Buddhism Daisaku Ikeda, 2009-06-01 Beginning with the events immediately following the dark days after the death of Shakyamuni and continuing over a period of 1,000 years, this dynamic tome covers a vast and complex series of events and developments in the history of Buddhism. Through a thorough examination of its early development in India, a new light is cast on little-known aspects of Buddhist history and its relevance to the understanding of Buddhism today. Topics include the formation of the Buddhist canon, the cultural exchange between the East and West, and the spirit of the Lotus Sutra.

Battle for Budapest Krisztián Ungváry, 2011-08-30 This title is presented with a new foreword by Istvan Deak. The battle of Budapest in the bleak winter of 1944-45 was one of the longest and bloodiest city sieges of World War II. From the appearance of the first Soviet tanks on the outskirts of the capital to the capture of Buda Castle, 102 days elapsed. In terms of human trauma, it comes second only to Stalingrad, comparisons to which were even being made by soldiers, both German and Soviet, fighting at the time. This definitive history covers their experiences, and those of the 800,000 non-combatants around whom the battle raged.

Buda's Wagon Mike Davis,2017-01-17 On a September day in 1920, an angry Italian anarchist named Mario Buda exploded a horse-drawn wagon filled with dynamite and iron scrap near New York's Wall Street, killing 40 people. Since Buda's prototype the car bomb

has evolved into a poor man's air force, a generic weapon of mass destruction that now craters cities from Bombay to Oklahoma City. In this provocative history, Mike Davis traces the its worldwide use and development, in the process exposing the role of state intelligence agencies-particularly those of the United States, Israel, India, and Pakistan-in globalizing urban terrorist techniques. Davis argues that it is the incessant impact of car bombs, rather than the more apocalyptic threats of nuclear or bio-terrorism, that is changing cities and urban lifestyles, as privileged centers of power increasingly surround themselves with rings of steel against a weapon that nevertheless seems impossible to defeat.
