Makerspaces in Libraries Theresa Willingham, Jeroen de Boer, 2015-08-20 Makerspaces, sometimes also referred to as hackerspaces, hackspaces, and fablabs are creative, DIY spaces where people can gather to create, invent, and learn. In libraries they often have 3D printers, software, electronics, craft and hardware supplies and tools, and more. Makerspaces are becoming increasingly popular in both public and academic libraries as a new way to engage patrons and add value to traditional library services. Discover how you can create a makerspace within your own library through this step-by-step guidebook. From planning your innovation center to hosting hack-a-thons, guest lectures, and social events in your new lab, *Makerspaces in Libraries* provides detailed guidance and best practices for creating an enduring, community driven space for all to enjoy and from which both staff and patrons will benefit. This well researched, in-depth guide will serve libraries of all sizes seeking to implement the latest technologies and bring fresh life and engaging programming to their libraries. Highlights and best practices include: budgeting and business planning for a library makerspace, creating operational documents, tools and resources overviews, national and international case studies, becoming familiar with 3D printers through practical printing projects (seed bombs), how to get started with Arduino (illuminate your library with a LED ambient mood light), how to host a FIRST Robotics Team at the library, how to develop hands-on engagement for senior makers (Squishy Circuits), and how to host a Hackathon and build a coding community.

Library Success Leslie Edmonds Holt, Glen E. Holt, Stratton Lloyd, 2006 This slim reference tool assists, promotes, and celebrates libraries meeting the challenges of 21st century librarianship. Twenty-five library innovators from the United States share their insights and best practices across five critical library management interests: funding, marketing, technology, partnership and collaboration, and performance management/evaluation. Worksheets follow each chapter to guide readers through their efforts to adapt and effect positive change in their organizations.

50+ Library Services Diantha Dow Schull, 2013 Adults over the age of 50 constitute some of the most engaged and frequent users of public libraries. They may also be the most misunderstood, since the behavior, interests, and information needs of older adults have changed dramatically with the addition of the Baby Boomers. This book offers advice on how to reshape library services for this new generation of active older adults.
