Buffalo Philharmonic Orchestra Raya Lee,Edward Yadzinski,2010-10 The Buffalo Philharmonic Orchestra came into existence at the height of the Great Depression. Seventy-five years later, it is an internationally renowned, Grammy-winning Orchestra. The story of this amazing trajectory is told through more than 200 images in a beautiful 120-page coffee table book that celebrates music in Buffalo. Follow the BPO from Lajos Shuk to JoAnne Falletta, and meet many of the world's greatest musicians. Leonard Bernstein to Lang Lang, Johnny Mathis to the Grateful Dead, the BPO has brought the world of music to Buffalo. On tour, it has brought Buffalo to the world. Special sections showcase the BPO's home, the acoustically perfect Kleinhans Music Hall, the BPO's many Carnegie Hall appearances and the hundreds of recordings made over the decades.

City Douglas W. Rae,2008-10-01 How did neighborhood groceries, parish halls, factories, and even saloons contribute more to urban vitality than did the fiscal might of postwar urban renewal? With a novelist's eye for telling detail, Douglas Rae depicts the features that contributed most to city life in the early "urbanist" decades of the twentieth century. Rae's subject is New Haven, Connecticut, but the lessons he draws apply to many American cities. *City: Urbanism and Its End* begins with a richly textured portrait of New Haven in the early twentieth century, a period of centralized manufacturing, civic vitality, and mixed-use neighborhoods. As social and economic conditions changed, the city confronted its end of urbanism first during the Depression, and then very aggressively during the mayoral reign of Richard C. Lee (1954-70), when New Haven led the nation in urban renewal spending. But government spending has repeatedly failed to restore urban

vitality. Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engagements that make mixed-use city life so appealing and so civilized. Cities need not reach their old peaks of population, or look like thriving suburbs, to be once again splendid places for human beings to live and work.

The Guinness Encyclopedia of Popular Music: AACM to Fargo, Donna Colin Larkin,1992

Ethnic and Vernacular Music, 1898-1960 Paul Vernon,1995-12-11 Detailed information on almost all ethnic and vernacular recordings from many countries on 78rpm is provided in this seminal work. The current state of discographical research in this wide and varied field is such that a research tool of this nature is badly needed. Jesse Walter Fewkes and Mary Hemenway recorded Native American music as early as 1890; Bela Bartok recorded rural music in the Balkans; Erich von Hornbostel, the grand old man of ethnomusicology in Europe, recorded in Southeast Asia. More than just a discography, this work demonstrates that cultures around the world and over time have more similarities than differences. A necessity for scholars, students, archivists, and individual record collectors and dealers. The goals of this volume are many and varied: to promote thought and discussion toward a concise definition of recorded ethnic music; to assist specialists working on individual discographical projects; to introduce users to the interconnectedness of cultures through regional music; to gather heretofore disparate pieces of information under one cover in a way that for the first time allows specialists to accurately identify all manner of recordings in many languages. The four sections of the volume work together for easy usage through cross referencing. The philosophy behind the volume was expressed by Rodney Gallop when he remarked that music, for him, was often the key to the understanding of other cultures.

Homelessness Prevention and Intervention in Social Work Heather Larkin,Amanda Aykanian,Calvin L. Streeter,2019-06-26 This important text provides a comprehensive survey of homelessness in America: its scope and causes, its diverse populations, and the array of responses at the individual, community, and systems levels. Expert contributors explore the links between trauma and homelessness, the cycle of homelessness and health/mental health problems, and barriers preventing people from accessing services. Case studies of effective programs and practices focus on science-based interventions, broad understanding of client needs, and close coordination between systems and agencies. Finally, specialized chapters discuss issues and experiences common to homeless youth and young adults, including housing instability on college campuses and empowerment-based strategies for engaging youth voice in programming . Included in the coverage: Homelessness and health disparities: a health equity lens Affordable housing and housing policy responses to homelessness Street talk: homeless discourses and the politics of service provision Multisectoral collaborations to address homelessness Trauma-informed care in homelessness service settings: challenges and opportunities Incorporating youth voice into services for young people experiencing homelessness Homelessness Prevention and Intervention in Social Work fills a critical gap in the social work curriculum as a main or a supplementary text. It also makes an accessible resource for clinicians and community practitioners seeking current knowledge on the topic, practical approaches to working with clients experiencing homelessness, and useful information for effective program and policy design.

A Naturalist's Guide to the Great Plains Paul A. Johnsgard,2018 This book documents nearly 500 US and Canadian locations where wildlife refuges, nature preserves, and similar properties protect natural sites that lie within the North American Great Plains, from Canada's Prairie Provinces to the Texas-Mexico border. Information on site location, size,

biological diversity, and the presence of especially rare or interesting flora and fauna are mentioned, as well as driving directions, mailing addresses, and phone numbers or internet addresses, as available. US federal sites include 11 national grasslands, 13 national parks, 16 national monuments, and more than 70 national wildlife refuges. State properties include nearly 100 state parks and wildlife management areas. Also included are about 60 national and provincial parks, national wildlife areas, and migratory bird sanctuaries in Canada's Prairie Provinces. Many public-access properties owned by counties, towns, and private organizations are also described.

Submerged Landscapes of the European Continental Shelf Nicholas C. Flemming, Jan Harff, Delminda Moura, Anthony Burgess, Geoffrey N. Bailey, 2017-08-07 Quaternary Paleoenvironments examines the drowned landscapes exposed as extensive and attractive territory for prehistoric human settlement during the Ice Ages of the Pleistocene, when sea levels dropped to 120m-135m below their current levels. This volume provides an overview of the geological, geomorphological, climatic and sea-level history of the European continental shelf as a whole, as well as a series of detailed regional reviews for each of the major sea basins. The nature and variable attractions of the landscapes and resources available for human exploitation are examined, as are the conditions under which archaeological sites and landscape features are likely to have been preserved, destroyed or buried by sediment during sea-level rise. The authors also discuss the extent to which we can predict where to look for drowned landscapes with the greatest chance of success, with frequent reference to examples of preserved prehistoric sites in different submerged environments. Quaternary Paleoenvironments will be of interest to archaeologists, geologists, marine scientists, palaeoanthropologists, cultural heritage managers, geographers, and all those with an interest in the drowned landscapes of the continental shelf.
