Calendar and Community Sacha Stern,2001-10-04 Calendar and Community traces the development of the Jewish calendar from its origins until it reached, in the tenth century CE, its present form. Drawing on a wide range of often neglected sources - literary, documentary, epigraphic, Jewish, Graeco-Roman and Christian - it is the first comprehensive work to have been written on the subject. It will be useful not only to historians and epigraphists for the interpretation of early Jewish datings, but also as a historical study of early Judaism in its own right. Its main theme is that the Jewish calendar evolved in the course of this period from considerable diversity (with a variety of solar and lunar calendars) to unity (with the normative rabbinic calendar). The unification of the calendar was one element in the unification of Jewish identity in later antiquity and the early medieval world.

Balancing the School Calendar Carolyn Kneese,Charles Ballinger,2009-01-16 Today, educators are looking for ways to utilize classroom time more effectively. Many thoughtful and forward-looking educators have reorganized the school calendar from the traditional nine-month model to one which is more balanced, and they have experienced the effects of calendar modification in the classroom, school, district, and community. Balancing the School Calendar is a compilation of perspectives and research reports from those who have experienced the urgent necessity of reorganizing time to effectuate better learning situations for students. Chapter authors have implemented, studied, or contemplated school calendar change and the results

of the change.
