Gunboats, Corruption, and Claims Brian McBeth, 2001-04-30 The Cipriano Castro administration, which ruled Venezuela from 1899 to 1908, was characterized by a series of internal and external political crises which seemed capable of toppling it at any moment. In 1901, a number of foreign countries provided financial backing to Castro's former allies, united under the leadership of Manuel Antonio Matos, who almost brought the government down. In the midst of this civil war, Germany, the United Kingdom and later Italy instituted what came to be known as the peaceful blockade of Venezuela to force the government to honor its foreign debts. The claims and counter-claims stemming from the conflict would eventually force the three foreign countries to sever diplomatic relations in the ensuing years. Far from its portrayal as a nationalist champion, the Castro administration was, in McBeth's findings, more focused on the accumulation of personal wealth than on defense of Venezuelan interests. Castro would pay dearly for his misdeeds, losing power in a 1908 coup to Juan Vicente Gómez and remaining in exile until his death in 1924. The conflict would prove to be a watershed in relations with Latin America, as the United States modified its own foreign policy in response and the European powers became more aware of the limit of their political influence in the region.

Indigenous Elites and Creole Identity in Colonial Mexico, 1500-1800 Peter B. Villella, 2016-01-25 Modern Mexico derives many of its richest symbols of national heritage and identity from the Aztec legacy, even as it remains a predominantly Spanish-speaking, Christian society. This volume argues that the composite, neo-Aztec flavor of Mexican identity was, in part, a consequence of active efforts by indigenous elites after the Spanish conquest to grandfather ancestral rights into the colonial era. By emphasizing the antiquity of their claims before Spanish officials, native leaders extended the historical awareness of the colonial regime into the pre-Hispanic past, and therefore also the themes, emotional contours, and beginning points of what we today understand as 'Mexican history'. This emphasis on ancient roots, moreover, resonated with the patriotic longings of many creoles, descendants of Spaniards born in Mexico. Alienated by Spanish scorn, creoles associated with indigenous elites and studied their histories, thereby reinventing themselves as Mexico's new 'native' leadership and the heirs to its prestigious antiquity.
