Hugh Dauncey

**French Cycling** Hugh Dauncey, 2012-01-01 French Cycling: a Social and Cultural History aims to provide a balanced and detailed analytical survey of the complex leisure activity, sport, and industry that is cycling in France. Identifying key events, practices, stakeholders and institutions in the history of French cycling, the volume presents an interdisciplinary analysis of how cycling has been significant in French society and culture since the late Nineteenth century. Cycling as Leisure is considered through reference to the adoption of the bicycle as an instrument of tourism and emancipation by women in the 1880s, for example, or by study of the development in the 1990s of long-distance tourist cycle routes. Cycling as Sport and its attendant dimensions of amateurism/professionalism, national identity, the body and doping, and other issues is investigated through study of the history of the Tour de France, the track-racing organised at the Velodrome d'hiver in Paris in the 1920s and 1930s and other emblematic events. Cycling as Industry and economic activity is considered through an assessment of how cycling firms have contributed to technological innovation at various junctures in France's economic development. Cycling and the Media is investigated through analysis of how cycle sport has contributed to developments in the French press (in early decades) but also to new trends in television and radio coverage of sports events. Based on a very wide range of primary and secondary sources, the volume aims to present in clear language an explanation of the varied significance of cycling in France over the last hundred years.

The Tour De France, 1903-2003 Hugh Dauncey, Geoff Hare, 2004-08-02 This book analyses the Tour de France over its long history both as France's most prestigious and famous sporting event and as a European and, increasingly, a world cycling competition. This study provides interdisciplinary and varied perspectives on the sporting, cultural, social, economic and political significance of the Tour within and outside France, giving a comprehensive and authoritative investigation of up-to-the minute thinking on what the Tour means, now and in the past, to competitors, to France, to the French public, to the cultural history of sport, and the sport of cycling itself.

Beyond that old stone wall, Tristran learns, lies Faerie—where nothing, not even a fallen star, is what he imagined.
