**River Kings** Cat Jarman,2022-02-01 Follow an epic story of the Viking Age that traces the historical trail of an ancient piece of jewelry found in a Viking grave in England to its origins thousands of miles east in India. An acclaimed bioarchaeologist, Catrine Jarman has used cutting-edge forensic techniques to spark her investigation into the history of the Vikings who came to rest in British soil. By examining teeth that are now over one thousand years old, she can determine childhood diet—and thereby where a person was likely born. With radiocarbon dating, she can ascertain a death-date down to the range of a few years. And her research offers enlightening new visions of the roles of women and children in Viking culture. Three years ago, a Carnelian bead came into her temporary possession. **River Kings** sees her trace the path of this ancient piece of jewelry back to eighth-century Baghdad and India, discovering along the way that the Vikings' route was far more varied than we might think—that with them came people from the Middle East, not just Scandinavia, and that the reason for this

unexpected integration between the Eastern and Western worlds may well have been a slave trade running through the Silk Road, all the way to Britain. Told as a riveting history of the Vikings and the methods we use to understand them, this is a major reassessment of the fierce, often-mythologized voyagers of the North—and of the global medieval world as we know it.

*The Middle East and Palestine* D. Jung, 2004-09-17 Taking issue with the convenient views that the Middle East is an irrational and exceptional region of world politics, and that the long and bloody history of the Palestine conflict is proof, the authors combine theoretical reflection and empirical investigation, marrying International Relations theory and Middle East area studies. Through integrating macro and micro-perspectives, tracing the interaction of global and regional environments with individuals pursuing political goals, this book rejects the cultural stereotype of 'Middle Eastern exceptionalism' and argues that regional patterns of conflict are deeply embedded in international and transnational relations, and that their particular trajectories have to be interpreted in light of global political developments.

*Hitler Youth* Brenda Ralph Lewis, 2019-07-09 Between 1933 and 1945, most German children were members of the Hitler

Youth. Exploring its development, organisation, education and indoctrination, this book also looks at its combat role in World War II. Hitler Youth is an expertly-written, accessible account of the indoctrination of a generation of Germans.

**Let's Go 2006 Western Europe** Jeremy Todd,Virginia Fisher,2005-11-29 For the European traveler whos visiting several countries but skipping Eastern Europe. This book does, however, cover Prague and Budapest, as well as the Dalmation Coast and destinations in Northern Europe.

Probing the Limits of Categorization Christina Morina,Krijn Thijs,2018-11-29 Of the three categories that Raul Hilberg developed in his analysis of the Holocaust—perpetrators, victims, and bystanders—it is the last that is the broadest and most difficult

to pinpoint. Described by Hilberg as those who were “once a part of this history,” bystanders present unique challenges for those seeking to understand the decisions, attitudes, and self-understanding of historical actors who were neither obviously the instigators nor the targets of Nazi crimes. Combining historiographical, conceptual, and empirical perspectives on the bystander, the case studies in this book provide powerful insights into the complex social processes that accompany state-sponsored genocidal violence.

*The Jews of Denmark in the Holocaust* Silvia Goldbaum Tarabini Fracapane, 2020-12-29 Based on never previously explored personal accounts and archival documentation, this book examines life and death in the Theresienstadt ghetto, seen through the eyes of the Jewish victims from Denmark. How was it in Theresienstadt? Thus asked Johan Grün rhetorically when he, in July 1945, published a short text about his experiences. The successful flight of the majority of Danish Jewry in October 1943 is a well-known episode of the Holocaust, but the experience of the 470 men, women, and children that were deported to the ghetto

has seldom been the object of scholarly interest. Providing an overview of the Judenaktion in Denmark and the subsequent deportations, the book sheds light on the fate of those who were arrested. Through a micro-historical analysis of everyday life, it describes various aspects of social and daily life in proximity to death. In doing so, the volume illuminates the diversity of individual situations and conveys the deportees' perceptions and striving for survival and 'normality'. Offering a multi-perspective and international approach that places the case of Denmark into the broader Jewish experience during the Holocaust, this book is invaluable for researchers of Jewish studies, Holocaust and genocide studies, and the history of modern Denmark.

**Rescue in Denmark** Harold Flender, 2019-08-09 “German troops entered [Denmark, a] country of four and a half million persons on April 9, 1940, and three years passed before the purge against Danish Jews was begun. On the night of October 1, 1943, the Nazi boot kicked open doors in rooms largely empty. Only a fraction of the Danish Jews — 472 — were caught and sent to Theresienstadt Concentration Camp (where 53 of them died). The remaining 7,500 escaped — thanks to one German and several thousands of their countrymen. How? That was the question that puzzled the American journalist and television-writer, Harold Flender... He returned to Denmark for intensive research among rescuers and rescued and in archives. This book is the result... Flender brings out the risks and agonies, the drama and the heroism, in straight, professional reporting...
