- 📖 **PROFESSIONAL EXPERIENCE AND THE INVESTIGATIVE IMAGINATION** Alyson Buck, Paula Sobiechowska, Richard Winter, 2013-03-07 This book explains and demonstrates how creative writing can be used successfully in the context of professional education where traditionally a more distanced approach to reporting on professional experience has been favoured. It is based on many practical examples, drawn from several years’ experience of running courses for social workers, nurses, teachers, managers and higher education staff, in which participants explore their professional practice through imaginative forms of writing. The participants experience of the work is presented through a discussion of interviews and evaluative documents. The book includes a set of distance-learning materials for those wishing to undertake such work for themselves or to establish similar courses, as well as a full analysis of the link between professional reflection and the artistic imagination. The book makes available a new and more broadly-based approach to the process of professional reflection, and the concept of the patchwork text has general relevance for debates about increasing access to higher education qualifications.
