The Bullet Journal Method Ryder Carroll, 2021-12 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls intentional living: making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

Bullets, Bombs and Fast Talk James Botting,2008 From the Publisher: A desperate gunman holds a planeload of innocent passengers hostage. A heavily armed cult leader refuses to leave his compound, threatening mass suicide by a hundred of his brainwashed followers. A neo-Nazi militant in a cabin hideout keeps federal agents at bay with gunfire. A baby disappears; his only trace is an ominous ransom call to his parents. Prisoners riot, threatening the lives of prison officers and hundreds of other inmates. How do you react? What do you do? What do you say? Your words, your actions can save lives-or lose them. James Botting faced these challenges and daily pressures during a fascinating and demanding twenty-five-year career as an FBI hostage negotiator. He found himself involved-sometimes peripherally, more often personally-in many of the FBI's most famous events since the 1970s. From Ruby Ridge to Waco, Patty Hearst to Rodney King, and Wounded Knee to TWA 847, Botting was there and on the spot. Along the way hostage negotiation techniques evolved, changing from play-it-by-ear and shoot-from-the-hip to a carefully choreographed psychological game of life and death. Botting was involved every step of the way. In *Bullets, Bombs, and Fast Talk: Twenty-five Years of FBI War Stories*, Botting vividly describes these events and more as only a participant can. He reviews the successes and the times the FBI fell short. He chillingly recounts a number of times when death seemed inevitable, only to come through unscathed. Botting pulls no punches with this gritty, detailed, and often humorous insider's account of life at the end of a gun as an FBI hostage negotiator.

Handgun Bullet Stopping Power George B. Bredsten, 2008 For the law enforcement officer and the civilian who may be in a situation that requires the use of a handgun to stop a lethal threat action, it is important that the person differentiates between the crass, glib and self-serving advertisements of ammunition vendors and the reality of how, what and why effective stopping power occurs. Factors to consider are the physiological response, the psychological response, the time frame parameter and bullet efficacy. Of these four factors, only bullet efficacy can be somewhat controlled by the person, this only by understanding how and to what extent the bullet contributes to the degree of stopping power obtained. A number of concepts / formulae have been included so as to permit the reader to consider their merits and whether or not they are consistent with the reality of biology, physics and other relevant sciences. Finally the material in this book is intended to permit those persons to instruct, teach or make decisions regarding the selection of a service handgun/cartridge combination that will help to provide the means to prevail in a lethal threat confrontation. About the Author: Mr. Bredsten retired from the Federal Law Enforcement Training Center/Firearms Division (FLETC/FAD). With FLETC/FAD he performed duties as a firearms instructor and he also taught ballistics to the FLETC/FAD staff and to students in the Law Enforcement Rifle Training Program and in the Precision Rifle (Sniper) and Observer Program. Subjects covered included the ballistic coefficient, barrel time, the coefficient of reduction (form), Greenhill formula (rate of rifling twist), firearm recoil, bullet time-of-flight, bullet drop, bullet midrange, wind deflection, bullet penetration potential and bullet terminal (wounding) efficacy. Since retiring he has provided ballistics consultation service for the FLETC/FAD, the Transportation Security Agency, the Orange County (Florida) Sheriff's Department and Exxon Mobil Corporation. Mr. Bredsten attended and completed various classes/courses relating to firearms (e.g., H&K MP5, Steyr Aug, Uzi, Tactical Speed Shooting and advanced shotgun) and ballistics (e.g., the first and second International Wound Ballistics Conferences, a Federal Law Enforcement Ammunition and Ballistics Seminar and Oehler's Ballistic Instrumentation). Mr. Bredsten has an AA degree from Chaffey Jr. College and a BA degree from Sacramento State College and currently resides in Georgia.

Olympic Act Bill Gross, 2000-05 Olympic Act is a fictional account about a CIA agent who becomes the action officer in a counter terrorism program involving biological warfare attacks against NATO and other United States interests. For the most part, the book is a

first person description as though the agent was relating his actions, and his qualifications and background, to the reader. The action portion of Olympic Act is based wholly in a contemporary setting; involving the current (1999-2000) geo-political scene as it exists in the Trans-Caucasus region of the Russian Federation. The book delves into national and international political aspirations and problems; and it cites many of the inter-actions found in that environment. It specifically addresses the Russian Federation and its wants and needs to restore itself to a position of prominence and power, under Valdimir Putin. It shows interactions between the Russian Federation and the European Union; and it addresses the effects of rising Islamic political power throughout the Middle East.

Bullet Train Kotaro Isaka, 2021-08-03 A dark, satirical thriller by the bestselling Japanese author, following the perilous train ride of five highly motivated assassins—soon to be a major film from Sony starring Brad Pitt, Joey King, Aaron Taylor-Johnson, Brian Tyree

Henry, Andrew Koji, Hiroyuki Sanada, Michael Shannon, and Benito A Martínez Ocasio, and more Satoshi—The Prince—looks like an innocent schoolboy but is really a stylish and devious assassin. Risk fuels him, as does a good philosophical debate, such as questioning: Is killing really wrong? Kimura's young son is in a coma thanks to The Prince, and Kimura has tracked him onto a bullet train heading from Tokyo to Morioka to exact his revenge. But Kimura soon discovers that they are not the only dangerous passengers on board. Nanao, also nicknamed Ladybug, the self-proclaimed "unluckiest assassin in the world," is put on the bullet train by his boss, a mysterious young woman called Maria, to steal a suitcase full of money and get off at the first stop. The lethal duo of Tangerine and Lemon are also traveling to Morioka, and the suitcase leads others to show their hands. Why are they all on the same train, and who will make it off alive? A bestseller in Japan, *Bullet Train* is an original and propulsive thriller that fizzles with incredible energy as its complex net of double-crosses and twists unwinds up to the last station.
