BSI, storia di una banca della Svizzera italiana : [album] Luca M. Venturi, 2006

From BMF to 1MDB Teh Yik Koon, 2022-12-06 Bumiputra Malaysia Finance Limited (BMF) was a financial institution set up in Hong Kong at the end of 1977. Its parent bank was the Bank Bumiputra Malaysia Berhad (BBMB) which was established in 1965 with public funds to promote Bumiputera participation in the economy. In the 1980s, during Mahathir Mohamad's administration, BMF lost M\$2.5 billion, allegedly due to fraud and corruption, which could not be accounted for until today. After about 35 years, another similar colossal financial scandal was alleged to have taken place through 1Malaysia Development Berhad (1MDB). 1MDB is a development company set up by the Malaysian government in 2009, during Najib Razak's administration, with a focus on the long-term economic development of the country. However, within about eight years, it has run up more than RM42 billion in debts and key figures are tainted by allegations of abuse of power and corruption. It is therefore timely to revisit the BMF case, to discuss and compare it with the present interest in the 1MDB case. This book will highlight the alleged fraud and corruption that took place in both cases – tracing the money trail, the problematic structure of both organisations, the political and social structure and environment in Malaysia during the occurrence of both scandals, and finally compare both cases, to provide an analysis of the social and political progress of Malaysia in the last three decades.

Especially in 3rd BIS 2021, we brought up "Decade of Action towards Environmental Issues: Advancing the Innovation to Recover our Planet" as main theme. The conference will be held on Wednesday, December 15, 2021 in Magelang, Central Java, Indonesia. Scope includes Art & Linguistics, Communication, Economics, Education, Government Studies, Health Administration, Hospitality, International Relations, Law, Pharmacy, Political Studies, Psychology, Public Health, Religious Studies, Sociology, Health Sciences.

Comparative International Characteristics of Banking James R. Barth, 2004

Islamic Sustainable Finance, Law and Innovation Nadia Mansour, Lorenzo Mateo Bujosa

Vadell, 2023-07-26 This volume discusses the role and characteristics of Islamic finance and how it can contribute to a sustainable financial system. Islamic finance is not only for the 1.5 billion Muslims. Several countries are interested in it because it has interesting characteristics in terms of transparency and banking regulation. Although the origins of Islamic finance date back several centuries, its resurgence is relatively recent. From its modern beginnings in Egypt and Malaysia, Islamic finance is now a growing sector and its recent performance contrasts with that of conventional banks. Rapid growth and innovation are transforming the sector, driving economic development in an increasing number of jurisdictions, while also increasing the number of new opportunities and challenges. Today, with the problem of climate change and its adverse effects on the whole world, the flexibility of Islamic finance concerning the operations available to those who wish to finance the development of infrastructure, makes this area crucial for sustainable finance.

A Guide to IMF Stress Testing Ms. Li L Ong, 2014-12-23 The IMF has had extensive involvement in the stress testing of financial systems in its member countries. An added resource for readers is the companion CD-Rom, which makes available the toolkit with some of the models presented in the book (also located at elibrary.imf.org/page/stress-test-toolkit).

The covid-19 pandemic today forces humans to do almost all activities from home. Consequently, inventions in many fields of engineering technology are needed to facilitate those activities. Addressing Interconnectedness Mr.Nicolas Arregui,Mr.Mohamed Norat,Antonio Pancorbo,Jodi G. Scarlata,Eija Holttinen,Fabiana Melo,Jay Surti,Christopher Wilson,Rodolfo Wehrhahn,Mamoru Yanase,2013-09-26 This paper reviews tools used to identify and measure interconnectedness and raises the awareness of policymakers as to potential cross-sectional implications of prudential tools aimed at controlling interconnectedness. The paper examines two sets of tools—developed at the IMF and externally—to identify the implications of interconnectedness in systemic risk and how these tools have been applied in IMF surveillance. The paper then proposes a preliminary framework to analyze some key internationally-agreed-upon and national prudential tools and finds that while many prudential tools are effective in reducing interconnectedness, the interaction among these tools is far less clear cut.

Islamic Economic Institutions In Indonesia: Are They Successful In Achieving The Maqasad-al-shari'ah Toseef Azid,Muhammad Syafii Antonio,Zafar Kayani,Murniati Mukhlisin,2023-04-10 Islamic institutions have had a very long history, whose performance was muted during the Colonial Period. However, after the Second World War, the revival of the Islamic institutions began. Throughout its history, it had been assumed that these institutions are working for the betterment of humanity. Their target is to achieve a high level of the welfare for the concerned community. Historically these institutions were waqf, zakat and sadaqat. However from the last three decades, Islamic financial institutions have been established with the objective of providing interest- free products, transaction and services for Muslims. However there has been lot of criticism on the performance and role of these institutions. This becomes especially pertinent in a Muslim country like Indonesia, where there is a dire need to know that how these institutions are working and if it is possible for them to achieve the objectives of the Shari'ah. Some scholars have claimed that these institutions are performative and only serving 'lip service', and there are no significant differences between the Islamic and secular institutions where both kinds of institutions operate on the same foundations and differ only in use of technical terminologies. This volume aims to analyze some of the Islamic institutions which are operating in the world's biggest Muslim country, Indonesia, as a case study and analyze the contemporary Islamic Banking products and practices in the light of 'Maqasad al-Shari'ah'. The book's objective is to propose an improved system of Islamic institutions for Muslims to refer to. This volume will also analyze why these institutions are currently not able to comply with the Maqasad al Shari'ah and how it is possible to enhance the level of economic development, social wellbeing, individual freedom and equality, elimination of injustice and poverty, and achieve the other targets of the Maqasad through these institutions.

Risk Culture in Banking Alessandro Carretta,Franco Fiordelisi,Paola Schwizer,2017-10-11 This book explores risk culture in banks following the financial crisis. It analyses the role of national and institutional risk culture, market competitiveness, organisational systems and institutional practices that led to a weakening of risk culture in financial institutions leading up to the financial crisis. It addresses how to assess and measure risk culture, and analyse the impact on performance and reputation. Finally it explores the impact of regulation and a variety of tools that can be applied from the board down to promote a healthy risk culture in the governance of financial institutions internal controls and risk culture in banks.

Billion Dollar Whale Bradley Hope,Tom Wright,2018-09-18 Named a Best Book of 2018 by the Financial Times and Fortune, this thrilling (Bill Gates) New York Times bestseller exposes how a modern Gatsby swindled over \$5 billion with the aid of Goldman Sachs in the heist of the century (Axios). Now a #1 international bestseller, Billion Dollar Whale is an epic tale of white-collar crime on a global scale (Publishers Weekly), revealing how a young social climber from Malaysia pulled off one of the biggest

heists in history. In 2009, a chubby, mild-mannered graduate of the University of Pennsylvania's Wharton School of Business named Jho Low set in motion a fraud of unprecedented gall and magnitude--one that would come to symbolize the next great threat to the global financial system. Over a decade, Low, with the aid of Goldman Sachs and others, siphoned billions of dollars from an investment fund--right under the nose of global financial industry watchdogs. Low used the money to finance elections, purchase luxury real estate, throw champagne-drenched parties, and even to finance Hollywood films like *The Wolf of Wall Street*. By early 2019, with his yacht and private jet reportedly seized by authorities and facing criminal charges in Malaysia and in the United States, Low had become an international fugitive, even as the U.S. Department of Justice continued its investigation. Billion Dollar Whale has joined the ranks of *Liar's Poker*, *Den of Thieves*, and *Bad Blood* as a classic harrowing parable of hubris and greed in the financial world.
