Black Soldiers in a White Man's War Gordon D. Pollock,2018-12-04 This book investigates the story of 600 Black men from across North America and the Caribbean, who, in 1917, went to war in a labour unit, No. 2 Construction Battalion. Regarded then by senior Command as morally infectious, a century later they have become central actors in a powerful cultural myth, celebrated in folk tales, poetry, drama and text. *Black Soldiers in a White Man's War* examines critically that mythical narrative. Based on service records of the 600 volunteers and 35 courts-martial in the unit, it probes the lives of these soldiers, who laboured in the forests of France during 1917 and 1918. *Black Soldiers in a White Man's War* will shock some, but, for the majority of readers, it will present a fresh, vibrant portrait of a group of young Black men, who at a time of international crisis volunteered to fight the King's enemies. It will also open readers to experiences these men faced as they returned to a post-war racist society.

Playtime is Science Barbara Sprung,Educational Equity Concepts (New York, N.Y.),1990 A program of science activities for children in the early childhood years and their parents is offered. The three different formats of the Playtime Is Science program are adaptable to a variety of settings and schedules. The Parent/Child Activity Program includes one parents-only session in which participants learn that routine chores involve physical science concepts they can share with their children. During the remaining four sessions, children are given 45 minutes to learn activities. Parents act as facilitators in the activities. In the second version of the program, Parents as Teachers, parents work not only with their own children, but also with their children's classmates. The third version, Super Science Saturday, gives parents a chance to use the program on weekends. The five core activities of the program involve physical science experiences with materials commonly found in the home. Activities include making and using sieves, creating a mystery bottle, making and tossing bean bags, building with wonderful junk, and discovering how machines work. Sections of the guide provide directions, a program overview, a resource list of appropriate picture and activity books, and step-by-step activity sheets. (RH)

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. *The Secret History* is a masterful and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
