*International Tax Glossary* Susan M. Lyons, International Bureau of Fiscal Documentation, 1996 The IBFD International Tax Glossary is currently in its third, revised edition. Since the first edition was published on the occasion of the IBFD's 50th anniversary in 1988, this definitive & authoritative desk reference has been continuously expanded & updated to reflect the changes taking place in international tax & investment. The International Tax Glossary provides the broadest possible coverage of the language of taxation. The first part of this book gives clear, concise definitions in English of more than 2,000 tax terms. The second part gives an alphabetical listing of 400 English terms from the first part of the book with their French, German & Spanish equivalents. Naturally, the International Tax Glossary provides accurate descriptions of all those traditional terms that confuse those new to or unfamiliar with tax. However, it also looks at the more exotic terms that leave even those with many years of experience in the profession guessing about their exact meaning, such as: \* Bed & Breakfasting, the practice of selling shares late in the day & repurchasing them the next day in order to establish a loss or to offset a capital gain \* Wash Sale, a tax avoidance device whereby a person claims a loss on the sale of securities but has in fact acquired (or contracted to do so) substantially similar or identical securities \* Olim, an Israeli term for new immigrants who are given various tax benefits \* Rort, an Australian term denoting the deliberate & blatant exploitation of an opportunity in an improper, if not technically illegal, manner \* Alcabala, an old Spanish turnover tax levied on the sales price or exchange value of tangible property The listing of terms with their subscriptions is extensively cross-referenced indicating similar or related terms as well as contrasting terms.

**The Global Findex Database 2017** Asli Demircuc-Kunt,Leora Klapper,Dorothe Singer,Saniya Ansar,2018-04-19 In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalfindex](http://www.worldbank.org/globalfindex).
