Exploding the Phone Phil Lapsley, 2013-02-05 “A rollicking history of the telephone system and the hackers who exploited its flaws.” —Kirkus Reviews, starred review Before smartphones, back even before the Internet and personal computers, a misfit group of technophiles, blind teenagers, hippies, and outlaws figured out how to hack the world’s largest machine: the telephone system. Starting with Alexander Graham Bell’s revolutionary “harmonic telegraph,” by the middle of the twentieth century the phone system had grown into something extraordinary, a web of cutting-edge switching machines and human operators that linked together millions of people like never before. But the network had a billion-dollar flaw, and once people discovered it, things would never be the same. *Exploding the Phone* tells this story in full for the first time. It traces the birth of long-distance communication and the telephone, the rise of AT&T’s monopoly, the creation of the sophisticated machines that made it all work, and the discovery of Ma Bell’s Achilles’ heel. Phil Lapsley expertly weaves together the clandestine underground of “phone phreaks” who turned the network into their electronic playground, the mobsters who exploited its flaws to avoid the feds, the explosion of telephone hacking in the counterculture, and the war between the phreaks, the phone company, and the FBI. The product of extensive original research, *Exploding the Phone* is a groundbreaking, captivating book that “does for the phone phreaks what Steven Levy’s *Hackers* did for computer pioneers” (Boing Boing). “An authoritative, jaunty and enjoyable account of their sometimes comical, sometimes impressive and sometimes disquieting misdeeds.” —The Wall Street Journal “Brilliantly

researched.” —The Atlantic “A fantastically fun romp through the world of early phone hackers, who sought free long distance, and in the end helped launch the computer era.” —The Seattle Times

Sudden Terror Larry Crompton,2010 This book is based on the actual case of the East Area Rapist, later also known as the Original Night Stalker, a masked man who terrorized California communities for ten years; 1976 through 1986, and possibly to this day. Because I was not involved in the initial rape investigations, they are written from hundreds of reports, notes, memos, newspaper clippings, conversations and interviews with those who were involved. The crimes are factual. The crimes are real. While all characters and events have direct counterparts in the telling of the story, I have created some dialogue in the interest of readability. The cops in the initial rapes are not factual,

their actions are. Their names and descriptions are completely fictitious. The names of the victims, witnesses and suspects are fictitious; the terror, the dialogue during the crimes, and the investigations are real. The cops involved in the cases after I was involved are real, their names and dialogue is factual, the investigations are real. The pain and terror may have diminished in the minds of the victims, I hope that the pain does not return. My intent is to tell the story without endangering the privacy or the dignity of the victims. They have suffered enough.
