The Four Intelligences of the Business Mind Valeh Nazemoff, 2014-11-12 Valeh Nazemoff recommends leaders apply what she calls ‘mastermind intelligence’ to find strategy sweet spots by being smart about financial, customer and business data.—Sonja Carberry, Keep Business Strategy in Motion to Stay Competitive, Investor’s Business Daily, Jan. 8, 2015 It takes a lot of smarts to run a business, but not just any smarts. Four specific mental skills or ‘intelligences’ will help make any entrepreneur more successful, according to Valeh Nazemoff. —Minda Zetlin, 4 Mental Skills Every Business Leader Needs, Inc., Dec. 24, 2014 Nazemoff offers a framework to help business leaders sort through the endless barrage of data and make decisions effectively...ultimately helping business transform and grow to where you want it to be. —Nicole Fallon, Business News Daily, Dec. 17, 2014 I highly recommend that you look at your organization through the lens of The Four Intelligences of the Business Mind. If you do so, your business will improve in unexpected ways. —Mark Waldman, Executive MBA Faculty, Loyola Marymount University The Four Intelligences of the Business Mind uses a revolutionary four-quadrant-based approach to teach you how to retrain your brain to optimize and transform your business. Valeh Nazemoff has written an excellent book with a commonsense approach and clear guidance. —Shaun Khalfan, Chief of Cyber Infrastructure, Department of the Navy A new pragmatic synthesis of organizational psychology, business analytics, and multiple intelligences theory, The Four Intelligences of the Business Mind lays out a scheme of four discrete but interlocking types of intelligence essential to business success. These intelligences are scalable and transferable from the individual leader to the organizational ecosystem. This short book teaches executives first

to analyze and train their own brains in these four intelligences; then to transform their organizations by applying their sharpened quadruplex intelligence to their business analyses and decisions; and finally to train and incentivize their companies to map onto a collective organizational scale the mental transformation modeled by the mastermind leader. The four essential business intelligences identified by IT executive and organizational psychologist Valeh Nazemoff are financial intelligence, customer intelligence, data intelligence, and mastermind intelligence. Financial intelligence informs your ability to reinvest and regrow your business boldly but prudently in the light of predictive, risk, and business analytics. Customer intelligence informs your ability to rethink your approaches to attracting and keeping customers using customer, web, mobile, social, big data, and behavioral analytics. Data intelligence informs your ability to reinvent and recreate information in automated graphical representations to enable rapid decision-making using visual, cloud, web, and operational analytics, AI, and distance collaboration platforms. Finally, mastermind intelligence involves your ability through leadership and team exercises to impart to your employees and organization the same transformative honing and integration of business intelligences as you have undergone yourself. Practical, relevant, insightful, engaging, and a pleasant read, *The Four Intelligences of the Business Mind* puts human decision making into a whole new light, revealing practical steps that will allow you to reinvent your business and customer relationships! —James Brady, PhD, FHIMSS, Chief Information Officer, Kaiser Permanente Orange County An invaluable book that shows you how to harness the inevitable transformations in business by understanding your mind better. —Alan Komet, Vice

President, Global Sales Operations, FalconStor Software, Inc. A must-read book for every business person. —Chuck Corjay, Ret. Chairman, AFCEA International Valeh Nazemoff has written an intelligent, thoughtful book full of insight and practical advice. The Four Intelligences of the Business Mind reframes the way our minds work, and in doing so transforms how we drive business forward. This book is a must-read! —Joe DiStefano, Senior Vice President and Market Executive, Cardinal Bank

Mind is your Business and Body the Greatest Gadget (2 Books in 1)

Sadhguru, 2015-04-30 Mind is your Business For most people, the mind seems to be an unruly cacophony, attempting to grasp and shape everything which falls in its purview. In mind is your business, Sadhguru explains that only if we make it “our business” to transform this uncoordinated mess into a well – coordinated symphony, will we able to use the mind, rather than be used by it. Body the Greatest Gadget BODY, THE GREATEST GADGET, is an introduction to the most sophisticated and incredible device on the planet. In the course of this book, Sadhguru explores the yogic physiology and the many subtle dimensions of the body. It is a first step on an intriguing and exciting journey that culminates in total mastery of the system, allowing us to stay rooted in the physical, and yet taste the beyond. Above all, the book is a glimpse of a possibility to live and function in a way that most human beings would consider superhuman. Sadhguru is a yogi and profound mystic of our times. An absolute clarity of perception places him in a unique

space in not only matters spiritual but in business, environmental and international affairs, and opens a new door on all that he touches.

Mind Your Own Business Sidney Harman, 2003-10-28 "The maverick's way of conducting business forswears the leader as commanding general; it rejects the practice of top-down, authoritative command. Rather, it proposes the leader as catalyst, conscience, and inspirer . . . The true leader sees his job as setting an environment in which new ideas can emerge that neither he nor any other individual anticipated. That leap of imagination, that moment of genuine creativity, can only be inspired by a leader who encourages exploration and shows a willingness to consider a totally new approach." -
-from Mind Your Own Business The corporate misdeeds of self-serving executives during the high-octane economy of the 1990s have forced many people to rethink the qualities that make a strong leader. For sixty years, Sidney Harman, the chairman and CEO of the world's premier manufacturer of high-end audio equipment, has stood apart from the crowd, building his business the old-fashioned way, by satisfying customers and, in doing so, making a healthy profit. His refreshingly employee-centric, bottoms-up approach to business is the secret of Harman International's continuing success. In Mind Your Own Business, Harman shares his visionary ideas about leadership, providing a welcome contrast to the bad behavior of business leaders recently dominating the news. Harman focuses on creating a culture of personal responsibility throughout his company. He likens his top management team to a jazz quartet that listens to and improvises with one another to create harmony. He stresses the need to do more for workers at every level because employees are the company's most valuable asset. At Harman International, he has

established in-house classrooms to teach English, basic math, health, and music, and encourages his employees to pursue their potential. Now a hale and healthy eighty-five, Harman thinks that “an idea a day” is more important than the proverbial apple and that the key to a long life is a restless curiosity. In the bestselling tradition of Max DePree’s *Leadership Is an Art*, *Mind Your Own Business* is a frank, no-nonsense guide for those who want to bring strength, vitality, and values to their businesses—and to their lives.

Mind Your Business Toine Knipping, 2012-08-07 “Toine Knipping has taken to heart the statement, ‘One day your life will flash before your eyes. Make sure that it is worth watching.’ In a very engaging, lucid style, he draws the reader not only into his philosophy of entrepreneurship but also explains how to live a well-rounded life. This is a book full of wisdom—highly recommended to anyone interested in acquiring a deeper understanding of the inner theatre of the entrepreneur.” —Manfred F. R. Kets de Vries, Clinical Professor of Leadership and Organizational Change, The Raoul de Vitry d’Avaucourt Chaired Professor of Leadership Development “While you may or may not agree with everything Toine Knipping says, one thing is for sure: he is an inspiration to all entrepreneurs. *Mind Your Business* is a practical and necessary read for anyone who wants to succeed in business.” —Chip Conley, Founder of Joie de Vivre Hotels and author of *PEAK* and *Emotional Equations* “*Mind Your Business* is a rare book that combines eminently practical and valuable advice for would-be entrepreneurs with wise reflections that imbue the whole activity with a larger purpose. Toine Knipping is a hugely successful entrepreneur who has valuable observations not only about business but also about the business of life. *Mind Your Business* should not only be read by budding entrepreneurs but

by everyone who is involved in business life and is struggling to give this life more meaning.” —Sudhir Kakar, World-renowned Psychoanalyst and Author of numerous books including *The Inner World*

Train Your Brain Dana Wilde, 2013-08 “Using Train Your Brain, in two years, I’ve gone from zero to a million dollars a year in my business and paid off \$30,000 in debt!” ~ Sarah Thomas, Basehor, KS When Dana Wilde began her direct-sales business, she realized that education for entrepreneurs typically consisted of endless “how-to” explanations: how to market, how to pick up the phone, how to manage your time, how to increase bookings or sales. There always seemed to be a new system to learn, a new surefire method or cutting-edge technique for entrepreneurs to master. In an effort to teach her team members a better and easier way, Dana Wilde created Train Your Brain, a tested and proven system combining elements of both mindset and action ... or as Dana likes to call it, Intentional Action. What Dana discovered by using Train Your Brain is that mindset can be “taught” and that learning simple mindset strategies not only allows you to understand how the brain works but also shows you how easy it is to change your thinking and, as a result, change your outcomes. In Train Your Brain, Dana breaks down the Cycle of Perpetual Sameness—the number one reason why most people only experience incremental change in their lives. More importantly, she also provides the much-needed blueprint to help you get off this counterproductive cycle quickly. Train Your Brain, with its twenty easy-to-implement “Mindware Experiments,” gives you all the necessary tools needed to get off ... and stay off ... the Cycle of Perpetual Sameness, so you can transform your life and grow your business in record time!
