The Broadcast Century and Beyond Robert L Hilliard, Michael C Keith, 2004-10-14 The Broadcast Century and Beyond, 4th Edition, is a popular history of the most influential and innovative industry of the previous and current century. The story of broadcasting is told in a direct and informal style, blending personal insight and authoritative scholarship to fully capture the many facets of this dynamic industry. The book vividly depicts the events, people, programs, and companies that made television and radio dominant forms of communication. The ability of radio and television to educate, enlighten, and stimulate the contemporary mind is perhaps the most important of all modern technological developments. This text places the communication revolution in a comprehensive chronological context, allowing readers to fully grasp the media's profound impact on the political, social, and economic spheres.

A History of Broadcasting in the United States Erik Barnouw, 1966-12-31 Tells how radio and television became an integral part of American life, of how a toy became an industry and a force in politics, business, education, religion, and international affairs.

The Museum of Broadcast Communications Encyclopedia of Radio Museum of Broadcast Communications, 2004 A premise of this unique encyclopedia is that radio broadcasting is so pervasive that its importance can be easily overlooked. More than 600 articles provide ample illustration of the role this medium plays throughout the world. From radio's invention to radio on the Internet, the cross-referenced and thoroughly indexed articles analyze over 100 years of topics, programs, issues, people, and places, and provide leads to further reading. Some 250 photographs give visual context to an often unseen world. Scholars, old-time-radio admirers, and curious readers will appreciate the unparalleled comprehensiveness of this source.--The Top 20 Reference Titles of the Year, American Libraries, May 2004.

Hitch Your Antenna to the Stars Susan Murray, 2013-05-13 First Published in 2005. In this engaging cultural and industrial history of early television, Susan Murray examines how and why the broadcasting industry gave birth to the idea of TV stars. Combining a sweeping view of the rise of the medium with profiles of Milton Berle, Sid Caesar, Jackie Gleason, Lucille Ball, and other early television greats, Murray illuminates the central role played by television stars in the growth and development of American broadcasting.

Broadcast Journalism Andrew Boyd, Peter Stewart, Ray Alexander, 2012-11-12 This newest edition of Broadcast Journalism continues its long tradition of covering the basics of broadcasting from gathering news sources,

interviewing, putting together a programme, news writing, reporting, editing, working in the studio, conducting live reports, and more. Two new authors have joined forces in this new edition to present behind the scenes perspectives on multimedia broadcast news, where it is heading, and how you get there. Technology is meshing global and local news. Constant interactivity between on-the-scene reporting and nearly instantaneous broadcasting to the world has changed the very nature of how broadcast journalists must think, act, write and report on a 24/7 basis. This new edition takes up this digital workflow and convergence. Students of broadcast journalism and professors alike will find that the sixth edition of Broadcast Journalism is completely up-to-date. Includes new photos, quotations, and coverage of convergent journalism, podcasting, multimedia journalism, citizen journalism, and more!

The Radio Station Michael C Keith, 2006-12-13 First Published in 2007. Routledge is an imprint of Taylor & Francis, an informa company.

The Broadcast Century Robert L. Hilliard, Michael C. Keith, 1992 A uniquely engaging, vibrant chronicle of the development of electronic media and its vital, interdependent role within our society. The book brings to life the events, people, programmes and companies that made broadcasting a primary form of communication in the United States.

Understanding Broadcast Journalism Stephen Jukes, Katy McDonald, Guy Starkey, 2017-11-21 Understanding Broadcast Journalism presents an insightful exploration of broadcast journalism today; its characteristics, motivations, methods and paradigms. The authors balance discussions of industry practice with critical examinations of content, across television, radio and associated multiplatform journalism. They highlight key issues including ownership and shifting regulatory environments, the revolutionary role of user-generated-content and digital convergence, and coverage of global issues by rolling news services. Chapters include: • a brief history of broadcasting; • an overview of recent commercial challenges in the news industry and the impact on television news; • current trends in the running of local radio stations, with particular focus on the rise of 'hubbing'; • the ethics of broadcast journalism; • the significance of international broadcasters including the BBC, CNN and Al-Jazeera. The book identifies how the dissemination of broadcast journalism is evolving, whilst also arguing for the continued resilience of this industry now and in the future, making the case that journalistic storytelling remains at its most effective in broadcast environments. Professional journalists and students of media studies and journalism will find this a timely and thought-provoking intervention, which will help to inform their professional practice and research.

Stay Tuned Christopher H. Sterling, John Michael Kittross, 2001-11-01 Since its initial publication in 1978, Stay Tuned has been recognized as the most comprehensive and useful single-volume history of American broadcasting and electronic media available. This third edition has been thoroughly revised and updated to bring the story of American broadcasting forward to the 21st century, affording readers not only the history of the most important and pervasive institution affecting our society, but also providing a contextual transition to the Internet and

other modern media. The enthusiasm of authors Christopher H. Sterling and John Michael Kittross is apparent as they lead readers through the development of American electronic mass media, from the first electrical communication (telegraph and telephone); through radio and television; to the present convergence of media, business entities, programming, and delivery systems, including the Internet. Their presentation is engaging, as well as informative, promoting an interest in history and making the connections between the developments of yesterday and the industry of today. Features of this third edition include: *chronological and topical tables of contents; *new material reflecting modern research in the field; *a new chapter describing historical developments from 1988 through to the current day; *an expanded bibliography, including Web site and museum listings; *an updated and expanded glossary and chronology; and *extensive statistical data of the development of television and radio stations, networks, advertising, programming, audiences, and other aspects of broadcasting. Designed for use in undergraduate and graduate courses on the history of American mass media, broadcasting, and electronic media, Stay Tuned also fits well into mass communication survey courses as an introduction to electronic media topics. As a chronicle of American broadcasting, this volume is also engaging reading for anyone interested in old radio, early television, and the origins and development of American broadcasting.

Broadcast Journalism Jane Chapman, Marie Kinsey, 2008-10-28 Broadcast Journalism offers a critical analysis of the key skills required to work in the modern studio, on location, or online, with chapters written by industry professionals from the BBC, ITV, CNN and independent production companies in the UK and USA. Areas highlighted include: interviewing researching editing writing reporting. The practical tips are balanced with chapters on representation, ethics, law, economics and history, as well as specialist areas such as documentary and the reporting of politics, business, sport and celebrity. Broadcast Journalism concludes with a vital chapter on career planning to act as a springboard for your future work in the broadcast industry. Contributors: Jim Beaman; Jane Chapman; Fiona Chesterton; Tim Crook; Anne Dawson; Tony Harcup; Jackie Harrison; Ansgard Heinrich; Emma Hemmingway; Patricia Holland; David Holmes; Gary Hudson; Nicholas Jones; Marie Kinsey; Roger Laughton; Leslie Mitchell; Jeremy Orlebar; Claire Simmons; Katie Stewart; Ingrid Volkmer; Mike Ward; Deborah Wilson.

Radio's Second Century John Allen Hendricks, 2020-03-13 Winner of the 2022 Broadcast Education Association Book Award One of the first books to examine the status of broadcasting on its one hundredth anniversary, Radio's Second Century investigates both vanguard and perennial topics relevant to radio's past, present, and future. As the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation despite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming content in the areas of religion, ethnic

inclusivity, and gender parity is also explored. Taken together, this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium--radio.

Murrow, Charles Kuralt, Cokie Roberts, Eric Sevareid, Pauline Frederick, Charles Osgood, Paul Harvey, Betsy Aaron, Bob Dotson, Susan Stamberg, and Richard Threlkeld, who also discuss how they write and report.--BOOK JACKET.

The Beginning of Broadcast Regulation in the Twentieth Century Marvin R. Bensman,2015-11-03 The Radio Act of August 13, 1912, provided for the licensing of radio operators and transmitting stations for nearly 15 years until Congress passed the Radio Act of 1927. From 1921 to 1927, there were continual revisions and developments and these still serve as the basis for current broadcast regulation. This book chronicles that crucial six-year period using primary documents. The administrative structure of the Department of Commerce and the personnel involved in the regulation of broadcasting are detailed. The book is arranged chronologically in three sections: Broadcast Regulation and Policy from 1921 to 1925; Congestion and the Beginning of Regulatory Breakdown in 1924 and 1925; and Regulatory Breakdown and the Passage of the Act of 1927. There is also discussion of the Department of Commerce divisions and their involvement until they were absorbed by the Federal Communication Commission. A bibliography and an index conclude the work.

Invisible Stars Donna Halper,2015-02-11 *Invisible Stars* was the first book to recognize that women have always played an important part in American electronic media. The emphasis is on social history, as the author skillfully explains how the changing role of women in different eras influenced their participation in broadcasting. This is not just the story of radio stars or broadcast journalists, but a social history of women both on and off the air. Beginning in the early 1920s with the emergence of radio, the book chronicles the ambivalence toward women in broadcasting during the 1930s and 1940s, the gradual change in status of women in the 1950s and 1960s, the increased presence of women in broadcasting in the 1970s, and the successes of women in broadcasting in the 1980s and 1990s. The second edition is expanded to include the social and political changes that occurred in the 2000s, such as the growing number of women talk show hosts; changing attitudes about women in leadership roles in business; more about minority women in media; and women in sports and women sports announcers. The author addresses the question of whether women are in fact no longer invisible in electronic media. She provides an

assessment of where progress for women (in society as well as broadcasting) can be seen, and where progress appears totally stalled.
