**The Young Entrepreneur's Edge** Jennifer Kushell, 1999 It seems like these days, whenever you look at a newsstand, at least one major business magazine has a cover story about a wildly successful entrepreneur in his or her 20s or 30s. That's not surprising when one considers that one out of every five small-business owners in America is under 35, and that more young people are starting businesses than ever before. Right now, in college dorm rooms and their parents' garages, the next generation of Sam Waltons, Bill Gateses, and Michael Dells are hard at work. If you are ever going to take risks in exploring your career options, this is the absolute best time to do it, says 26-year-old entrepreneurial expert Jennifer Kushell. Why wait until you have a semi-stable corporate job and major financial obligations to discover that you hate your career and need to make a big change? Kushell is the ideal mentor for young people thinking about taking the plunge. Her very successful Young Entrepreneurs Network educates teens and twentysomethings in 40 countries about forming their own companies. A born entrepreneur -- her father and aunt are leading experts on franchising and trademark licensing, respectively -- Kushell presided over her own company's growth while attending college full-time. Her book draws on her invaluable hands-on experience: It's not so much a how-to-start-a-business book as it is a how-to-cope-with-life-while-

starting-and-succeeding-in-your-own-business book, the author says. All I can say is that this is the real deal, the real story. With wit, candor and exuberance for her subject, Kushell gives practical and personal insight from a young entrepreneur's point of view to help new business owners get through their first few years. The book also teaches you tricks of the trade that you can rely on to compete successfully in a business world with people twice your age and companies God-knows-how-many-times-as big, she adds. The Young Entrepreneur's Edge addresses key topics such as trying to obtain capital and writing a business plan, which, the author says, are among the biggest obstacles for young entrepreneurs. But the book also tackles critical areas that other business books rarely address: how to get older people to take you seriously; how not to starve when you're broke; how to win your family's approval; how to get out and meet important people; how not to get carded when entertaining clients; and other unique situations faced by young business people. Praise for The Young Entrepreneur's Edge Fresh college graduates frustrated by the job search should pick up a copy of [this book]. --Los Angeles Times Can help both job-seekers and job-holders rethink their idea of gainful employment. --Mademoiselle Entertaining, fast-reading, and immensely sensible. Kushell is a human dynamo. --Sacramento Bee Every young entrepreneur needs good ideas, and this book is full of them. --Fred Deluca, founder and president of Subway(R) Restaurants It is a must-read for my students. --Kathleen R. Allen, Ph.D., The Entrepreneur Program, University of Southern California

**Innovations in Magazine Publishing** Simon Das, David Stam, Andrew Blake, 2021-05-05 This book examines the key developments in the UK magazine industry since 2014 and explains in detail how the business has innovated to survive. *Innovations in Magazine Publishing* explores the key issues that publishers and editors have had to grapple with in recent years and demonstrates how they have changed their business models and encouraged innovation and creativity. Written in an engaging and accessible style, the authors and contributors have drawn on years of industry expertise and contacts to examine the massive changes that have taken place in the areas of content creation and advertising in the last decade. Beginning with a highly useful summary of UK magazine publishing history, the book then provides a detailed focus on how magazines have had to adapt to a declining revenue picture in both copy and advertisement sales. This discussion considers changes in ownership and the supply chain, mutual dependency on social media, the rapid growth of the independent sector, investing in brand and product extensions, and how media companies themselves have changed to meet the demands of the new era. The important issue of ethnic diversity within the UK publishing industry is addressed and the introduction also includes a discussion of the effects of the Covid-19 pandemic on the industry, and how the magazine business will need to respond to whatever the future may bring. This comprehensive overview of the current state of the industry is a vital resource for students, researchers and professionals in magazine journalism, as well as for those studying media and journalism studies more generally.
