Latinas on the Line Melissa Villa-Nicholas,2022-01-14 Latinas on the Line provides a compelling analysis and historical and theoretical grounding of the oral histories, never before seen, of Latina information workers in the Bell System from their entrance in 1973 to their retirements by 2015. Author Melissa Villa-Nicholas demonstrates the importance of Latinas of the field of telecommunications through their own words and uses supporting archival research to provide an overview of how Latinas engage and remember a critical analysis of their work place, information technologies, and the larger globalized economy and shifting borderlands through their intersectional identities as information workers. The book offers a rich and engaging portrait of the critical history of Latinas in telecommunications, from their manual to automated to digitized labor.

No Better Time Molly Knight Raskin,2013-09-10 No Better Time tells of a young, driven mathematical genius who wrote a set of algorithms that would create a faster, better Internet. It's the story of a beautiful friendship between a loud, irreverent student and his soft-spoken MIT professor, of a husband and father who spent years struggling to make ends meet only to become a billionaire almost overnight with the success of Akamai Technologies, the Internet content delivery network he cofounded with his mentor. Danny Lewin's brilliant but brief life is largely unknown because, until now, those closest to him have guarded their memories and quietly mourned their loss. For Lewin was almost certainly the first victim of 9/11, stabbed to death at age 31 while trying to overpower the terrorists who would eventually fly American Flight 11 into the World Trade Center. But ironically it was 9/11 that proved the ultimate test for Lewin's vision-while phone communication failed and web traffic surged as never before, the critical news and government sites that relied on Akamai-and the technology pioneered by Danny Lewin-remained up and running.

Enchantments Marci Kwon,2021-04-06 The first major work to examine Joseph Cornell's relationship to American modernism Joseph Cornell (1903-1972) is best known for his exquisite and alluring box constructions, in which he transformed found objects-such as celestial charts, glass ice cubes, and feathers-into enchanted worlds that blur the boundaries between fantasy and the commonplace. Situating Cornell within the broader artistic, cultural, and political debates of midcentury America, this innovative and interdisciplinary account reveals enchantment's relevance to the history of American modernism. In this beautifully illustrated book, Marci Kwon explores Cornell's attempts to convey enchantment-an ephemeral experience that exceeds rational explanation-in material form. Examining his box constructions, graphic design projects, and cinematic experiments, she shows how he turned to formal strategies drawn from movements like Transcendentalism and Romanticism to figure the immaterial. Kwon provides new perspectives on Cornell's artistic and graphic design career, bringing vividly to life a wide circle of acquaintances that included artists, poets, writers, and filmmakers such as Mina Loy, Lincoln Kirstein, Frank O'Hara, and Stan Brakhage. Cornell's participation in these varied milieus elucidates enchantment's centrality to midcentury conversations about art's potential for power and moral authority, and reveals how enchantment and modernity came to be understood as opposing forces. Leading contemporary artists such as Betye Saar and Carolee Schneemann turned to Cornell's enchantment as a resource for their own anti-racist, feminist projects. Spanning four decades of the artist's career, Enchantments sheds critical light on Cornell's engagement with many key episodes in American modernism, from Abstract Expressionism, 1930s folk art, and the emergence of New York School poetry and experimental cinema to the transatlantic migration of Symbolism, Surrealism, and ballet.

The Assistants Camille Perri,2016-05-03 “Ocean’s Eleven meets The Devil Wears Prada” (The Skimm) in this hilarious, razor-sharp debut novel about a group of overeducated and underpaid women who decide they’ve finally had enough... Rule #1: All important men have assistants. Rule #2: Men rule the world. Still. Rule #3: There is enough money. There is so much money. Tina Fontana is a thirty-year-old executive assistant to Robert Barlow, the CEO of Titan Corp., a multinational media conglomerate. She’s excellent at her job and beloved by her famous boss—but after six years of making reservations and pouring drinks from bottles that cost more than her rent, the glamour of working for a media company in New York has completely faded, but her student loan debt has not. When a technical error with Robert’s expense report presents Tina with the opportunity to pay off the entire balance of her loans with what would essentially be pocket change for her boss, she hesitates. She’s always played by the rules, but this would be a life-changer. As Tina begins to fall down the rabbit hole of her morally questionable plan, other assistants with crushing debt and fewer scruples approach her to say that they want in. Before she knows it, she’s at the forefront of a movement that has implications far beyond what anyone anticipated...
