The South Korea Travel Journal Younghusband World Travel Journals Staff,2013-04-01 I don't always design travel journals, but when I do they are the kind of travel journals that people throw parades for. - Cormac Younghusband, The World's Most Legendary Nomad THE SOUTH KOREA TRAVEL JOURNAL has been carefully crafted by the legendary nomad Cormac Younghusband to help make your trip unforgettable, fun and organized—with plenty of room to help spur spontaneity and document new discoveries. This journal can help you plan, live out and record every stage of your journey to South Korea—from pre-trip, to getting there, to being there, to getting home, and afterwards. South Korea food is among the world's finest. They do this thing with the thing! - Cormac Younghusband, The World's Most Legendary Nomad The first part of the journal is for PRE-TRIP PLANNING and contains sections for important information, a page to write about what inspired you to make the trip, a page to write about the who, where, what, when, how of the journey, a page to make note of your travel companions, a number of pages to organize your travel research.* Plus, you will find sections for drafting an itinerary and keeping a journey to-do checklist. The second part of the journal deals with GETTING THERE, containing sections to describe getting there and arriving.

The third part of the journal is all about **BEING THERE**. There are sections for: tracking the stuff you buy and for your daily adventures there are 50 two-page daily records to keep notes on: day #, date, weather, places visited, what happened today + thoughts on what happened, the highlight of the day and extensive notes (with a handy reminder list of things to write about). Because there are about 48,860,500 people in South Korea, there's also a section to record the names and contact info of the people you meet along the way. The fourth part of the journal is for **GETTING HOME**, that fateful day you depart and the days that follow. There are sections for describing your departure, for making your own top 10 highlights lists, a country radar to help you create a signature review of the country, and an afterwards where you can sum up the meaning of your trip. When a trip is over, Cormac Younghusband recommends you start planning your **NEXT TRIP**. To help, there is a section where you can make a travel wish list. Also included is a **COUNTRY BRIEF** to give you important info on the destination and a **MAP** to give you an idea of the lay of the land. Plus, at the back of the book there are sections for: generic packing ideas, measures and conversions, and pages for notes, sketches, maps and such Find a place in the world you haven't been, and go there. Keep on trucking, my friends - Cormac Younghusband, **The World's Most Legendary Nomad** - - - - - *

Tourism and Regional Science Soushi Suzuki, Karima

Kourtit, Peter Nijkamp, 2021-07-27 This book provides new roads, perspectives, and a synthesis for tourism and regional science research. Tourism has become one of the most dynamic sectors in the economy and has exhibited a structurally growing importance over the past decades. In many countries the economic significance of tourism now exceeds that of traditionally strong sectors like agriculture or transportation. It is noteworthy that in recent times, tourism research has gained great momentum from the perspective of: the leisure society; the psychological tension between hard work and a more relaxed lifestyle; and the productivity-enhancing or productivity-diminishing effects of leisure, recreation, and tourism. An abundance of new literature in the field of tourism management can also be found, for instance, in the areas of hospitality management, cultural events management, destination competitiveness policy and marketing, and transportation and logistics strategies, while much attention is also being paid to the opportunities provided by digital technology for the tourism sector. In addition, in the light of the many

negative externalities of a rapidly growing tourism sector, there is also an abundant literature on the environmental and sustainability effects of tourism. This book has the following objectives: to explore the interwoven connection between regional science and tourism research; to suggest promising pathways for innovative regional science research at the interface of tourism and space; and to demonstrate the need for a new perspective on the tourism and regional science nexus by means of empirical studies.
