The Mobilgas Economy Run Dave Hermanson,2014-02-25 The Mobilgas Economy Runs were annual competitions in which new American production automobiles vied not for speed, but for fuel economy--even as the industry was turning out bigger, more powerful cars year by year. This first complete history of the runs (including the predecessor Gilmore Economy Runs) follows each year's competitors day by day, covers some aspects not reported at the time and features a wealth of photographs. Why GM Matters William Holstein,2010-09-05 In November, GM CEO Rick Wagoner appeared before Congress to ask for \$25 billion to bail out the struggling Big Three automakers. To critics like Thomas Freidman and Mitt Romney, it was a sign that the American auto industry should be led out to pasture; if the Japanese are better at making cars, they said, then we should let them do it. To defenders, the loss of the country's largest manufacturing sector would be an incomprehensible disaster. Nearly every day, the debate rages on the op-ed pages. Billions of dollars and millions of jobs hang in the balance. In *Why GM Matters*, William Holstein goes deep inside GM to show what's really happening at the country's most iconic corporation. Where critics say that GM has sat on its hands while the market changed, Holstein demonstrates that GM has already radically retooled its entire operation, from manufacturing and cost structure to design. Where pundits say we'd be better off without GM, he shows how inextricably linked GM and the nation's economy still are: The country's largest private buyer of IT, the world's largest buyer of steel, the holder of pensions for 780,000 Americans, GM accounts for a full 1 percent of our country's GDP. A dollar spent on GM has profoundly different consequences from a dollar spent on Toyota. Following a diverse cast of characters-from Rick Wagoner, the controversial CEO, to design director Bob Boniface, to Linda Flowers, a team leader on the line in Kansas City-Holstein examines the state of GM's health and builds a persuasive argument that GM is essential to our nation's well-being and, with the right economic climate, ready to compete with Toyota as one of the biggest global automakers.
