*Bitcoin and Mobile Payments* Gabriella

Gimigliano,2016-07-25 This book provides a critical analysis of The European Union's regulatory framework for mobile payments and bitcoin. Chapters discuss the creation of the EU single market for e-payments and combine legal analysis with comparative case studies in their exploration of the regulatory challenges surrounding e-payments. The contributing authors analyse the key economic and legal issues of the development of bitcoin and mobile payments within the EU framework through a comparative lens. They cover topics ranging from user data and funds protection and the stability of the payment system to the competitiveness of the EU market. Providing a comprehensive and methodological guide to the bitcoin and mobile payments in Europe, this book will prove an illuminating and informative read for academics, students and policy makers with an interest in the impact of

innovation on payment systems.

**New Normal Beyond The Pandemic: Rethinking Alienation From Local To Global / Pandemiyle Birlikte Yerelden Küresele Yabancılaşmayı Yeniden**

**Düşünmek** Zeynep Banu Dalaman,2021-11-16 The Covid-19 crisis, with all the horrors it has caused, has offered humanity an opportunity to reflect on itself and evaluate its point, even if it is delayed. In a very short time, we found ourselves worried about whether we could reach the objects we needed, whether we would lose our jobs or keep our freedom. Alienation is described as withdrawing or separation of a person or a person's affections from an object or position of former attachment: alienation viewed as a sense of detachment from the values of one's society, family, and even from one's own feelings from the values of

one's society and family (S. L. Halleck). Different forms of alienation, such as cultural alienation, professional alienation, and religious alienation, are among the current issues. It is obvious that we need to define different forms of alienation along with the pandemic. I believe this book will not be the first nor the last research book published on the Covid-19 pandemic. Our aim is to leave a resource on the subject for the next generation of researchers. I would like to thank everyone who contributed to the book and hope it will be beneficial for the academic community.

Covid-19 krizi yaşattığı tüm dehşetle birlikte insanlığın kendi üzerinde düşünmek, gelmiş bulunduğu noktayı değerlendirmek için de, gecikmeli olsa bile bir imkan sunmuştur. Kendimizi çok kısa bir süre içerisinde ihtiyacımız olan nesnelere ulaşım sağlayamayacağımız, işimizi kaybedip kaybetmeyeceğimiz ya da özgürlüklerimizi elimizde tutup tutamayacağımız hakkında kaygılanır bulduk. Kelime anlamı itibarı ile yabancılaşma bir şeyin veya kimsenin başka bir şeyden veya kimseden uzaklaşması, başka bir şeyle veya kimseyle olan fonksiyonel veya anlamsal paylaşımının sona ermesi durumunu ifade etmektedir (S.L.Halleck). Kültürel yabancılaşma, mesleki yabancılaşma, dinsel yabancılaşma gibi farklı yabancılaşma biçimleri de günümüzün aktüel konularındandır. Pandemi ile birlikte farklı yabancılaşmaları da tanımlamamız gerektiği aşikârdır. Bu kitabın amacı, yeni sürecin yarattığı yabancılaşmayla birlikte, melezleşme sürecini yeniden inşa etmek, küresel ve yerel arasındaki kültürel karşılaşmalara alternatif yaklaşımları anlamaya katkı sunmaktır.

*The Digital Challenge* Shirin Madon,S

Krishna,2018-02-06 This title was first published in 2003. Information and communication technologies (ICTs) are increasingly being recognized as vital to the economic growth and global inclusion and participation of developing countries. This book brings together both academics and practitioners to provide a comprehensive and insightful overview of ICT and development around the world. It examines the role of IT in providing new economic and industrial opportunities, in increasing access to global information and communication, in assisting small cultural and ethnic groups to overcome disadvantages of physical distance and in catalysing initiatives towards democratic decentralization and empowerment of citizens. It also critically appraises major problems such as inappropriate focus and resource allocation, and of missed opportunities. By combining comparative case studies from Africa, South and East Asia, South America and Eastern Europe with theoretical analysis, this volume synthesizes a range of issues related to the evident tensions that exist for developing countries as they try to balance global and local priorities through the adoption and use of ICTs.

(UNCTAD),2015-06-19 Electronic commerce (e-commerce) is rapidly transforming the way in which enterprises are interacting among each other as well as with consumers and governments. Despite important potential benefits, businesses and consumers in developing countries were for a long time slow to exploit e-commerce. As a result of changes in the evolving landscape for information and communications technologies (ICTs), this pattern is now changing, and e-commerce is growing rapidly in emerging markets and developing economies. Against this background, this publication revisits the potential opportunities and risks of e-commerce and examines how countries can benefit the most from the phenomenon in today's Information Society. Using official statistics and private sector data, it provides an up-to-date review of global and regional trends related to e-commerce in view of changes in the ICT landscape, focusing on developing countries while drawing lessons from developed countries.

**Trading Barriers** Margaret E. Peters,2017-05-09 Why have countries increasingly restricted immigration even when they have opened their markets to foreign competition through trade or allowed their firms to move jobs overseas? In Trading Barriers, Margaret Peters argues that the increased ability of firms to produce anywhere in the world combined with growing international competition due to lowered trade barriers has led to greater limits on immigration. Peters explains that businesses relying on low-skill labor have been the major proponents of greater openness to immigrants. Immigration helps lower costs, making these businesses more competitive at home and abroad. However, increased international competition, due to lower trade barriers and greater economic development

in the developing world, has led many businesses in wealthy countries to close or move overseas. Productivity increases have allowed those firms that have chosen to remain behind to do more with fewer workers. Together, these changes in the international economy have sapped the crucial business support necessary for more open immigration policies at home, empowered anti-immigrant groups, and spurred greater controls on migration. Debunking the commonly held belief that domestic social concerns are the deciding factor in determining immigration policy, *Trading Barriers* demonstrates the important and influential role played by international trade and capital movements.
