Protecting Your Internet Identity Ted Claypoole, Theresa Payton, 2016-11-16 People research everything online – shopping, school, jobs, travel – and other people. Your online persona is your new front door. It is likely the first thing that new friends and colleagues learn about you. In the years since this book was first published, the Internet profile and reputation have grown more important in the vital human activities of work, school and relationships. This updated edition explores the various ways that people may use your Internet identity, including the ways bad guys can bully, stalk or steal from you aided by the information they find about you online. The authors look into the Edward Snowden revelations and the government's voracious appetite for personal data. A new chapter on the right to be forgotten explores the origins and current effects of this new legal concept, and shows how the new right could affect us all. Timely information helping to protect your children on the Internet and guarding your business's online reputation has also been added. The state of Internet anonymity has been exposed to scrutiny lately, and the authors explore how anonymous you can really choose to be when conducting activity on the web. The growth of social networks is also addressed as a way to project your best image and to protect yourself from embarrassing statements. Building on the first book, this new edition has everything you need to know to protect yourself, your family, and your reputation online.

What They Don't Teach Teens Jonathan Cristall, 2020-10-06 The 21st century guidebook of life safety skills for teens, their parents, and other caregivers, covering physical safety, sexual consent, social media, your rights with the police, situational awareness, dating violence, smartphones, and more. Young people coming of age today face new risks, expectations, and laws that didn't exist when their parents were young. What They Don't Teach Teens provides teens, tweens, and young adults with up-to-date, realistic strategies to protect themselves against the pitfalls of modern adolescence. Author Jonathan Cristall, once a troubled teen himself and now a veteran prosecutor for the City of Los Angeles, works extensively with teenagers and their families to teach physical, digital, emotional, and legal safety skills. Drawing on Cristall's hands-on experience, What They Don't Teach Teens gives parents and other caregivers techniques for talking to their children about these urgent issues. What They Don't Teach Teens gives sound advice on police interactions and personal safety (your constitutional rights, what to do/not do when stopped by the police while driving, situational awareness, street robberies, gun violence); sexual violence and misconduct (sexual consent, sexual harassment prevention, dating violence, sextortion); and staying safer online (digital footprint and citizenship, cyberbullying, underage sexting, online porn). Young people have the power to affect sweeping change, and the key to mending the racial divide in America lies in giving them the tools to ask honest questions and take in the difficult answers. What Should You Do? Melinda Reynolds Tripp, 2010-07 As a six-year-old walks the block home from school, a car pulls to the curb beside him. The man driving asks the boy if he wants a ride, and begins to get out of his car... If this happened, would your child know what to do? You may remember a time when you played outdoors until dark. In many parts of our country, many children still do. However, for those parents, schools, and teachers feeling unsure about the safety of their neighborhoods or towns, empowerment goes a long way. Teach your children how to spot dangerous behaviors and situations and use their instincts. Give them the confidence to react quickly. A simple plan is their best defense. Let your children or students sing and shout, while you teach them to be safe! *What Should You Do?: Helping Children Protect Themselves in the Twenty-first Century* turns fright time into flight time! Real-life stories teach hands-on safety skills to keep children and teens engaged in this life-saving education.

Safe Connections Sandy K. Wurtele, 2012 Concerned about keeping your young teen safe? It was much easier to protect our children from sexual harm when they were small and underfoot. Now that they're older, and making connections with others outside the home, what new information do we need to safeguard them from abuse? Sandy K. Wurtele offers wisdom on behalf of 10- to 15-year-olds in her latest book for parents on the subject of abuse prevention. Children in this age range present a unique challenge to parents who want the richest, safest adolescent experience for their kids. That challenge is the combination of developing sexuality and drive for independence—without enough experience or brain development to always make good decisions. To keep your young teen as safe as you can from abuse: Learn what makes these kids particularly vulnerable to sexual exploitation. Teach them how to recognize if your teen is the abuser and how to get help for him or her. Learn to recognize if your teen is the abuser and how to get help for him or her. Teach your child about the dangers of sexting and exploitation by online predators and how to avoid both. While it might scare you to think about these dangers, knowledge can equip you and your teenager with the ability to avoid, or deal with, these problems. This will give you and your child confidence in meeting the challenges of this new developmental stage. Sandy K. Wurtele, professor of psychology at the University of Colorado, specializes in research toward the prevention of Childhood Sexual Abuse (CSA). To that end, she speaks at conferences and gives workshops all over the world. She is an advisor to the National Center for Missing and Exploited Children. Her first book in this series is *Out of Harm's Way: A Parent's Guide to Protecting Young Children from Sexual Abuse*.

Canary Rachele Alpine, 2013-08-01 In this debut novel, a high school girl faces the pain, shame, and uncertainty that come with sexual abuse. With the passing of her mother, Kate Franklin's life unravels at the seams as she loses the only emotional mooring in her family. Her dad shuts down completely, and her brother enlists in the army. Things start looking better when her dad is hired to coach at Beacon Prep, home of one of the best basketball teams in the state. In a blog of prose and poetry, Kate chronicles her new world—dating a basketball player, being caught up in a world of idolatry and entitlement, and discovering the perks the inner circle enjoys. Then Kate's fragile life shatters once again when one of her boyfriend's teammates assaults her at a party. Although she knows she should speak out, her dad's vehemently against it and so, like a canary sent into a mine to test toxicity levels and protect miners, Kate alone breathes the poisonous secrets to protect her dad and the team. The once welcoming community has betrayed Kate, her family is disintegrating, and she's on her own to grapple with whether to stay quiet or speak out and expose a town's hero and destroy her father's career.
