e-Services Alfredo M. Ronchi,2019-04-17 This book explores various e-Services related to health, learning, culture, media and the news, and the influences the Web and related technologies have had and continue to have in each of these areas, both on service providers and service users. It provides insights into the main technological and human issues regarding healthcare, aging population, recent challenges in the educational environment, the impact of digital technologies on culture and heritage, cultural diversity, freedom of expression, intellectual property, fake news and, last but not least, public opinion manipulation and ethical issues. Its main aim is to bridge the gap between technological solutions, their successful implementation, and the fruitful utilization of the main set of e-Services mostly delivered by private or public companies. Today, various parameters actively influence e-Services' success or failure: cultural aspects, organisational and privacy issues, bureaucracy and workflows,

infrastructure and technology in general, user habits, literacy, capacity or merely interaction design. This includes having a significant population of citizens who are willing and able to adopt and use online services; as well as developing the managerial and technical capability to implement applications that meet citizens' needs. This book helps readers understand the mutual dependencies involved; further, a selection of success stories and failures, duly commented on, enables readers to identify the right approach to innovation in areas that offer the opportunity to reach a wide audience with minimal effort. With its balanced humanistic and technological approach, the book mainly targets public authorities, decision-makers, stakeholders, solution developers, and graduate students.

The CD-ROM Directory 1996 Jim Ayre, Jane Callaghan, Signe Hoffos, 1996 This 15th edition of a yearly report provides a guide to all CD-ROM and multimedia titles published. In addition to a full description of each title, the book contains the names and addresses of all the publishers and information providers.

Flanders Emma Thomson, 2012 Most people think they have Flanders - the Dutch-speaking northern half of Belgium - figured out: beer, chocolate and the EU are the standard tag lines. However, dig beneath the surface and you will discover a region of quirk and style. Author Emma Thomson introduces travellers not only to the World Heritage Sites of Brussels' Grand Place or Bruges' romantic canals but also to snug spots, like the bewitched village of Laarne and Geraardsbergen, the real home of Manneken-Pis. Flanders provides something for everyone: the city-break or business tourist seeking restaurants and shopping; the wildlife and outdoor enthusiast after bird-watching and rural

walks; the traveller wishing to seek out towns, villages and countryside off the beaten track; and the visitor in search of luxury and pampering. Dress up and join the merry madness of Aalst Carnival, spend the night in a traditional begijnhof, or simply people-watch over a bowl of mosselen-friet in Bruges' medieval town square. Entertaining and instructing in equal measure, Bradt's Flanders is the first guidebook to cover the entire region in depth. Join Emma Thomson on a journey along romantic canals, through bewitched villages and to bohemian cafés in this beguiling corner of Europe. Proost!
