After an introduction that briefly explains the four components of discipline-based art education, the text is organized in six chapters. Art production activities offered in these chapters, give students the opportunity to try their hand at making their own art. Chapter 5, Responding to Artworks: Art Criticism, Art History, and Aesthetics, encourages awareness of the criticism process that is involved in studying and understanding art. Suggested ways to use reproductions of artworks in the elementary classroom are given. The organization of chapter 6, A Narrative Time line of World Art, is that of a chronological summary of the history of art. It is designed for use as a reference.
