Adventures Through Time: Captain Flynn, Jake and the World of Wizards DAVID HENNESSEY, 2013-03-09 A young boy falls down a hole in New York's Central Park and finds himself on a pirate ship. When he is given a magical map that transports him to other worlds, his adventure begins. Come along for the ride.

Captain's Peril William Shatner, 2012-09-25 The Dominion War is over. The Federation is at peace. What better time for two legendary starship captains to set aside the demands of duty and simply take some well-deserved time off. But when James T. Kirk and Jean-Luc Picard arrive on Bajor to dive among the ruins of an ancient sunken city, they find themselves in far from relaxing circumstances. The small group of scientists the captains have joined suddenly discover their equipment sabotaged -- isolating them from Deep Space Nine and from any hope of rescue -- as a murderer stalks them, one by one. Cut off from the people and the technology on which they have always depended, Kirk and Picard must rely more than ever on their own skills and resources -- as well as on their growing friendship -- to solve the mysterious killings and, at the same time, save one of Bajor's greatest living treasures. With time running out and Picard missing after a diving disaster, Kirk must search his memories of the past for the solution, plunging him into a harrowing personal journey that reveals the beginning of his path from young Starfleet officer to legendary galactic hero. From the shores of Bajor's Inland Sea to the welcoming arms of a

seductive and deadly alien commander intent on making Kirk her own, *The Captain's Peril* is Captain Kirk's most personal, and his most extreme, adventure yet.

Max Miles Kimmee Masi, 2024-02-06 Have you ever been bullied? Have you ever closed your eyes and dreamt of a better place? Have you ever wanted to make a real difference in the world? Allow me to introduce you to Max Miles, a lanky fifth grader who is a victim of childhood bullying. Max is always wishing to be someone else, a somebody, and constantly dreaming of a better place to be. This is the first book in a series where Max travels through unconventional galactic obstacle courses and attempts incredible missions. He begins his journey aboard a pirate ship that once sailed in the 1800s. Bewildered as to how he arrived at such a place, Max with his inquisitive nature makes this a perfect fit. He encounters magical and mystical beings along the way, all the while surprising himself with his newfound confidence. These missions and adventures test this mild-mannered fifth grader's strength and courage, transforming Max into the somebody he always wished he could be. He never dreamt that that he could be the chosen one, the successor of something unimaginable.

Earth Two Chick Lung, 2011-01-12 The debate over global warming stopped in the summer of 2073 when the last ice field at the South Pole vanished. By then the oceans of the world had risen between twenty-one and twenty-four feet, swamping every city and town located on the coastal plains of Earth. Twenty-one billion people were living on a planet that was running out of time. The pollution streaming from the factories of the world had poured into small streams, which in turn had drained into the larger streams and rivers that had dumped their toxic arsenal into the oceans. From the beginning of time the oceans had fed the human race with such an abundant variety of sustenance that no one ever dreamed that one day there would be no more fish or other crustaceans to fill their bellies. Mankind had cut and burned the forests of Earth and cemented over the fertile ground to make way for buildings and factories that took more by the hour from the Earth than the Earth could replenish. A third of the world's population now lived and worked underground. By 2180 the Earth was shrouded in a thick, black mist that let little sunlight penetrate to the cities below. A young scientist, Carson Chase, has discovered a far distant world whose chemical signals are the same as Earth's, and the three richest and most powerful nations still left on Earth see the handwriting on the wall. They unite to manufacture the largest ship mankind has ever built in an attempt to voyage to this new Earth Two before time runs out on humanity.

20,000 LEAGUES UNDER THE SEA (Illustrated) Jules Verne, 2024-01-14 This carefully crafted ebook: 20,000 LEAGUES UNDER THE SEA (Illustrated) is formatted for your eReader with a functional and detailed table of contents. 20,000 Leagues Under the Sea is a classic science fiction novel by Jules Verne published in 1870. It tells the story of Captain Nemo and his submarine Nautilus, as seen from the perspective of Professor Pierre Aronnax. The title refers to the distance travelled while under the sea and not to a depth, as 20,000 leagues is over six times the diameter, and nearly three times the circumference of the Earth. The greatest depth mentioned in the book is four leagues. The book uses metric leagues, which are four kilometres each. A literal translation of

the French title would end in the plural seas, thus implying the seven seas through which the characters of the novel travel. The book was highly acclaimed when released and still is now; it is regarded as one of the premiere adventure novels and one of Verne's greatest works. Jules Verne (1828-1905) was a French novelist, poet, and playwright best known for his adventure novels and his profound influence on the literary genre of science fiction.
