The Atomic Bomb and American Society Rosemary B. Mariner, G. Kurt Piehler, 2009 Drawing on the latest research on the atomic bomb and its history, the contributors to this provocative collection of eighteen essays set out to answer two key questions: First, how did the atomic bomb, a product of unprecedented technological innovation, rapid industrial-scale manufacturing, and unparalleled military deployment shape U.S. foreign policy, the communities of workers who produced it, and society as a whole? And second, how has American society's perception that the bomb is a means of military deterrence in the Cold War era evolve under the influence of mass media, scientists, public intellectuals, and even the entertainment industry? In answering these questions, *The Atomic Bomb and American Society* sheds light on the collaboration of science and the military in creating the bomb; the role of women working at Los Alamos; the transformation of nuclear physicists into public intellectuals as the reality of the bomb came into widespread consciousness; the revolutionary change in military strategy following the invention of the bomb and the development of Cold War ideology; the image of the bomb that was conveyed in the popular media; and the connection of the bomb to the commemoration of World War II. As it illuminates the cultural, social, political, environmental, and historical effects of the creation of the atomic bomb, this volume contributes to our understanding of how democratic institutions can coexist with a technology that affects everyone, even if only a few are empowered to manage it. Rosemary B. Mariner is formerly Joint Chiefs of Staff Chair and Professor of Military Studies for the National War College. She is currently a lecturer in history at the University of Tennessee, Knoxville. G. Kurt Piehler is associate professor of history and former director of the Center for the Study of War and Society at the University of Tennessee, Knoxville, which hosted the conference that formed the basis of this volume. He is the author of *Remembering War the American Way* and *World War II in the American Soldiers' Lives Series* as well as the coeditor, with John Whiteclay Chambers II, of *Major Problems in American Military History*.

The Rise and Fall of the New Deal Order, 1930-1980 Steve Fraser, Gary Gerstle, 2020-07-21 The description for this book, *The Rise and Fall of the New Deal Order, 1930-1980*, will be forthcoming.

In Visible Movement Urayoan Noel, 2014-05 Since the 1960s, Nuyorican poets have explored and performed Puerto Rican identity both on and off the page. The first book-length study specifically devoted to Nuyorican poetry, *In Visible Movement* is unique in its historical and formal breadth, ranging from the foundational poets of the 1960s and 1970s to a variety of contemporary poets emerging in and around the Nuyorican Poets Cafe slam scene of the 1990s and early 2000s. Book jacket.

A Progressive History of American Democracy Since 1945 Chris J. Magoc, 2021-12-29 *A Progressive History of American Democracy Since 1945: American Dreams, Hard Realities* offers a social, political, and cultural history of the United States since World War II. Unpacking a period of profound transformation unprecedented in the national experience, this book takes a synthetic approach to the history of the 1940s to the present day. It examines how Americans descended from a mid-century apogee of boundless expectations to the unsettling premise that our contemporary historical moment is fraught with a sense of crisis and national failure. The book's narrative explores the question of decline and more importantly, how the history of this transformation can point the way toward a recovery of shared national values. Chris J. Magoc also gives extensive treatments to the following: Grassroots movements that have expanded the meaning of American democracy, from the 1950s human rights struggle in the South to contemporary movements to confront systemic racism and the existential crisis of climate change. The resilience of American democracy in the face of antidemocratic forces. The impacts of a decades-long economic transformation. The consequences of America's expanding global military footprint and national security state. Fracturing of a nation once held together by a post-war liberal consensus and broadly shared societal goals to an America facing an attack from within on empirical truth and democracy itself. This book will be of interest to students of modern U.S. history, social history, and American Studies, and general readers interested in recent U.S. history.

Our Towns James Fallows, Deborah Fallows, 2018-05-08 NATIONAL BEST SELLER • The basis for the HBO documentary now streaming on HBO Max For five years, James and Deborah Fallows have travelled across America in a single-engine prop airplane. Visiting dozens of towns, the America they saw is acutely conscious of its problems—from economic dislocation to the opioid scourge—but it is also crafting solutions, with a practical-minded determination at dramatic odds with the bitter paralysis of national politics. At times of dysfunction on a national level, reform possibilities have often arisen from the local level. The Fallowses describe America in the middle of one of these creative waves. Their view of the country is as complex and contradictory as America itself, but it also reflects the energy, the generosity and compassion, the dreams, and the determination of many who are in the midst of making things better. *Our Towns* is the story of their journey—and an account of a country busy remaking itself.

Hunting Eichmann Neal Bascomb, 2009 With the intrigue of a detective story, *Hunting Eichmann* follows the Nazi as he escapes two American POW camps, hides in the mountains, and builds an anonymous life in Buenos Aires, before finally being captured and brought to trial.

Bowker's Complete Video Directory, 1996

Fallout Paul S. Boyer, 1998 *Fallout* offers the reflections and observations of historian Paul Boyer on the fascinating and complex impact of the bomb in American life from the special perspective of a person who experienced and participated in the events and movements about which he writes. Boyer provides us with a rich understanding of nuclear reality in American thought and culture after 1945. The essays range widely, from a discussion of the shattering impact of the news of Hiroshima and Nagasaki on a war-weary nation in 1945 to ruminations on the 1995 Enola Gay controversy, when a proposed fiftieth-anniversary commemorative exhibit on the atomic bombing of Japan at the Smithsonian's National Museum of American History generated bitter controversy.

Violence Girl Alice Bag, 2011-09-27 The birth of the 1970's punk movement as seen through the eyes of Chicana feminist and punk musician Alice Bag.

THE 1946 PROJECT Edward D. Andrews, 2021-10-28 The claim is that in 1946, theology, history, culture, and politics led to a biblical mistranslation of catastrophic proportions. Supposedly the 1946 movie is a revolutionary documentary that chronicles how the misuse of a single word in 1 Corinthians 6:9 changed the course of modern history. The 1946 Movie says that their research was “a journey which unveils the mystery of how theology, history, culture, and politics led to a Biblical mistranslation, the man who tried to stop it, and the impassioned academic crusade of the LGBTQIA+ Christian community-driven to discover the truth. More than 45,000

churches today still preach that homosexuality is a sin, citing biblical references that condemn “homosexuals.” 1946 Movie asks, 'What would change if churches discovered the truth – the word “homosexual” was added to the Bible in 1946 by mistake?' Was it added by mistake? Andrews, author of 170+ books in THE 1946 PROJECT, will investigate this claim and see if the filmmakers discovered the truth or created their own truth.

The Nuclear Crisis Christoph Becker-Schaum,Philipp Gassert,Martin Klimke,Wilfried Mausbach,2016-10-01 In 1983, more than one million Germans joined together to protest NATO's deployment of nuclear missiles in Europe. International media overflowed with images of marches, rallies, and human chains as protesters blockaded depots and agitated for disarmament. Though they failed to halt the deployment, the episode was a decisive one for German society, revealing deep divisions in the nation's political culture while continuing to mobilize activists. This volume provides a comprehensive reference work on the “Euromissiles” crisis as experienced by its various protagonists, analyzing NATO's diplomatic and military maneuvering and tracing the political, cultural, and moral discourses that surrounded the missiles' deployment in East and West Germany.

Literary Aftershocks Albert E. Stone,1994 The breadth of selections is striking, ranging from such well-known works as Bradbury's *Martian Chronicles*, Hersey's *Hiroshima*, Ginsberg's *Plutonian Ode*, and Schell's *Fate of the Earth* to writings and authors heretofore given scant attention. Together, these voices emit a clarion call for life and not death, for peace and not war.

Bocca Jacob Kenedy,2017-09-28 Authentic Italian recipes from the celebrated restaurant Bocca di Lupo. Italy is a land of appetite, where life is embraced with passion, and food prepared with generosity and joy. But the cuisine is hard to define, as each region has its own rich culinary traditions - and so deep is the belief of locals that their food is the best, that often Italy's finest dishes are unknown from one place to the next. Jacob Kenedy, a self-avowed culinary magpie, travelled the length and breadth of the country over the course of a year, gathering up his favourite recipes - many of them obscure, some bizarre, all utterly delicious. Like the menu at Bocca di Lupo, Jacob's award-winning London restaurant, this book is a thrilling, exotic journey through the true flavours of Italy: the hearty risotti of the north, the exquisite shellfish of the Veneto, the earthy sausages of Bologna, the fried street food of Rome, the baroque desserts of Naples and the Arab-influenced sweets of Sicily. The recipes in Bocca are a revelation, a portal to a side of Italy that is gritty, glamorous, seedy and mysterious. Be warned, this is a cookbook with teeth.

The Real Hip-hop Marcyliena Morgan,2009-04-13 Project Blowed is a legendary hip-hop workshop based in Los Angeles. It began in 1994 when a group of youths moved their already renowned open-mic nights from the Good Life, a Crenshaw district health food store, to the KAOS Network, an arts center in Leimert Park. The local freestyle of articulate, rapid-fire, extemporaneous delivery, the juxtaposition of meaningful words and sounds, and the way that MCs followed one another without missing a beat, quickly became known throughout the LA underground. Leimert Park has long been a center of African American culture and arts in Los Angeles, and Project Blowed inspired youth throughout the city to consider the neighborhood the epicenter of their own cultural movement. The Real Hip-hop is an in-depth account of the language and culture of Project Blowed, based on the seven years Marcyliena Morgan spent observing the workshop and the KAOS Network. Morgan is a leading scholar of hip-hop, and throughout the volume her ethnographic analysis of the LA underground opens up into a broader examination of the artistic and cultural value of hip-hop. Morgan intersperses her observations with excerpts from interviews and transcripts of freestyle lyrics. Providing a thorough linguistic interpretation of the music, she teases out the cultural antecedents and ideologies embedded in the language, emphases, and wordplay. She discusses the artistic skills and cultural knowledge MCs must

acquire to rock the mic, the socialization of hiphop culture’s core and long-term members, and the persistent focus on skills, competition, and evaluation. She brings attention to adults who provided material and moral support to sustain underground hiphop, identifies the ways that women choose to participate in Project Blowed, and vividly renders the dynamics of the workshop’s famous lyrical battles.
