Gas-bubble Disease of Salmonids Robert R. Rucker, 1972 Fish maintained in water supersaturated with air reach equilibrium with gases dissolved in water. These gases in the fish tend to equilibrate to the atmosphere the same as the gases in the water. Gas-bubble disease is characterized by bubbles under the skin, in the fins, tail, mouth, behind the eyeballs, and in the vascular system. Carbon dioxide does not cause gas bubble disease. Oxygen can cause gas-bubble disease at about 350 percent air saturation, but

nitrogen can cause the disease even below 118 percent air saturation. Excess gas in water can be produced by pressure, increase in temperature, and biotic metabolism, and can be reduced by exposure to air. Saturation tables for atmospheric oxygen and nitrogen in water for 0 degrees to 30 degrees centigrade are presented.

Merle Haggard Merle Haggard, 2002 Merle Haggard is known as the poet of the common man. His songs are some of the most important and influential in the history of country music, on par with the likes of those by Jimmie Rodgers and Hank Williams. Through a life as tumultuous as his music, scarred by struggles with inner demons, incarceration and addiction - all of which he has brutally and directly confronted through his lyrics - Haggard has emerged with an American songbook that captures the rough side of life with an unblinking eye gazing on the workings of the human heart. This collection comes on the heels of his acclaimed album *If I Could Only Fly*, his first new studio album in four years, which finds the former wildman coping with aging, taking on familial responsibilities, and learning to appreciate the wonders of home life versus the pitfalls of the highway. Haggard's lyrics demonstrate why this acclaimed member of the Country Music Hall of Fame is a legend who will live forever.

All Stories Are True Tracie Church Guzzio, 2011-05-17 In *All Stories Are True*, Tracie Church Guzzio provides the first full-length study of John Edgar Wideman's entire oeuvre to date. Specifically, Guzzio examines the ways in which

Wideman (b. 1941) engages with three crucial themes-history, myth, and trauma-throughout his career, showing how they intertwine. Guzzio argues that, for four decades, the influential African American writer has endeavored to create a version of the African American experience that runs counter to mainstream interpretations, using history and myth to confront and then heal the trauma caused by slavery and racism. Wideman's work intentionally blurs boundaries between fiction and autobiography, myth and history, particularly as that history relates to African American experience in his hometown of Pittsburgh, Pennsylvania. The fusion of fiction, national history, and Wideman's personal life is characteristic of his style, which-due to its complexity and smudging of genre distinctions-has presented analytic difficulties for literary scholars. Despite winning the PEN/Faulkner award twice, for *Sent for You Yesterday* (1984) and *Philadelphia Fire* (1990), Wideman remains understudied. Of particular value is Guzzio's analysis of the many ways in which Wideman alludes to his previous works. This intertextuality allows Wideman to engage his books in direct, intentional dialogue with each other through repeated characters, images, folktales, and songs. In Wideman's challenging of a monolithic view of history and presenting alternative perspectives to it, and his allowing past, present, and future time to remain fluid in the narratives, Guzzio finds an author firm in his notion that all stories and all perspectives have merit.

The American Experiment: Yesterday, Today and Tomorrow Randall Rush,2020-10-01 This book sets out the history of The American Experiment in self-government focusing on its original legal documents, The Declaration of Independence and The Constitution. It discusses how and why such a 'Total Heresy' as self-government ever arose and has survived for nearly 250 years. One focus is on the original genius of the 'Separation of Powers' that has become so muddled since the Framers created the Constitution. The horror of the World Wars and key aspects of the Presidents from Eisenhower through Carter and the two Bushes are summarized. Presidents Reagan, Clinton, Obama, and

Trump are discussed in increasing levels of detail. The failures of the Federal Department of Justice and the Federal Bureau of Investigation beginning with the Enron prosecution are summarized. The issues of the appointment of Supreme Court Justices, immigration, and the rise of socialism/communism in America are discussed in some detail. The failed bloodless coup d'etat and impeachment attempts to remove President Trump from office are discussed in depth as are the climate change debate and the Green New Deal. The geopolitical world from Europe, to Russia, the Middle East, China and North Korea are discussed as they are directly affecting future American freedom. One of the last chapters discusses why western man and specifically America arrived at the pinnacle of civilization while others did not. Finally, the author closes with, The Only Thing That Matters at the End of the Trail - a summary of his wishes for not only his descendants, but all the World.

Elizabeth Bishop's Poetics of Intimacy Victoria Harrison, 1993-01-29 Elizabeth Bishop's Poetics of Intimacy, a biographical and critical study of one of the great poets of this century, offers a fresh look at Bishop's published and unpublished writing over the course of her career. Informed by pragmatic, post-modern, and feminist theories, Victoria Harrison's study also makes extensive use of Bishop's archives, many pieces of which have never been discussed, to reveal the process of the

poet's writing. Harrison explores Bishop's childhood memoirs, journals, letters, Brazilian travel prose, unfinished poems, and draft material, researching dates of undated material and reproducing Bishop's revisions, cancellations, and idiosyncratic spellings. Attentiveness to the detail of this archival writing gives Harrison a broad foundation for arguing that Bishop treats some of our largest concerns - family relationships, sexuality, war, and cultural differences - within poetry and prose that are intimate but not self-revelatory and daily but never ordinary. Elizabeth Bishop charges the moments of her writing with the desires, fears, and passions of her life.
