Cafes and Bars Christoph Grafe, Franziska Bollerey, 2007-09-12 The design of bars and cafes has played an important role in the development of architecture in the twentieth century. This influence has been felt particularly strongly over the past thirty years, in a time when these social spaces have contributed significantly to the rediscovery and reinvention of cities across Europe and North America. This volume presents and examines this significant urban architectural production, and discusses it against a background of the design of cafes and bars across the nineteenth and twentieth centuries. Major themes and developments are discussed and illustrated with case studies, from the functionalist pre-World War Two architects in Central Europe representing modern society through the design of public spaces, right up to the design of sophisticated bars and cafes as part of the recent urban renaissance of Barcelona and Paris in 1980s and London in the '90s.

Coffee with Einstein Carlos I. Calle, 2008
Presents a fictionalized interview with Albert Einstein, where the physicist discusses his life and work.

Einstein Walter Isaacson, 2008-09-04 NOW A MAJOR SERIES 'GENIUS' ON NATIONAL GEOGRAPHIC, PRODUCED BY RON HOWARD AND STARRING GEOFFREY RUSH Einstein is the great icon of our age: the kindly refugee from oppression whose wild halo of hair, twinkling eyes, engaging humanity and extraordinary brilliance made his face a symbol and his name a synonym for genius. He was a rebel and nonconformist from boyhood days. His character, creativity and imagination were related, and they drove both his life and his science. In this marvellously clear and accessible narrative, Walter Isaacson explains how his mind worked and the mysteries of the universe that he discovered. Einstein's success came from questioning conventional wisdom and marvelling at mysteries that struck others as mundane. This led him to embrace a worldview based on respect for free spirits and free individuals. All of which helped make Einstein into a rebel but with a reverence for the harmony of nature, one with just the right blend of imagination and wisdom to transform our understanding of the universe. This new biography, the first since all of Einstein's papers have become available, is the fullest picture yet of one of the key figures of the twentieth century. This is the first full biography of Albert Einstein since all of his papers have become available -- a fully realised portrait of this extraordinary human being, and great genius. Praise for EINSTEIN by Walter Isaacson:- 'YOU REALLY MUST READ THIS.' Sunday Times 'As pithy as Einstein himself.' New Scientist '[A] brilliant biography, rich with newly available archival

material.' Literary Review 'Beautifully written, it renders the physics understandable.' Sunday Telegraph 'Isaacson is excellent at explaining the science.' Daily Express

The Undercurrents Kirsty Bell, 2022-09-06 Humane, thought provoking, and moving, this hybrid literary portrait of a place makes the case for radical close readings: of ourselves, our cities, and our histories. *The Undercurrents* is a dazzling work of biography, memoir, and cultural criticism told from a precise vantage point: a stately nineteenth-century house on Berlin's Landwehr Canal, a site at the center of great historical changes, but also smaller domestic ones. The view from this house offers a ringside seat onto the city's theater of action. The building has stood

on the banks of the canal since 1869, its feet in the West but looking East, right into the heart of a metropolis in the making, on a terrain inscribed indelibly with trauma. When her marriage breaks down, Kirsty Bell—a British-American art critic, adrift in her midforties—becomes fixated on the history of her building and of her adoptive city. Taking the view from her apartment window as her starting point, she turns to the lives of the house's various inhabitants, to accounts penned by Walter Benjamin, Rosa Luxemburg, and Gabriele Tergit, and to the female protagonists in the works of Theodor Fontane, Irmgard Keun, and Rainer Werner Fassbinder. A new cultural topography of Berlin emerges, one which taps into energetic undercurrents to recover untold or forgotten stories beneath the city's familiar narratives.
