A Stolen Life Jaycee Dugard, 2011-07-12 A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years On 10 June 1991, eleven-year-old Jaycee Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she experienced, including how she feels now, a year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

Rules of Play Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

Googled Ken Auletta, 2009-11-03 A revealing, forward-looking examination of the outsize influence Google has had on the changing media landscape. There are companies that create waves and those that ride or are drowned by them. As only he can, bestselling author Ken Auletta takes readers for a ride on the Google wave, telling the story of how it formed and crashed into traditional media businesses—from newspapers to books, to television, to movies, to telephones, to advertising, to Microsoft. With unprecedented access to Google's founders and executives, as well as to those in media who are struggling to keep their heads above water, Auletta reveals how the industry is being disrupted and redefined. Using Google as a stand-in for the digital revolution, Auletta takes readers inside Google's closed-door meetings and paints portraits of Google's notoriously private founders, Larry Page and Sergey

Brin, as well as those who work with?and against?them. In his narrative, Auletta provides the fullest account ever told of Google?s rise, shares the ?secret sauce? of Google?s success, and shows why the worlds of ?new? and ?old? media often communicate as if residents of different planets. Google engineers start from an assumption that the old ways of doing things can be improved and made more efficient, an approach that has yielded remarkable results? Google will generate about \$20 billion in advertising revenues this year, or more than the combined prime-time ad revenues of CBS, NBC, ABC, and FOX. And with its ownership of YouTube and its mobile phone and other initiatives, Google CEO Eric Schmidt tells Auletta his company is poised to become the world?s first \$100 billion media company. Yet there are many obstacles that threaten Google?s future, and opposition from media companies and government regulators may be the least of these. Google faces internal threats, from its burgeoning size to losing focus to hubris. In coming years, Google?s faith in mathematical formulas and in slide rule logic will be tested, just as it has been on Wall Street. Distilling the knowledge accrued from a career of covering the media, Auletta will offer insights into what we know, and don?t know, about what the future holds for the imperiled industry.

The Poisonwood Bible Barbara Kingsolver,2009-10-13 New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." -Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything

they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleanna Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.
