Beginning C# Object-Oriented Programming Dan Clark,2011-08-12 Beginning C# Object-Oriented Programming brings you into the modern world of development as you master the fundamentals of programming with C# and learn to develop efficient, reusable, elegant code through the object-oriented programming (OOP) methodology. Take your skills out of the 20th century and into this one with Dan Clark's accessible, quick-paced guide to C# and object-oriented programming, completely updated for .NET 4.0 and C# 4.0. As you develop techniques and best practices for coding in C#, one of the world's most popular contemporary languages, you'll experience modeling a "real world" application through a case study, allowing you to see how both C# and OOP (a methodology you can use with any number of languages) come together to make your code reusable, modern, and efficient. With more than 30 fully hands-on activities, you'll discover how to transform a simple model of an application into a fully-functional C# project, including designing the user interface, implementing the business logic, and integrating with a relational database for data storage. Along the way, you will explore the .NET Framework, the creation of a Windows-based user interface, a web-based user interface, and service-oriented programming, all using Microsoft's industry-leading Visual Studio 2010, C#, Silverlight, the Entity Framework, and more.

In This Corner Emile C. Tepperman,2022-09-15 'In

This Corner' is a mystery novel written by Emile C. Tepperman. The story follows Tom Atherton, who as he was driving down Central Park West on Monday morning, suddenly realized why he had been feeling restless and discontent for the last few weeks. By rights, he should have been supremely satisfied with himself. He was a young and successful real estate lawyer. His income, after three years of practice, was now large enough so that he and Sally Blaine had been able to set their wedding date for the early part of May. He was a respected member of the Bar, and they were even talking of running him for the Assembly in the 1943 elections. But Tom Atherton wasn't happy. As he automatically tooled the coupe down Central Park West, his big hands tightened on the wheel, and he found his thoughts dipping fondly back to the years preceding his admission to the Bar. In those days he had worked his way through Law School by boxing every Friday night in semi-pro bouts all around New York. Tom's manager, old Jerry Flynn, had almost cried when Tom quit boxing to take his bar exams.
