help save the plane at the last moment thanks to a flash of inspiration that led him to change the position of the wing flaps, which appeared to gain the vehicle enough precious time to make it over the perimeter fence and land on the grass, short of the runway. For both Maria and Peter, their lives following the crash have resulted in experiences that they never would have expected to have happened. There isn't a handbook with rules to follow after a crash so the subsequent aftermath was laced with events that could have been handled better from all sides, which lead to Maria and Peter having to find strength inside them that they had never needed before. A little more than a year later, they have used these strengths to begin a new chapter in their lives; starting with leaving British Airways and celebrating a second chance to enjoy life. But there are still nights when they find themselves awake, crying about what could have happened on that fateful day.

British Airways Leo Marriott,1998-12 The year 1999 marks the 25th anniversary of the complete merger of Britain's two major state-owned airlines into the public corporation known as British Airways. This complete book traces the airline's early beginnings up through its contemporary modernization plan, including the recent acquisition of craft such as the Boeing 777, Boeing 747, and the retirement of earlier models like the BAC-111 and the Lockheed TriStar.

Imperial Airways Robert Bluffield,2009 Imperial Airways is a name redolent of the excitement and glamour of the pioneering years of flight. Founded in the 1920s, Imperial Airways flew to destinations all over the world. This beautiful and evocative book on the 'golden age' of passenger flight is the result of years of research, and the text is complemented by a wealth of stunning photographs and ephemera. It will be the most definitive book published on the history of Imperial Airways and the formative years of British commercial aviation.

British Airways: Foreign Exchange Exposure kents Ashely,2014-03-27 Seminar paper from the year 2012 in the subject Business economics - Investment and Finance, grade: A, The University of Liverpool, language: English, abstract: British Airways is the largest airline in United Kingdom dealing with both international destinations and flights. It is the second largest airline behind easyjet measured by passengers carried. It was founded in 1972 and privatized in 1987. The company has been involved in various alliances with companies like Oneworld Airline, American Airlines Qantas and Canadian Airlines. In 2011 it merged with Iberia creating International Airlines Group (IAG) and listing it on the stock exchange. Since then it has purchased British Midland International (BMI). The company has maintained a stream of subsidiaries in various countries including BA CityFlyer, OpenSkies and hence developed its fleet size to 262 with 169 destinations excluding code-shares and subsidiaries. Its hubs are in London Heathrow Airport and Gatwick Airport. The company has also maintained several codeshare agreements and partnership with other companies like WestJet, Loganair, Finnair and several others. The company has employees represented by a number of trade unions with each employee segment having a different trade union representing it. The company as per 2011 fiscal year indicated an increasing revenue registering 10.827 billion pounds). Exposure of foreign exchange is that sensitivity regarding a real value of domestic currency of the assets, operating incomes and liabilities to changes unanticipated that may occur in rates of exchange. The risk of foreign exchange can be determined by of value of variance of domestic currency of all liabilities, assets and operating income which is attributed rates of exchange that are unanticipated.

Business Strategy of British Airways. A Case Study Amritpal Hayre,2015-01-14 Project Report from the year 2014 in the subject Business economics - General, grade: 80% (Distinction), , language: English, abstract: This report discusses British Airways in a strategic context whilst producing organisational and environmental audits on the case study. Furthermore it identifies the stakeholders and suggests a business strategy for the organisation. Finally timescales are proposed to achieve and monitor the strategy for the context of British Airways whilst identifying the resource requirements. This report is part of the BTEC Higher National Diploma series by the author and relates to Unit 7 - Business Strategy.

Risks and Decision Making Thomas Punzel,2009-02-13 Seminar paper from the year 2008 in the subject Business economics - Business Management, Corporate Governance, grade: B, University of Birmingham, language: English, abstract: Nowadays strategic planning comes more than ever to the fore. In the course of an onward globalisation and with an increasing stress of competition, it becomes more and more difficult for entrepreneurs to keep or to improve their market position. For this account, strategic planning comes into the main focus to choose the best strategy for a business. However, every business man knows that there are always chances and risks in economic life. For this reason, risks cannot be eliminated, but they can be managed. Especially in the airline industry, the competition is on a very high level. Since 2001 more and more low cost carriers have been competing with the big well known national airline companies like Lufthansa or British Airways. That’s why a well thought out strategic management, strategic planning and of course risk management are essential to overcome the stress of competition. This report will analyse why risk management is so important in strategic planning. By evaluating different models and techniques, the best method to analyse the internal and external environment will be elaborated. By using a current business paper, in that case the annual report of British Airways Plc 2007, different kinds of risks will be analysed and strategies will be given, to overcome and mitigate those risks.

Flight 149 Stephen Davis,2021-09-07 A gripping, real-life drama that reveals the true story of a plane full of unsuspecting passengers who landed in a war zone and were delivered into the hands of a murderous dictator. On August 1, 1990, Flight 149 was scheduled for its routine London-to-Kuala Lumpur run. But when the plane, carrying 385 passengers and crew, landed at a Kuwait airport to refuel that day, it was surrounded by Iraqi tanks and about to be bombed by fighter jets. The passengers and crew were kept as hostages and suffered brutal treatment including violent attacks, sexual assaults, and mock executions. When the survivors were eventually released, they were never told why their plane landed in the middle of an invasion, or who a mysterious team of late arrivals on the flight might have been. Their story was overshadowed by the ensuing Gulf War. Until now. In *Flight 149*, Stephen Davis draws on unique witness accounts from the hostages, and uncovers the lies and coverups orchestrated by the British secret service and CIA. This story reveals an astonishing misuse of intelligence that changed the course of history and forever altered the relationship between the West and the Middle East.

Gone but Not Forgotten Alan Phillips,2017-09-16 The British airliners we see today in our airports are the result of numerous takeovers and mergers, involving large and small companies. This book covers some of these airlines that have ceased operating since 1946: some collapsed because of financial difficulties, some were taken over by larger airlines, and some ceased operating altogether. In post-war Britain, several small airlines were founded and equipped with surplus military aircraft, the most popular being the Douglas Dakota. The book is a guide to each airline, accompanied by a brief historical account, and interesting images of the aircraft in their distinctive colour schemes. The airlines covered are a selection of large and small aircraft, who flew international and regional routes, as well as airlines involved in inclusive tours business.

AIR CRASH INVESTIGATIONS EYE OF THE NEEDLE The Crash of British Airways Flight 38 Hans Griffioen, editor,2012-11-01 On 28 November 2008, a Boeing 777-200ER, operated by British Airways as flight BA38, on its way from Beijing, China to London (Heathrow), suffered on approach to Heathrow Airport an in-flight engine rollback. At 720 feet agl, the right engine ceased responding to autothrottle commands for increased power and instead the power reduced to 1.03 Engine Pressure Ratio (EPR). Seven seconds later the left engine power reduced to 1.02 EPR. This reduction led to a loss of airspeed and the aircraft touching down some 330 m short of the paved surface of Runway 27L at London Heathrow. The investigation identified that the reduction in thrust was due to restricted fuel flow to both engines. It was determined that the restriction occurred most probably in the Fuel Oil Heat Exchangers. The investigation identified the forming of ice in the fuel system as probable cause. The aircraft was destroyed, but there were no casualties.
