Dolores Hayden

The Farringford Cadenza Robert Donald Sutherland, 2007 In 1947, Charles Philip Farringford, one of America's foremost composers, dies on a train returning home to New York after performing his as-yet-unpublished Fifth Piano Concerto. When his body arrives at Penn Station wearing pajama trousers backside front, there are two one-way tickets to New York in the sleeping compartment but no companion. Also missing is Farringford's suitcase, and with it the unique manuscript of the six-minute cadenza for solo piano that occurs in the concerto. Thirty-four years after Farringford's death the cadenza manuscript is found, temporally, almost immediately it is misplaced, or perhaps stolen. The Farringford Cadenza is a suspenseful, humorous literary mystery which subtly skews generic conventions to continually surprise readers with reversals of their assumptions and expectations. Beneath the surface, the novel explores the consequences of illusion and self-delusion, the many faces of deceit, and questions concerning people's ethical responsibilities with regard to art and culture.

A Field Guide to Sprawl Dolores Hayden, 2004 A visual lexicon of the colorful slang, from alligator investment to zoomburb, that defines sprawl in America. May well establish Ms. Hayden as the Roger Tory Peterson of Sprawl. --New York Times

The Housing Question Frederick Engels, 2016-06-11 During the 1870s, a major polemical debate unfolded in Germany's worker/democratic press on the shortage of housing available to workers in major industrial centres. The influx and increase of the proletariat created a housing crisis. On June 26 1872, Engels contributed the first of a series of articles to the Volksstaat, entitled The Housing Question. The last appeared on February 22 1873. Engels' central point was that the revolutionary class policy of the proletariat cannot be replaced by a policy of reforms, because it is not that the solution of the housing question simultaneously solves the social question, but that only by the

solution of the social question, that is, by the abolition of the capitalist mode of production, is the solution of the housing question made possible. The series criticizes Proudhonism (and petty-bourgeois socialism in general, including Lassalleanism). It also discusses things like the nature of the State, the dictatorship of the proletariat, the eradication of the antithesis between town and country, the solution of the agrarian problem, forms of the socialist reconstruction of society and the tasks of the proletarian party.

NAHB Journal of Home Building ,1947

Ray Barry Hannah,2007-12-01 "A shorthand epic of extraordinary power . . . A novel of brilliant particulars and dizzying juxtapositions" from the acclaimed southern author of *Geronimo Rex* (Newsweek). Nominated for the American Book Award, Ray is the bizarre, hilarious, and consistently adventurous story of a life on the edge. Dr. Ray—a womanizer, small-town drunk, vigilante, poet, adoring husband—is a man trying to make sense of life in the twentieth century. In flight from the death he dealt flying over Vietnam, Dr. Ray struggles with those bound to him by need, sickness, lunacy, by blood and by love. "This novel hangs in the memory like a fishhook. It will haunt you long after you have finally put it down. Barry Hannah is a talent to reckon with, and I can only hope that Ray finds an audience it deserves." —Harry Crews, *The Washington Post Book World*

Cold War Kitchen Ruth Oldenziel,Karin

Zachmann,2011-01-21 The kitchen as political symbol and material reality in the cold war years. Richard Nixon and Nikita Khrushchev's famous "kitchen debate" in 1958 involved more than the virtues of American appliances. Both Nixon and Khrushchev recognized the political symbolism of the modern kitchen; the kind of technological innovation represented in this everyday context spoke to the political system that produced it. The kitchen connects the "big" politics of politicians and statesmen to the "small" politics of users and interest groups.

Cold War Kitchen looks at the kitchen as material object and symbol, considering the politics and the practices of one of the most famous technological icons of the twentieth century. Defining the kitchen as a complex technological artifact as important as computers, cars, and nuclear missiles, the book examines the ways in which a range of social actors in Europe shaped the kitchen as both ideological construct and material practice. These actors—from manufacturers and modernist architects to housing reformers and feminists—constructed and domesticated the technological innovations of the postwar kitchen. The home became a “mediation junction” in which women users and others felt free to advise producers from the consumer's point of view. In essays illustrated by striking period photographs, the contributors to Cold War Kitchen consider such topics as Soviet consumers' ambivalent responses to the American dream kitchen argued over by Nixon and Khrushchev; the Frankfurter Küche, a European modernist kitchen of the interwar period (and its export to Turkey when its designer fled the Nazis); and the British state-subsidized kitchen design so innovative that it was mistaken for a luxury American product. The concluding essays challenge the received wisdom of past interpretations of the kitchen debate.

Oligarchy Scarlett Thomas, 2021-01-12 From the author of *The Seed Collectors* comes a darkly comic take on power, privilege, and the pressure put on young women to fit in—and be thin—at their all-girls boarding school. It's already the second week of term when Natasha, the daughter of a Russian oligarch, arrives at a vast English country house for her first day of boarding school. She soon discovers that the headmaster gives special treatment to the skinniest girls, and Tash finds herself thrown into the school's unfamiliar, moneyed world of fierce pecking orders, eating disorders, and Instagram angst. The halls echo with the story of Princess Augusta, the White Lady whose portraits—featuring a hypnotizing black diamond—hang

everywhere and whose ghost is said to haunt the dorms. It's said that she fell in love with a commoner and drowned herself in the lake. But the girls don't really know anything about the woman she was, much less anything about one another. When Tash's friend Bianca mysteriously vanishes, the routines of the school seem darker and more alien than ever before. Tash must try to stay alive—and sane—while she uncovers what's really going on. Darkly hilarious, *Oligarchy* is *Heathers* for the digital age, a Prep populated with the teenage children of the European elite, exploring youth, power, and affluence. Scarlett Thomas captures the lives of these privileged young women, in all their triviality and magnitude, seeking acceptance and control in a manipulative world.

The Garden of Letters Alyson Richman, 2014 Portofino, Italy, 1943. A young woman steps off a boat in a scenic coastal village. Although she knows how to disappear in a crowd, Elodie is too terrified to slip by the German officers while carrying her poorly forged identity papers. She is frozen until a man she's never met before claims to know her. In desperate need of shelter, Elodie follows him back to his home on the cliffs of Portofino. Only months before, Elodie Bertolotti was a cello prodigy in Verona, unconcerned with world events. But when Mussolini's Fascist regime strikes her family, Elodie is drawn into the burgeoning resistance movement by Luca, a young and impassioned bookseller. As the occupation looms, she discovers that her unique musical talents, and her courage, have the power to save lives. In Portofino, young doctor Angelo Rosselli gives the frightened and exhausted girl sanctuary. He is a man with painful secrets of his own, haunted by guilt and remorse. But Elodie's arrival has the power to awaken a sense of hope and joy that Angelo thought was lost to him forever. Written in dazzling prose and set against the rich backdrop of World War II Italy, *Garden of Letters* captures the hope, suspense, and romance of an uncertain era, in an epic intertwining story of first love, great tragedy, and

spectacular bravery.--

Is That a Fish in Your Ear? David Bellos, 2011-10-11 A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew

Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. *Is That a Fish in Your Ear?* ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating *Madame Bovary*? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great *joie de vivre*, this book is all about how we comprehend other people and shows us how, ultimately, translation is another name for the human condition.

Full Metal Jacket Matthew Derby, 2014-12-08 Two boys discover that the title of their stop-motion animated film about Vietnam has been taken by director Stanley Kubrick. A 150-year-old woman on the run from the government is tracked down by the company who extended her life. A military contractor carrying his robot son in a gym bag struggles to find his way out of the Nigerian delta during a bloody civil war. The wife of an up-and-coming politician grieves his infidelity by prowling rooftops with a sniper rifle. Following his celebrated debut collection, *Super Flat Times*, Matthew Derby delivers a disturbing new set of stories that plunges us into a lonely heartland of misfits, outcasts, and would-be assassins who lurk in the shadows, searching for connection and meaning in all the wrong places.
