Mother of Peace Hak Ja Han Moon,2020-07 Discover the untold story of Hak Ja Han Moon, the North Korean village girl who is now known to millions as the Mother of Peace. Her heart-wrenching story reveals details of a war-torn childhood and trials of faith as she and her late husband, Rev. Sun Myung Moon, built a vast and still-growing international movement capable of fulfilling God's will for peace in the 21st century. A major milestone of her life, described in never-told-before detail, was her marriage in 1960, at age 17, to the charismatic Rev. Dr. Sun Myung Moon. For the next 52 years, she joined him in the daunting task of building a global interfaith movement to fulfill God's will for peace in the 21st century. Mother Moon's journey as a religious woman leader is breathtaking: Born in Japanese-occupied Korea in 1943, she spent her early life in nature so she could commune with God. War forced her to flee south with her mother and grandmother; they crossed the Han River Bridge minutes before it was blown up. Later, she walked and worked side-by-side with Father Moon, one of history's most energetic and visionary men. They visited every corner of the earth and, despite relentless persecution, met with world leaders, including Mikhail Gorbachev and Kim Il Sung, to bring God's message for them. During this time, she bore 14 children and buried four. She stood with Father Moon for hours as they officiated at

Marriage Blessing Ceremonies for hundreds of thousands of couples. Together, they launched hundreds of organizations and businesses to serve youth, family and peacemaking. Since Father Moon's passing in 2012, Mother Moon has shouldered the leadership of their still-growing movement. She has led Peace Starts With Me rallies in six continents and plans to bring Blessing Ceremonies to all people.

The Church of Christ in Corea Malcolm C. Fenwick, 1911

Korean Pentecostalism Boo-Woong Yoo, 1988 This study sets Korean Pentecostalism firmly in the Korean context. It shows the roots of Korean Pentecostalism in Korean culture and history, and discusses its relation to Minjung theology. Some of the American evangelistic campaigns in Korea are also discussed. Korea has its own Pentecostal churches but more important is the influence of the Pentecostal Movement on that country's rapidly-growing churches in general. The originality of Korean Pentecostalism and its difference from American/European Pentecostalism is clearly highlighted.

Artificial Intelligence in Society OECD, 2019-06-11 The artificial intelligence (AI) landscape has evolved significantly from 1950 when Alan Turing first posed the question of whether machines can think. Today, AI is transforming societies and economies. It promises to generate productivity gains, improve well-being and help address global challenges, such as climate change,

resource scarcity and health crises.

Theology of the Open Table Eojin Lee, 2016-11-23
Theology of the Open Table begins with research on the traditional eucharistic understanding in the Presbyterian Church of Korea (PCK) through cultural and social analyses. In developing his argument, Eojin Lee has especially researched the biblical, theological, and early church sources in relation to his subject, the Eucharist and the open table. This book seeks to provide sound theological justification for the open table with an introduction of practices of the open table in the Uniting Church in Australia (UCA).

Lourdes Ruth Harris, 2008-09-04 Lourdes was at the very centre of nineteenth century debates on religion, science and medicine. Both the Church and secularists championed the 'miracle' town as crucial in shaping how society should think about the mind, body and spirit. Since the 'visions' of Bernadette Soubirous in 1858 transformed the quiet Pyrenean town into an international tourist and pilgrimage destination, it has been a site for controversy. In her well-crafted and carefully researched book, Harris deftly places Lourdes and its attendant spiritual movement firmly at the centre of French history and shows its significance in the country's development.

The History of the Riverside Church in the City

of New York Peter J. Paris, John W. Cook, James Hudnut-Beumler, Lawrence Mamiya, 2004-05-01 It was from the pulpit of the Riverside Church that Martin Luther King, Jr., first publicly voiced his opposition to the Vietnam War, that Nelson Mandela addressed U.S. church leaders after his release from prison, and that speakers as diverse as Cesar Chavez, Jesse Jackson, Desmond Tutu, Fidel Castro, and Reinhold Niebuhr lectured church and nation about issues of the day. The greatest of American preachers have served as senior minister, including Harry Emerson Fosdick, Robert J. McCracken, Ernest T. Campbell, William Sloane Coffin, Jr., and James A. Forbes, Jr., and at one time the New York Times printed reports of each Sunday's sermon in its Monday morning edition. For seven decades the church has served as the premier model of Protestant liberalism in the United States. Its history represents the movement from white Protestant hegemony to a multiracial and multiethnic church that has been at the vanguard of social justice advocacy, liberation theologies, gay and lesbian ministries, peace studies, ethnic and racial dialogue, and Jewish-Christian relations. A collaborative effort by a stellar team of scholars, *The History of the Riverside Church in the City of New York* offers a critical history of this unique institution on Manhattan's Upper West Side, including its cultural impact on New York City and beyond, its outstanding preachers, and its architecture, and assesses the shifting fortunes of religious progressivism in the twentieth century.

Models of Priestly Formation Declan

Marmion,Michael Mullaney,Salvador Ryan,2019-06-25 The preparation of new priests for ministry currently faces closer scrutiny than at any time since the Reformation, and the importance of effective priestly formation has perhaps never been clearer in the entire history of the Church. In *Models of Priestly Formation*, some of the world's leading experts on the topic consider priestly formation since Vatican II, explore current best practices internationally, and imagine what the future of such formation might look like. The book promises to become an essential reference for every person involved in priestly formation and for anyone interested in understanding better how it is carried out and how those who do it think about their task. The eBook edition includes four additional essays.

13 Ways to Screw Up Your College Interview Ian McWethy,2009-08-11 When two college recruiters at a prestigious university need to fill one last spot to keep their jobs, thirteen eccentric, dimwitted and slightly-insane high school seniors are eager to come in for an interview. What seems

like a simple task turns into a nightmare when the applicants turn out to be a reality TV star, a practicing vampire, an amateur magician, and others that are much, much worse. Each applicant's interview hilariously illustrates what NOT to do at a college interview.
