Good-Bye Alien God Soma Vira, 2000 In his quest to rule earth, the alien captain has five invincible weapons: the LDM (land destruction machine); his invisible third eye that when activated burns everything; the powerful religious sect, who have crowned him as god kalki; his partnership with a planetary movie producer who has manufactured an army of killing robots; and his robotic schooner star kahuna that changes shape and disappears. Humans keep falling in his vicious traps despite the help of mysterious blue-skin beings. Using his third eye, when the alien burns his partner, and, using star kahuna kidnaps five human leaders, surrounded by the victory claiming priests, earth's only choice is to surrender. Democracy without Journalism? Victor Pickard, 2019-11-01 As local media institutions collapse and news deserts sprout up across the country, the US is facing a profound journalism crisis. Meanwhile, continuous revelations about the role that major media outlets--from Facebook to Fox News--play in the spread of misinformation have exposed deep pathologies in American communication systems. Despite these threats to democracy, policy responses have been woefully inadequate. In *Democracy Without Journalism?* Victor Pickard argues that we're overlooking the core roots of the crisis. By uncovering degradations caused by run-amok commercialism, he brings into focus the historical antecedents, market failures, and policy inaction that led to the implosion of commercial journalism and the proliferation of misinformation through both social media and mainstream news. The problem isn't just the loss of journalism or irresponsibility of Facebook, but the very structure upon which our profit-driven media system is built. The rise of a misinformation society is symptomatic of

historical and endemic weaknesses in the American media system tracing back to the early commercialization of the press in the 1800s. While professionalization was meant to resolve tensions between journalism's public service and profit imperatives, Pickard argues that it merely camouflaged deeper structural maladies. Journalism has always been in crisis. The market never supported the levels of journalism--especially local, international, policy, and investigative reporting--that a healthy democracy requires. Today these long-term defects have metastasized. In this book, Pickard presents a counter-narrative that shows how the modern journalism crisis stems from media's historical over-reliance on advertising revenue, the ascendance of media monopolies, and a lack of public oversight. He draws attention to the perils of monopoly control over digital infrastructures and the rise of platform monopolies, especially the Facebook problem. He looks to experiments from the Progressive and New Deal Eras--as well as public media models around the world--to imagine a more reliable and democratic information system. The book envisions what a new kind of journalism might look like, emphasizing the need for a publicly owned and democratically governed media system. Amid growing scrutiny of unaccountable monopoly control over media institutions and concerns about the consequences to democracy, now is an opportune moment to address fundamental flaws in US news and information systems and push for alternatives. Ultimately, the goal is to reinvent journalism.

River of Blood J. M. Schoffeleers, 1992 The culmination of years of fieldwork in southern Malawi, *River of Blood* reconstructs the beginnings of the Mbona martyr cult, follows its history to the present day, and reveals the fascinating intersections of an indigenous belief system with European Christianity. In the cult of Mbona, the central African mythology of the snake that is beheaded to make the rains come has been combined with a more spiritual interpretation: the snake has been transformed into a human martyr and redeemer. According to the cult, the rainmaker Mbona was tracked down by his enemies; they cut off his head, and his blood formed the River of Blood. Mbona returned as a storm wind and asked that a shrine be dedicated in his name. J. Matthew Schoffeleers recounts how the Portuguese presence in Zambezia in the period 1590-1622 led to more than three decades of internecine warfare and caused the people of southern Malawi tremendous suffering. In response to this political oppression and social upheaval, Schoffeleers shows, the people looked to Mbona, their black Jesus, for redemption. Beyond reconstructing the cult's genesis, Schoffeleers traces its recent history, particularly in political context. He provides texts of seven cult myths from different historical periods in both Chimang'anja and English. His analysis presents the Mbona myth as a continuous social construction and deconstruction. Emphasizing the impact of political and spiritual oppression on the cult, he distinguishes between the differing versions of the myth preserved by the aristocracy and by the commonalty and demonstrates how these disparate views unite to preserve historical information. In so doing, he shows that cults serve as valuable repositories for historical information.

Flyover Nation Dana Loesch, 2016 Blaze TV and ... radio host Dana Loesch [posits] that the biggest political problem today is that the people who run this country have no idea what life is really like for ordinary Americans. In fact, they have contempt for the very people they claim to represent ... Forms of Late Modernist Lyric Edward Allen, 2021 What do we mean when call something a lyric poem? How many kinds of lyric are there? Are there fewer now than there were in 1920 or 1820 or 1620? The purpose of *Forms of Late Modernist Lyric* is to show that our oldest styles of poetic articulation - the elegy, the ode, the hymn - have figured all too briefly in modern genealogies of lyric, and that they have proved especially seductive, curiously enough, to avant-garde practitioners in the Anglophone tradition. The poets in question - Jorie Graham, Frank O'Hara, Michael Haslam, J. H. Prynne, Claudia Rankine, and others - have thickened the texture of lyric practice at a time when the growing tendency in critical circles has been to dissolve points of difference within the genre itself. The broader aim of this volume is to demonstrate that experimental poets since 1945 have not always been rebarbative and anti-traditional, but rather that their recourse to familiar forms and shapes of thought should prompt us to reconsider late modernism as a crucial phase in the evolving history of lyric. Problems of Religious Luck Guy Axtell, 2018-12-06 This book develops an inductive risk account of the limits of reasonable religious disagreement. The riskiness of different people's methods for forming religious beliefs is shown central both to understanding fundamentalist orientation and to concerns that philosophers and theologians share for "ownership" of risk in people's faith ventures.
