Nigel Roberts

Crack the Funding Code Judy Robinett, 2019-02-05

Crack the Funding Code demystifies the world of angel investing, venture capital, and corporate funding and lays out a strategic pathway for any entrepreneur to secure funding fast. Lack of funding is one of the biggest reasons small businesses fail. In 2016 in the United States alone, more than 31 percent of small business owners reported that they could not access adequate capital, and the lack of capital prevented them from growing the business/expanding operations, increasing inventory, or financing increased sales. This book will show you how to find the money, create pitches that attract investors, and then structure fair, ethical deals that will bring them new sources of outside capital and invaluable professional advice. Crack the Funding Code gives you the broader perspective on: how funding works, how investors think, and what they need to hear to put their money where your mouth is. Every entrepreneur who reads this book will get easy-to-follow deal checklists, a roadmap of where and how to locate the best funding resources and top business mentors for their industry or geographical location, and a step-by-step process to create pitches that make their idea or business irresistible.

Landscapes of Capital Robert Goldman, Stephen

Papson, 2011-05-16 Goldman and Papson do for Marxist cultural studies what Einstein did for physics: they rethink the space/time of capital. In particular, they read our global capitalism visually and discursively by examining the way capital entices us into debt and domination via advertising. Although a traditional book, this is also a map into the interior space/time of global structures that appear to us as flickering images interrupting our televisual downtime. They demonstrate that there is no downtime, no uncolonized

space.---Ben Agger, University of Texas at Arlington --

Federal Register ,2000-10-25

Laws of the State of Maryland Maryland,1973 Includes extraordinary and special sessions.

ICTs for Advancing Rural Communities and Human Development: Addressing the Digital Divide Chhabra, Susheel,2012-01-31 This book reviews the important impact ICTs have on economic, social, and political development and provides analyses of ICTs for education, commerce, and governance--Provided by publisher.

Belarus Nigel Roberts,2015-05-01 With one foot still in its Soviet past, Belarus might not be the most obvious choice for travellers, but its isolation is at the heart of its appeal. Those who venture here will find a history rich in heroism and tragedy, set amid a landscape of primeval birch forests, snow-edged lakes and cornflower fields, replete with golden-orbed Russian Orthodox churches and villages where age-old traditions still hold sway. While it's easy for visitors to feel as though they've slipped into another time and dimension, they'll encounter singular hospitality and a genuine welcome.Nigel Roberts' Belarus, the only standalone guide in English to the country, combines detailed background information with expert practical advice for those seeking to take the road less travelled.

OECD Communications Outlook 1999

OECD,1999-03-16 The OECD Communications Outlook presents the most recent comparable data on the performance of the communications sector in OECD countries and on their policy frameworks.

Economy, Emotion, and Ethics in Chinese Cinema

David Leiwei Li,2016-02-05 The First and Second Comings of capitalism are conceptual shorthands used to capture the radical changes in global geopolitics from the Opium War to

the end of the Cold War and beyond. Centring the role of capitalism in the Chinese everyday, the framework can be employed to comprehend contemporary Chinese culture in general and, as in this study, Chinese cinema in particular. This book investigates major Chinese-language films from mainland China, Taiwan, and Hong Kong in order to unpack a hyper-compressed capitalist modernity with distinctive Chinese characteristics. As a dialogue between the film genre as a mediation of microscopic social life, and the narrative of economic development as a macroscopic political abstraction, it engages the two otherwise remotely related worlds, illustrating how the State and the Subject are reconstituted cinematically in late capitalism. A deeply cultural, determinedly historical, and deliberately interdisciplinary study, it approaches culture anthropologically, as a way of life emanating from the everyday, and aesthetically, as imaginative forms and creative expressions. *Economy, Emotion, and Ethics in Chinese Cinema* will appeal to students and scholars of Chinese cinema, cultural studies, Asian studies, and interdisciplinary studies of politics and culture.

Mobile Communication Scott Campbell, 2017-09-05

Mobile Communication covers a wide range of topics. These include the replacement of co-present interaction with mediated contact and analysis of mobile-based cohesion and gender. The authors also explore the role of media choice and its effect on the quality as well as quantity of social cohesion. Other topics include mobile communication and communities of interest; and mobile communication, cohesion, and youth. This volume brings together scholars from around the world to consider how mobile communication both builds and destroys our sense of social cohesion. There is no question that uses of technology can lead to increased cohesion within personal communities.

For example, this volume includes research on caravan couples in Australia, factory workers in China, young couples in Germany, citizens in Slovenia, and sports clubs in Ireland. It also includes research on drunken calls between university students in the US, calls of international students in Switzerland and communications between immigrant women in Melbourne, Australia. However, the contributors also argue that as social networks become inundated with mobile communication users, these users may become increasingly isolated and social division can ensue.

Greening Auto Jobs Caleb Goods, 2014-08-07

Greening Auto Jobs: A Critical Analysis of the Green Job Solution provides a major contribution to the growing and important field of environmental sociology and labor studies by providing a theoretical and practical understanding of how the broader political-economic relations of society affect the relationship between labor and the environment.

Social Capital Nan Lin, Bonnie H. Erickson, 2010 The volume brings together some of the leading scholars around the world working on social capital to study how individuals and groups access and use their social relations and social connections to do better in society in order to achieve their goals.

Mobile Pastoralism and the Formation of Near Eastern Civilizations Anne Porter, 2012-03-26 In this book, Anne Porter explores the idea that mobile and sedentary members of the ancient world were integral parts of the same social and political groups in greater Mesopotamia during the period 4000 to 1500 BCE. She draws on a wide range of archaeological and cuneiform sources to show how networks of social structure, political and religious ideology, and everyday as well as ritual practice worked to maintain the integrity of those groups when the pursuit of different subsistence activities dispersed them over space. These

networks were dynamic, shaping many of the key events and innovations of the time, including the Uruk expansion and the introduction of writing, so-called secondary state formation and the organization and operation of government, the literary production of the Third Dynasty of Ur and the first stories of Gilgamesh, and the emergence of the Amorrites in the second millennium BCE.

The Education of Millionaires Michael

Ellsberg,2012-09-25 Some of the smartest, most successful people in the country didn't finish college. None of them learned their most critical skills at an institution of higher education. And like them, most of what you'll need to learn to be successful you'll have to learn on your own, outside of school. Michael Ellsberg set out to fill in the missing pieces by interviewing a wide range of millionaires and billionaires who don't have college degrees, including fashion magnate Russell Simmons and Facebook founding president Sean Parker. This book is your guide to developing practical success skills in the real world: how to find great mentors, build a world-class network, make your work meaningful (and your meaning work), build the brand of you, and more. Learning these skills is a necessary addition to any education, whether you're a high school dropout or graduate of Harvard Law School.

Crisis Management: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2013-11-30 This book explores the latest empirical research and best real-world practices for preventing, weathering, and recovering from disasters such as earthquakes or tsunamis to nuclear disasters and cyber terrorism--Provided by publisher.

Capital Access Mortgage & Asset-backed Desk Reference Capital Access International,1997

Making Open Development Inclusive Matthew L.

Smith,Ruhiya Kristine Seward,2020-08-25 Drawing on ten years of empirical work and research, analyses of how open development has played out in practice. A decade ago, a significant trend toward openness emerged in international development. Open development can describe initiatives as disparate as open government, open health data, open science, open education, and open innovation. The theory was that open systems related to data, science, and innovation would enable more inclusive processes of human development. This volume, drawing on ten years of empirical work and research, analyzes how open development has played out in practice.

Beyond Resistance! Youth Activism and Community Change Pedro Noguera,Julio Cammarota,Shawn Ginwright,2013-05-13 The failure of current policy to address important quality of life issues for urban youth remains a substantial barrier to civic participation, educational equity, and healthy adulthood. This volume brings together the work of leading urban youth scholars to highlight the detrimental impact of zero tolerance policies on young people's educational experience and well being. Inspired by the conviction that urban youth have the right to more equitable educational and social resources and political representation, *Beyond Resistance!* offers new insights into how to increase the effectiveness of youth development and education programs, and how to create responsive youth policies at the local, state, and federal level.

Mobile Capital and Latin American Development

James E. Jr. Mahon,1996-04-15 Particularly timely in light of the recent Mexican peso crisis, *Mobile Capital and Latin American Development* examines the causes, consequences, and implications of the Latin American capital flight of the 1980s. It addresses the increasingly

mobile and privatized nature of international capital and its power to shape economic policy in those countries. Through a comparison of the policy experiences of Argentina, Brazil, Chile, Colombia, Mexico, and Venezuela, James E. Mahon finds that those countries that suffered the most capital flight had previously faced fewer structural trade problems and had not reoriented their exchange policies to diversify exports and deal with exchange-market instability. Since the countries that stumbled worst into capital flight before the debt crisis were later among the most aggressive neoliberal reformers, Mahon discusses the ways in which overseas capital served as a kind of pressure for free-market reform. Finally, the idea that internationally mobile capital now can operate as a kind of senate—an arm of the wealthy few, guarding the established order against the arbitrary, dangerous tendencies of the executive and popular chamber—is examined with relation to theories of dependency and the institutionalization of democracy.

State Institutions, Private Incentives, Global Capital Andrew Carl Sobel, 2002-02-21 DIVConsiders why some countries are more successful than others in attracting international investment /div

Next generation mobile telecommunications networks: challenges to the Nordic ICT industries, 2006 In international comparisons the Nordic countries tend to stand out as major producers and users of information and communication technology (ICT), especially in the field of mobile telecommunications. There is a common understanding the Nordic countries were particularly well-placed to enter the booming telecommunications industry of the 1980s due to a combination of advanced demand, institutional and societal set-ups that characterize these countries. But this e-book suggests that the technological and business setting of the Nordic mobile communications

is undergoing fundamental changes wit.

The Enigmatic Realm of **Capital Connection Mobile**:
Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Capital Connection Mobile** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book is core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those who partake in its reading experience.
