The Last Narco Malcolm Beith, 2010-09-07 “Malcolm Beith risked life and limb to tell the inside story of Joaquín ‘El Chapo’ Guzmán Loera, Mexico’s notorious drug capo.” —George W. Grayson, author of *Mexico: Narco-Violence and a Failed State?* The dense hills of Sinaloa, Mexico, were home to the most powerful drug lord since Pablo Escobar: Joaquín “El Chapo” Guzman. Guzman was among the world’s ten most wanted men and also appeared on Forbes magazine’s 2009 billionaire list. With his massive wealth, his army of professional killers, and a network of informants that reached into the highest levels of government, catching Guzman was once considered impossible. Newly isolated by infighting amongst the cartels, and with Mexican and DEA authorities closing in, El Chapo was vulnerable as never before. Newsweek correspondent Malcolm Beith had spent years reporting on the drug wars and followed the chase with full access to senior officials and exclusive interviews with soldiers and drug traffickers in the region, including members of Guzman’s cartel. *The Last Narco* combines fearless reporting with the story of El Chapo’s legendary rise from a poor farming family to the “capo” of the world’s largest drug empire. “*The Last Narco* gracefully captures the heroic struggle of those who dare to stand up to the cartels, and the ways those cartels have tragically corrupted every aspect of Mexican law enforcement.” —Laura Bickford, producer, *Traffic*

Whitehall Effect John Seddon, 2014-05-11 John Seddon explains how successive governments have failed to deliver what our public services need and exposes the devastation that three decades of political fads, fashions and bad theory have caused. With specific examples and new evidence, he chronicles how

the Whitehall ideas machine has failed on a monumental scale - and the impact that this has had on public sector workers and those of us who use public sector services.

The Last Byline Rip Rense,2003-01-01 THE LAST BYLINE --- A calamitous year in dyspeptic newspaper reporter Charles Bogle

The Reinvention of Mexico Gavin O'Toole,2010-01-01 The Reinvention of Mexico explores the ideological conflict between neoliberalism and nationalism that has been at the core of economic and political development in Latin America since the mid-1980s. Grappling with a wide variety of issues generated by the dismantling of the statist economy and subsequent climate of market reforms, this timely volume shows that Mexico's transformation in the 1990s has broader implications for the study of nationalism. A welcome contribution to the literature on Latin American history, The Reinvention of Mexico offers important insight into national responses to globalization and the most appropriate vision of political economy in Latin America.

Edinburgh History of the British and Irish Press, Volume 2 Finkelstein David Finkelstein,2020-01-10 A thorough account of newspaper and periodical press history in Britain and Ireland from 1800-1900Provides a comprehensive history of the British and Irish Press from 1800-1900, reflected upon in 60 substantive chapters and focused case studiesSets out to capture the cross-regional and transnational dimension of press history in nineteenth-century Britain and IrelandOffers unique and important reassessments of nineteenth-century British and Irish press and periodical media within social, cultural, technological, economic and historical contextsThis is a unique collection of essays examining nineteenth-century British and Irish

newspaper and periodical history during a key period of change and development. It covers an important point of expansion in periodical and press history across the four nations of Great Britain (England, Ireland, Scotland and Wales), concentrating on cross-border and transnational comparisons and contrasts in nineteenth-century print communication. Designed to provide readers with a clear understanding of the current state of research in the field, in addition to an extensive introduction, it includes forty newly commissioned chapters and case studies exploring a full range of press activity and press genres during this intense period of change. Along with keystone chapters on the economics of the press and periodicals, production processes, readership and distribution networks, and legal frameworks under which the press operated, the book examines a wide range of areas from religious, literary, political and medical press genres to analyses of overseas and migr press and emerging developments in children's and women's press.

Byline of Hope Helen Keller, 2015 Helen Keller -- star of an early silent film, vaudevillian, suffragist, controversial proponent of eugenics -- was first and foremost a writer. *Byline of Hope* is the first book to collect Keller's journalism, much of it never before reprinted. In articles for *Good Housekeeping*, *Ladies' Home Journal*, *The Atlantic Monthly*, and *The New York Times*, as well as her regular column in the all-but-forgotten *Home Magazine* (which was published for five years during the Great Depression in the early 1930s) Keller's name was a *Byline of Hope*, says Towson University journalism professor Beth A. Haller, who collected the articles and edited this edition. Keller's collected articles in *Byline of Hope* represent some of the most genuine of [Keller's] writings, says biographer Dorothy Herrmann. This is probably Helen Keller who Helen Keller was ... unadorned by helpers. In *Byline of Hope*, Haller presents

and analyzes Keller's writings on spirituality, women's issues, socialism, education and children, as well as her thoughts on blindness and deafness -- and her essays on her meetings with many important people of the day. Valued as much for the famous byline as for their content, Keller's articles reached a broad audience eager for her optimistic message, a message still relevant today. Keller offered the perfect message for the 20th century, writes Haller, that positive social change could occur.

Hollywood Under Siege Thomas R Lindlof, 2008-08-08 In 1988, director Martin Scorsese fulfilled his lifelong dream of making a film about Jesus Christ. Rather than celebrating the film as a statement of faith, churches and religious leaders immediately went on the attack, alleging blasphemy. At the height of the controversy, thousands of phone calls a day flooded the Universal switchboard, and before the year was out, more than three million mailings protesting the film fanned out across the country. For the first time in history, a studio took responsibility for protecting theaters and scrambled to recruit a field crisis team to guide *The Last Temptation of Christ* through its contentious American openings. Overseas, the film faced widespread censorship actions, with thirteen countries eventually banning the film. The response in Europe turned violent when opposition groups sacked theaters in France and Greece and caused injuries to dozens of moviegoers. Twenty years later, author Thomas R. Lindlof offers a comprehensive account of how this provocative film came to be made and how Universal Pictures and its parent company MCA became targets of the most intense, unrelenting attacks ever mounted against a media company. The film faced early and determined opposition from elements of the religious Right when it was being developed at Paramount during the last year the studio was run by the celebrated troika of Barry Diller, Michael

Eisner, and Jeffrey Katzenberg. By the mid-1980s, Scorsese's film was widely regarded as unmakeable—a political stick of dynamite that no one dared touch. Through the joint efforts of two of the era's most influential executives, CAA president Michael Ovitz and Universal Pictures chairman Thomas P. Pollock, this improbable project found its way into production. The making of *The Last Temptation of Christ* caught evangelical Christians at a moment when they were suffering a crisis of confidence in their leadership. The religious right seized on the film as a way to rehabilitate its image and to mobilize ordinary citizens to attack liberalism in art and culture. The ensuing controversy over the film's alleged blasphemy escalated into a full-scale war fought out very openly in the media. Universal/MCA faced unprecedented calls for boycotts of its business interests, anti-Semitic rhetoric and death threats were directed at MCA chairman Lew Wasserman and other MCA executives, and the industry faced the specter of violence at theaters. *Hollywood Under Siege* draws upon interviews with many of the key figures—Martin Scorsese, Paul Schrader, Michael Ovitz, Jeffrey Katzenberg, Jack Valenti, Thomas P. Pollock, and Willem Dafoe—to explore the trajectory of the film from its conception to the subsequent epic controversy and beyond. Lindlof offers a fascinating dissection of a critical episode in the embryonic culture wars, illuminating the explosive effects of the clash between the interests of the media industry and the forces of social conservatism.

Do As I Say Sarah Steel, 2022-06-28 At the heart of being human is the desire to belong. It can make us unspeakably vulnerable to the manipulations of others. Cult leaders prey on this desire, but so do many

unscrupulous operators hiding in plain sight. Sarah Steel, the creator of the popular 'Let's Talk About Sects' podcast, has researched the cults you've heard of - and dozens you haven't. What strikes her most are not the differences between bizarre cult behaviour and 'normal' behaviour but the depressing similarities. Her work reveals that we are all susceptible to the power of cult dynamics. In *Do As I Say*, Sarah Steel tells the human tale behind the sensationalism. Sharing deeply personal stories, gathered over years of interviews with survivors, and some shocking tales about the world's most famous cults, she sheds light on the high cost of unchecked coercive behaviours to individuals and communities at large. Praise for *Do As I Say* 'Sarah uses the stories of survivors to tease out the common threads of coercive control shared by cults and found in other parts of society. The result is a much-needed spotlight on the behaviours and personalities we are likely to encounter even if we never go anywhere near a cult.' - David Gillespie, bestselling author and lawyer 'In times of uncertainty when you long for simple answers and have a deep desire for community, you can find yourself incrementally handing over your agency to a charismatic but authoritarian and manipulative leader or group-think. In this book Sarah Steel has brilliantly charted how this happens in all sorts of ways and for all sorts of people; it provides an invaluable map to navigate this dangerous terrain.' - Reverend Tim Costello AO 'This book is a most comprehensive and studied look at cults, the leaders, and perhaps most importantly the survivors. Sarah Steel has given the world a real gem - one that will not only educate but also help to destigmatize those who have been harmed by cults and con artists. Bravo!' - Dr Janja Lalich, cult expert, academic and former cult member

Designing and Developing Robust Instructional Apps Kenneth J. Luterbach,2018-03-12 Designing and Developing Robust Instructional Apps advances the state of instructional app development using three learning paradigms for building knowledge foundations, problem-solving, and experimentation. Drawing on research and development lessons gleaned from noted educational technologists, time-tested systematic instructional design processes, and results from user experience design, the book considers the planning and specification of instructional apps that blend media (text, images, sound, and moving pictures) and instructional method. Further, for readers with little to no programming experience, introductory treatments of JavaScript and Python, along with data fundamentals and machine learning techniques, offer a guided journey that produces robust instructional apps and concludes with next steps for advancing the state of instructional app development.
