Overbooked Elizabeth Becker, 2016-02-23 Travel is

no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product; nations as stewards. Seeing the tourism industry from the inside out, the world offers a dizzying range of travel options but very few quiet getaways --

Underlying these developments are concerns over the environmental impact of increasing air travel, which are likely to generate new challenges for the future of business travel. From a team of international experts comes this analysis of the role, nature and effects of modern business travel. Issues addressed include the relationships between airlines and business travellers, the role of mobility in business, and the opportunities and challenges created by mobile workforces. The study combines theoretical advances with comprehensive analysis, and will provoke debate across the social sciences on the nature, organization and space of work in the twenty-first century.

The Business Traveler's Guide for Travel and Pleasure Elyse Fuller,2010-11-23 It's important to know your objectives on a business trip and to set out with those goals in mind and to accomplish them. But along the way, something rather amazing happens when you travel on business. You may get

to go to some pretty amazing places and get chances to see things you would have never sought out if you have your wits about you as you travel. Depending on what type of business you're in it may be necessary to move around a lot. Whether it's taking frequent bus trips, flying to far off places or just driving to the next county, traveling can take its toll on anyone. Besides the occasional airport delay or layover and the ever present issue of how weather affects your business trips, it is always hard to say goodbye to your family as you go out of town to accomplish the mission of your business trip. This book is specifically geared towards people who are traveling for business reasons. It's a beneficial guide for anyone who's traveling more than twenty or thirty miles or going somewhere they've never been before. Because of this you'll find that the book is light on tourism and sightseeing and focuses on utilitarian locations and important travel information. Although business travel can be rewarding, interesting, profitable and broadening for the business traveler, it can also be a stressful venture especially if you must travel for business often. But, if you know what rules to follow and which easy paths to take, it can mean the difference between hectic frustration and leisurely gratification.
