The Candida Directory Helen Gustafson, Maureen O'Shea, 2011-12-07 Candida albicans, in its benign state, lives quietly within our bodies. But when confronted with wide-spectrum antibiotics, birth control pills, steroids, and a sugar-rich diet, this yeast can proliferate, causing a variety of medical problems. Depression, anxiety, tiredness, allergies, and migraine headaches are some of the symptoms. In the past, besides medication, this disease has been treated with a strict carbohydrate-free diet that not only starved the Candida, but also starved the patient. Former Candida sufferer Helen Gustafson and nutritional consultant Maureen O'Shea join forces to create this user-friendly manual for coping with Candida. A symptom chart leads you through the three stages of a specially tailored diet. With over 60 recipes contributed by such well-known chefs as Marion Cunningham, Nasari David, Wolfgang Puck, and Alice Waters, each stage is a veritable feast of possibilities. This innovative collection of exciting dishes would not be complete without an alphabetical listing of

Vulvovaginal Candidosis Werner Mendling, 2012-12-06 Fungal infections in the female play an increasingly large role in everyday gynecological practice. This is the first book to deal comprehensively with vulvovaginal candidosis. Following an introduction outlining the incidence of yeasts in man, genital colonization in the female sex, yeast in pregnancy and neonatal mycoses, there is a description of the modes of infection and the known host reactions, as well as of the symptoms for diagnosis and therapy. Some 150 color illustrations depict all known facultative pathogenetic candida species and other potentially pathogenetic yeasts in pure culture and under the microscope. Clinical examples help explain the diagnosis and differential diagnosis. The volume provides the physician with handy, concise and practice-oriented guidelines to correct diagnosis and
