Stress, burnout, staffing shortages, and even the erosion of trust in organizational leadership are pressing issues that need solutions. Using construction as their metaphor, authors Joe Tye and Bob Dent make a compelling case that a healthcare organization’s invisible architecture—a foundation of core values, a superstructure of organizational culture, and the interior finish of workplace attitude—is no less important than its visible architecture. In this third edition of Building a Culture of Ownership in Healthcare, readers will learn how investing in their organization and their people can enable a significant, successful change in productivity; employee engagement; nurse satisfaction, recruitment, and retention; quality of care; patient satisfaction; and positive financial outcomes.
