**Animals and Ourselves** Kathy Merlock Jackson,Kathy Shepherd Stolley,Lisa Lyon Payne,2020-09-29 The relationship between humans and animals has always been strong, symbiotic and complicated. Animals, real and fictional, have been a mainstay in the arts and entertainment, figuring prominently in literature, film, television, social media, and live performances. Increasingly, though, people are anthropomorphizing animals, assigning them humanoid roles, tasks and identities. At the same time, humans, such as members of the furry culture or college mascots, find pleasure in adopting animal identities and characteristics. This book is the first of its kind to explore these growing phenomena across media. The contributors to this collection represent various disciplines, to include the arts, humanities, social sciences, and healthcare. Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving.

**Social Class on Campus** Will Barratt,2023-07-03 This is at once a playful text with a serious purpose: to provide the reader with the theoretical lenses to analyze the dynamics of social class. It will appeal to students, and indeed anyone interested in how class mediates relationships in higher education, both because of its engaging tone, and because it uses the college campus as a microcosm for observing and analyzing the concept of class – and does so in a way that will prompt the reader to reflect on her or his location in the continuum of class, and understand how every member of the campus community helps co-construct social class.Will Barratt starts from the premise that there is more than one way to study any idea; and that the more tools we use to examine a concept, the more fully we understand it in all its complexity and ambiguity. To illustrate salient features of class on campus, he introduces five fictional European-American women – Whitney Page, Louise, Misty, Ursula, and Eleanor – and also includes the real stories of students who represent a diversity of backgrounds.Social class is often neglected or ignored as an important issue in the lives of students. The book provides the reader with a language for analyzing class, with theories of class that go beyond standard economic and sociological models, and examples of the manifestation of class – all toward the end of helping the reader have more agency in working with this difficult and challenging concept. This book is suitable for students going to college for the first time, for courses exploring multicultural issues in contemporary society, and for anyone professionally involved with students. Each chapter includes a suggested experience and reflection questions to prompt readers to explore their thinking and feeling about class, as well as class discussion questions.

**Events, Society and Sustainability** Tomas Pernecky,Michael Lück,2013-02-15 The growth of the events industry brings with it concerns of sustainable management, the sharing of available resources, and ensuring that people and places are not over-exploited. While the environmental and economic dimensions of sustainability have attracted a reasonable attention in the study of events, the social and cultural aspects of sustainability have been largely neglected. This book brings together emerging critical perspectives, innovative conceptual frameworks and contemporary case studies. Events cannot be isolated from the actions of humans and this is reflected in the emphasis on people and society throughout. The next wave of sustainable discourse requires a critical synthesis of information and this book is the first to address the need for more critical approaches and a broader way of thinking about events and sustainability. Divided into five thematic parts, the contributions delve into understanding the mainstream stances towards sustainability, the role events play in indigenous cultures and in diasporic communities, and the extent to which events influence the public discourse and civic identity. Sustainability is also examined from a strategic perspective in the events sector, and consideration is given to issues such as corporate social responsibility, greenwashing, and the power of multi-stakeholder alliances in promoting sustainability goals. Written by leading academics, this timely and important volume will be valuable reading for all students, researchers and academics interested in Events and the global issue of Sustainability.

*A COLLECTION OF HORROR STORIES IN GRAZY TIME* Asep Kurniawan, 2019-09-15 Mystery of Women in Red Dress The atmosphere is very unusual, not like normal nights. Maybe because the weather will rain and get colder with light rain. Think aan, but his mind said differently. I do not know what aan feel, there is something else going on in this boarding house. Is this how he feels for listening to the nightmares radio program? Maybe so, he thought again. But this has been going on since this afternoon until now. Is Aan's feelings indeed proven ... please read for yourself the Story of the Mystery of the Red Dressed Woman. Bride Ghost Terror Not too long ago, he heard footsteps walking on the floor tiles. These steps are only heard in the living room. There was some chess sliding, books and magazines and newspapers opened, the lid of a used glass of milk and coffee clattered above the glass. Rubby from under the scabbard grew trembling but still trying to think positive. He tried to remember whether a cat entered or a rat. But so far this boarding house is clean from pests and mice and other animals such as cats. There is no one in the boarding house here who likes animals called cats. Did the other children of the residents wake up because of my shout earlier? Rubby asked. but it is impossible, all the children when opening the door of the room must be clearly heard the opening latch. their footsteps too, rubby is very memorized. Nobody stumbles. Could it be that Pak de? Another question arises, since when Pak de came in the middle of the night, even though when he opened the room, he would have heard it earlier. Who actually terrorized rubby that night, please refer to the full story ... Secret of the Topan room I wanted to check into the bathroom, but I didn't dare. Tales of the senses the next morning. Visible dark circles in his eyes meaning that last night he stayed up late. Dra, break your heart ... it means that the occupants of this house are wanting to get acquainted with you, exclaimed Riza in a serious tone and expression. But not long bursting into laughter followed by us together. Damn, we'll see, if something happens ... you're dead, cried the senses menacingly, but joined in smiling and laughing, feeling his own stupidity telling something that seemed impossible. Ask for dra lottery when you find it, topan said while still laughing. Whether this will happen to all residents of the house, please read the full and enjoy the sensation ...

Makeover Nation Toby Miller, 2008 Life is very much a project in the United States--but not a straightforwardly individual one. A duality of individual free choice and disciplinary institutional governance is the grand national paradox. Simply being--leading life without a bumper sticker avowing one's elective institutional affinities--seems implausible in a country consumed by the makeover--the idea that what you were born as need not define you forever. As Toby Miller writes in his introduction: I come neither to bury the makeover nor to praise the makeover, but to criticize it, even as I stand alternately bewildered, amused, appalled, and attracted by it. In Makeover Nation he does just that in a witty, no-holds-barred style. Miller looks at the power of various forms of knowledge about people and their emotions as they have been applied to the US population, from talk therapy to drug treatment. He is particularly interested in young people--in examining how childhood is constructed--and pays close attention to the much-favored (and overused) diagnosis and treatment of ADHD/ADD. He also focuses his attention on metrosexuals and right-wing Christians to disclose how these opposing groups manifest their drive toward self-creation. Miller believes that we must question the pleasures of reinvention even as we embrace them.
