Broadcast burning in larch-fir clearcuts William Richard Beaufait,1975

Planning for Prescribed Burning in the Inland Northwest Robert E. Martin,John D. Dell,1978 Fire has historically played a role in forests and ranges of the inland Northwest. This guide has been prepared to help managers understand the role of fire and the potential uses of fire and to plan for fire use in managing these lands. Sections deal with these topics, and steps in planning a prescribed burn are outlined. A sample burning situation illustrates the planning and execution of a prescribed burn. References are given to help the reader locate pertinent information.

New York Burning Jill Lepore,2006-08-08 Pulitzer Prize Finalist and Anisfield-Wolf Award Winner In New York Burning, Bancroft Prize-winning historian Jill Lepore recounts these dramatic events of 1741, when ten fires blazed across Manhattan and panicked whites suspecting it to be the work a slave uprising went on a rampage. In the end, thirteen black men were burned at the stake, seventeen were hanged and more than one hundred black men and women were thrown into a dungeon beneath City Hall. Even back in the seventeenth century, the city was a rich mosaic of cultures, communities and colors, with slaves making up a full one-fifth of the population. Exploring the political and social climate of the times, Lepore dramatically shows how, in a city rife with state intrigue and terror, the threat of black rebellion united the white political pluralities in a frenzy of racial fear and violence.

Burning Plasma National Research Council,Division on Engineering and Physical Sciences,Board on Physics and Astronomy,Plasma Science Committee,Burning Plasma Assessment Committee,2004-05-01 Significant advances have been made in fusion science, and a point has been reached when we need to decide if the United States is ready to begin a burning

plasma experiment. A burning plasmaâ€”in which at least 50 percent of the energy to drive the fusion reaction is generated internallyâ€”is an essential step to reach the goal of fusion power generation. The Burning Plasma Assessment Committee was formed to provide advice on this decision. The committee concluded that there is high confidence in the readiness to proceed with the burning plasma step. The International Thermonuclear Experimental Reactor (ITER), with the United States as a significant partner, was the best choice. Once a commitment to ITER is made, fulfilling it should become the highest priority of the U.S. fusion research program. A funding trajectory is required that both captures the benefits of joining ITER and retains a strong scientific focus on the long-range goals of the program. Addition of the ITER project will require that the content, scope, and level of U.S. fusion activity be defined by program balancing through a priority-setting process initiated by the Office of Fusion Energy Science.

Persistent Spectral Hole-Burning: Science and Applications William E. Moerner,2012-12-06 Almost fifteen years have now elapsed since the first observations of persistent spectral hole-burning in inhomogeneously broadened absorption lines in solids. The fact that the spectral shape of an inhomogeneously broadened line can be locally modified for long periods of time has led to a large number of investigations of low-temperature photophysics and photochemistry that would not have been possible otherwise. Using hole burning, important information has been obtained about a variety of interactions, including excited-state dephasing processes, host-guest dynamics, proton tunnelling, low-frequency excitation in amorphous hosts, relaxation mechanisms for vibrational modes, photochemical mechanisms at liquid helium temperatures, and external field perturbations. At the same time, the possibility that persistent spectral holes might be used to store digital information has led to the study of materials and configurations for frequency-domain optical storage and related possible applications. This is the first full-length book on persistent spectral hole-burning. The goal is to provide a broadly based survey of the scientific principles and applications of persistent spectral hole-burning. Since the topic is quite interdisciplinary, the book is intended for researchers, graduate students, and advanced undergraduates in the fields of chemical physics, solid-state physics, laser spectroscopy, solid-state photochemistry, and high-performance optical storage and optical processing.

Subversive Influences in Riots, Looting, and Burning United States. Congress. House. Committee on Un-American Activities,1967

Burning for the Control of Aphids on Alfalfa in the Antelope

Valley of California R. A. Blanchard, Harry Bruce Walker, O. K. Hedden, 1933

The Burning Bush Edward Reaugh Smith, 1997 Even more significant for Christianity in the long run than the twentieth-century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works. Virtually unavailable until the end of the twentieth century, English translations from the German archives are gradually coming into print. Both Steiner and his works have thus far been virtually unknown in traditional theological circles. No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy. Now, ten years after first encountering a written comment about Rudolf Steiner, Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner. The result is the first Bible commentary in the light of anthroposophic insight. This is the first volume of a series of Bible commentary by the author. It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century. Bible commentaries have always reflected the general line of thinking of their authors. However, the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here. A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic, or spiritual-scientific, groundwork. A major assumption indulged in most Bible commentaries--that one can go directly to portions dealing with given passages of scripture and understand what is being said about them--does not fit.

Burning by Prescription in Chaparral Lisle R. Green, 1981 Explains the factors affecting fire behavior, and how to carry out and evaluate a prescribed burn.

Biomass Burning in South and Southeast Asia Krishna Prasad Vadrevu, Toshimasa Ohara, Christopher Justice, 2021-06-23

Unique in its discussion of the sources and the causes of biomass burning and atmospheric research in South and Southeast Asia. Explains the latest tools and techniques, in particular, the use of Satellite Remote Sensing and Geospatial technologies for fire mapping, monitoring, and Land Cover/Land Use. Focuses on large spatial scales integrating top-down and bottom-up methodologies. Addresses the pressing issues of environmental pollution that are rampant in South and Southeast Asia. Includes contributions from global experts actually working on biomass burning projects in the US, Japan, South/Southeast Asia, and Europe.
