Bakan, Heidi Senungetuk, Stephanie Shonekan, 2022-10 World Music: Traditions and Transformations, fourth edition, is an introductory-level survey of diverse musics from around the world. It assumes no prior formal training or education in music, and with one brief exception avoids the use of Western music notation entirely. It is written primarily for undergraduate nonmusic majors but is equally appropriate for music majors, and is therefore ideal for courses enrolling music and nonmusic students alike--

📖 **Make It New** Bill Beuttler, 2019-10-01 As jazz enters its second century it is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both Western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.

📖 **Henry Mancini** John Caps, 2012-02-15 Henry Mancini, the first publicly successful and personally recognizable film composer in history, has practically become a Hollywood brand name. In his lifetime, he sold thirty million albums and won four Oscars and twenty Grammy awards. Through Mancini, mere background music in movies became part of pop culture--an expression of sophistication and wit with a modern sense of cool and a lasting lyricism that has not dated. The first comprehensive study of Mancini's music, *Henry Mancini: Reinventing Film Music* describes how the composer served as a bridge between the Big Band period of World War II and the impatient eclecticism of the Baby Boomer generation, between the grand formal orchestral film scores of the past and a modern American minimalist approach. Mancini's sound seemed to capture the bright, confident, welcoming voice of the middle class's new efficient life: interested in pop songs and jazz, in movies and television, in outreach politics but also conventional stay-at-home comforts. As John Caps shows, Mancini easily combined it all in his music. Mancini wrote his first dramatic music for a radio series in 1950. By the mid-1960s, he wielded influence in Hollywood and around the world with his iconic scores: dynamic jazz for the noirish detective TV show *Peter Gunn*, the sly theme from *The Pink Panther*, and his wistful folk song *Moon River* from *Breakfast at Tiffany's*. Following the evolution of Mancini's style, Caps traces the history of movie scoring in general: from the jazz-pop of the 1960s to the edgier, electro-funk harmonies of the Watergate 1970s, from the revisionist 1980s marked by New Age trends and new jazz chords to the frustrating New Hollywood of the 1990s when films were made by committees of lawyers rather than by artisans. Through insightful close readings of key films, Caps traces Mancini's collaborations with important directors and shows how he homed in on specific dramatic or comic aspects of each film to create musical effects through clever instrumentation, eloquent melodies, and the strong narrative qualities of his scores. Accessible and engaging, this fresh view of Mancini's oeuvre and influence will delight and inform fans of film and popular music.

📖 **Remix Theory: The Aesthetics of Sampling** Eduardo Navas, 2014-11-04 Sampling and remixing are now common in art, music and new media. Assessing their aesthetic qualities by focusing on technical advances in 1970s and 80s music, and later in art and media, the author argues that 'Remix' punches above its deemed cultural weight.

📖 **Idea Man** Paul Allen, 2012 What's it like to start a revolution? How do you build the biggest tech company in the world? And why do you walk away from it all? Paul Allen co-founded Microsoft. Together he and Bill Gates turned an idea - writing software - into a company and then an entire industry. This is the story of how it came about: two young mavericks who turned technology on its head, the bitter battles as each tried to stamp his vision on the future and the ruthless brilliance and fierce commitment.

📖 **The Age of Surveillance Capitalism** Shoshana Zuboff, 2019-01-15 The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called surveillance capitalism, and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new behavioral futures markets, where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new means of behavioral modification. The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a Big Other operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled hive of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

📖 THE SOUND OF MUSIC STORY Tom Santopietro, 2015-02-17 On March 2, 1965, The Sound of Music was released in the United States and the love affair between moviegoers and the classic Rodgers and Hammerstein musical was on. Rarely has a film captured the love and imagination of the moviegoing public in the way that The Sound of Music did as it blended history, music, Austrian location filming, heartfelt emotion and the yodeling of Julie Andrews into a monster hit. Now, Tom Santopietro has written the ultimate Sound of Music fan book with all the inside dope from behind the scenes stories of the filming in Austria and Hollywood to new interviews with Johannes von Trapp and others. Santopietro looks back at the real life story of Maria von Trapp, goes on to chronicle the sensational success of the Broadway musical, and recounts the story of the near cancellation of the film when the Cleopatra bankrupted 20th Century Fox. We all know that Julie Andrews and Christopher Plummer played Maria and Captain Von Trapp, but who else had been considered? Tom Santopietro knows and will tell all while providing a historian’s critical analysis of the careers of director Robert Wise and screenwriter Ernest Lehman, a look at the critical controversy which greeted the movie, the film’s relationship to the turbulent 1960s and the super stardom which engulfed Julie Andrews. Tom Santopietro’s The Story of ‘The Sound of Music’ is book for everyone who cherishes this American classic.

📖 PERFORMING RITES Simon Frith, 1998-02-06 Who’s better? Billie Holiday or P. J. Harvey? Blur or Oasis? Dylan or Keats? And how many friendships have ridden on the answer? Such questions aren’t merely the stuff of fanzines and idle talk; they inform our most passionate arguments, distill our most deeply held values, make meaning of our ever-changing culture. In *Performing Rites*, one of the most influential writers on popular music asks what we talk about when we talk about music. What’s good, what’s bad? What’s high, what’s low? Why do such distinctions matter? Instead of dismissing emotional response and personal taste as inaccessible to the academic critic, Simon Frith takes these forms of engagement as his subject--and discloses their place at the very center of the aesthetics that structure our culture and color our lives. Taking up hundreds of songs and writers, Frith insists on acts of evaluation of popular music as music. Ranging through and beyond the twentieth century, *Performing Rites* puts the Pet Shop Boys and Puccini, rhythm and lyric, voice and technology, into a dialogue about the undeniable impact of popular aesthetics on our lives. How we nod our heads or tap our feet, grin or grimace or flip the dial; how we determine what’s sublime and what’s for real--these are part of the way we construct our social identities, and an essential response to the performance of all music. Frith argues that listening itself is a performance, both social gesture and bodily response. From how they are made to how they are received, popular songs appear here as not only meriting aesthetic judgments but also demanding them, and shaping our understanding of what all music means.
