**Start Your Business in 7 Days** James Caan, 2012-03-01 Work for yourself in just one week with Britain's most dynamic entrepreneur 'Everybody wants to be an entrepreneur. Every single day of my life I am bombarded by people with pitches. But 90% of new businesses fail, because their founders failed to ask themselves the simplest of questions. I can save you years of wasted time and thousands of pounds of wasted money by giving you the ammunition to ask the right questions, and helping you make the decision that is right for you. I will show you how to spend a maximum of seven days deciding if your idea is workable and bankable. How to say 'I'm in', but equally importantly, to have the courage to say 'I'm out'. How to become your own Dragon. Each piece of advice in this book is based on my thirty years of starting businesses. You will find all the fundamental ingredients for any new company, whatever sector you want to be in, whatever size of business you have in mind, along with the tools to make it work. Answer all the tough questions I am going to get you to ask yourself and you will have a business that genuinely has a chance of success. You can be one of the 10% of businesses that do make it.' - James Caan. James Caan is one of the UK's most successful and dynamic entrepreneurs, having built and sold businesses since 1985. After dropping out of school at sixteen and starting his first business in a Pall Mall broom cupboard - armed with little more than charm and his father's advice - Caan went on to make his fortune in the recruitment industry, founding the Alexander Mann Group, a company with a turnover of £130m. A 2003 graduate of Harvard Business School, Caan's most recent endeavour has been to set up private equity firm Hamilton Bradshaw. Mental Sparks Nathan Ayotte,2020-10-29 One of the early books I read, The Success Principles, by Jack Canfield instructed if you “think it, Inc. it.” Although Canfield was making a play on words to Incorporate your ideas, this was my immediate clue to begin writing down these ideas on what I originally called an Invention Idea List. Through the process of time, I have collected 36 invention ideas, and 39 business ideas, for a total of 75 ideas. Now, I am making my list public. Each invention and business idea is provided a written description, a background from which the idea came to fruition, and a status of its potential for you. Whether you are an upcoming or experienced inventor looking for fresh invention ideas, this book will be a resource for you. Additionally, if you are looking for dozens of new, business ideas to spark means of creating income, this book is also for you. No doubt, the price of this book is expensive. The reason is the intellectual property value that I am exposing publicly. Many of these ideas I prefer not to make public because of their high investment return potential, but to align with my personal principle, Honesty is always the best policy, all of my remaining 75 ideas are being publicized. As a result, I encourage you to utilize the content of this book to broaden your awareness of potential millionaire invention ideas, and income producing business ideas.
