**Financial Budgeting** Robert Anderson, 2020-02-03 Everyone has an opportunity to grow their money and get out of debt, but you must start to make this a reality. Be warned, though, when your income starts to grow, it is easy to fall into temptation and start spending more than you are earning again. Refrain and continue saving and investing your money. Every small step counts. Every coin kept and invested counts. If you use the profit you make, you will be unable to grow your wealth. Instead, allow your investment to grow by using the profits as part of the next year's principal. With time, you will have a venture that can not only buy you whatever you want but one that will continue to grow over the years. Taking advice from experts in the field you wish to invest is critical to your investment. Would you go to a farmer when you are sick, or would you seek out a doctor? The same way, take your investment knowledge from those who understand the market dynamics and can offer you advice to help grow your investment. Manage your credit cards with responsibility, or they will sink you into a hole. The easiest way to get into debt is to spend more than you earn. You need to keep your expenses lower than your income at all times. Watch your credit card spending because that's how we often find ourselves overspending. To get out of debt is to pay. The longer it takes you to pay, the higher the interest rate you will be required to pay. Either consolidate your debt or tackle one debt at a time. You might want to reduce your expenses, so you have more money to spread around. Always start by saving 10% of your income. A safety net is essential for your peace of mind. Budgeting does not have to be complicated. The more you simplify it, the better. As long as you track

your expenses and stick to your budget, it will work for you. Ensure that you don't view it as a task but as a necessary tool to help you stay ahead, get a real financial picture, and manage your money correctly. Each chapter in this book holds nuggets that will be valuable to you and those around you. Read this book and re-read it. Practice the tips outlined and stay focused and disciplined. Write your financial goal and stick it where you can see it every day, and it will motivate you to keep working on your plan and to achieve your goal.
