Coaching for Caregivers Yosaif August, 2013-06 If you're ready to show up for practice, Yosaif 's coaching can help you and your loved one get the love and support you need. -Bernie Siegel, MD, Author of Love, Medicine and Miracles; co-author with Yosaif August, of Help Me to Heal (Hay House,

2003) This book promotes caregivers' resiliency and helps them sustain themselves by reaching out for the love and support they and their loved ones need. It addresses the paradox of how difficult it is to help people who are stressed out and overwhelmed without, inadvertently, adding to their stress. This is especially so with caregivers who are at risk of burning out. This lively and easy to use how-to manual coaches caregivers - family and friends who are providing care to a loved one - to reach out for help before they, themselves, get so depleted that they burn out (and, in turn, need caregivers for themselves!). It does it in a way that their reaching out does not become just another item on their to-do list. In his introduction, Yosaif August, the author, invites caregivers to use the book as a just-in-time resource - to leaf through it, find topics that speak to them and then use it in a series of ten minute reads. Part One of the book coaches them to take stock of what they need, what their strengths and resources are, and any beliefs they have that may be holding them back from reaching out for love and support. Part Two coaches them in finding the best ways for them to do it, including using the new caresites i.e. free websites for them to use in communicating with people who care

about them. The third section provides resources for them to use to help sustain them in providing care for their loved one. Mr. August is an award-winning healthcare innovator (inventor of Bedscapes(r)), life coach and keynote presenter. He was a family caregiver for his own parents and mother-in-law. In this book he draws on what he learned from those experiences, from his life coaching clients and research interviews he conducted with family caregivers who have been especially effective in reaching out for what they and their loved ones needed. Besides the caregivers themselves, it is also a valuable resource for friends, neighbors, professional colleagues, fellow congregants and others who are concerned that these caregivers are at risk of burning out but haven't yet found a way to help them. As the author says, friends don't let friends burn out any more than friends let friends drive drunk. With this book in hand, they can reach out to the caregiver and offer to help them use it. This book is endorsed by a wide range of respected experts in the world of caregiving, spirituality and medicine - and by the leaders of the three major caresites (CarePages, Caring Bridge and Lotsa Helping Hands) - who also recommend its use by professionals: social

workers, therapists, nurses, healthcare chaplains, physicians and others. Yosaif August is the Vince Lombardi of coaching for caregivers. -Andrew Schorr, two-time cancer patient; Author of The Web-Savvy Patient, Founder, PatientPower.info ... Written as if the author is speaking directly to you. - Louise Knight, M.S.W., LCSW-C, OSW-C, Director, Family Patient and Family Services Program, Sidney Kimmel Comprehensive Cancer Center at Johns Hopkins Yosaif August is quite the caregiving coach. His book provides a thorough compilation of resources for our nation's caregivers. But what makes his book truly tremendous is his focus, not just on how to reach out for help, but on putting caregiver needs first to avoid burnout. -Hal Chapel, CEO and Co-Founder, Lotsa Helping Hands It's vital to take care of the caregiver! Yosaif does a terrific job of breaking down ways to do just that in a very consumable way. -Sona Mehring, CaringBridge Founder and CEO

**Coaching for Caregivers** Yosaif August, 2020-09-08 This book is a practical just-in-time resource for family caregivers. It helps them sustain themselves by reaching out for the love and support they and their loved ones need. Any single topic can become a doorway towards lightening their load. Besides

the caregivers themselves, this book is also a valuable resource for friends, neighbors, professional colleagues, fellow congregants and others who are concerned that these caregivers are at risk of burning out but haven't yet found a way to help them. As the author says, friends don't let friends burn out any more than friends let friends drive drunk. With this book in hand, they can reach out to the caregiver, begin a conversation about how they are doing and, as appropriate, offer to help them use it. Reach In, Part One of the book, coaches them to get clear about what they need and to take stock of their personal strengths and resources. It also coaches them to see if, like most people, they have some resistance to reaching out and accepting help from people who care about them. He playfully calls this resistance RDD: Receiving Deficit Disorder and coaches caregivers to take small steps to see what it feels like to open up to receiving loving help. Often their RDD is due to their legitimate concern that accepting help will require them to sacrifice their family's privacy. The author shows them how to set and communicate their boundaries (their privacy settings) so this will no longer be an issue for them. Reach Out, Part Two, coaches them in finding the best ways for them to reach out, including

using the new caresites i.e. free websites for them to use in communicating with people who care about them. Resources For Reaching Out, the third section, provides resources they can use to help sustain them in providing care for their loved one. This book is endorsed by a wide range of respected experts in the fields of caregiving, social work, spirituality and medicine. It is also highly recommended by the leaders of the major online caring communities (Caring Bridge and Lotsa Helping Hands), which the author terms caresites, who also recommend its use by professionals: social workers, therapists, nurses, healthcare chaplains, physicians and others. Mr. August is an award-winning healthcare innovator (inventor of Bedscapes(R)), life coach and keynote presenter. He was a family caregiver for his own parents and mother-in-law. In this book, he draws on what he learned from his own caregiving experiences, from his life coaching clients and research interviews he conducted with family caregivers who have been especially effective in reaching out for what they and their loved ones need. He presented the key concepts and tools in this book to caregivers of family members who are paralyzed, in a two-year national speaking tour for the Christopher & Dana Reeve Foundation's Caregiver Day

Program.

Take Good Care Cynthia Orange,2017-03-07 During the coronavirus pandemic, many of us are caring for others, both professionally and personally – while also attending to our own health and well-being. This book helps those who care for others navigate the subtle but important difference between

caretaking and caregiving. In a time when tens of millions of people provide care for family members, older adults, and people with special needs, we should all be experts at it. Instead, we often struggle with caring for others while taking care of ourselves. Cynthia Orange's newest gem is a rare combination of inspiration and information that invites us to examine our behavior and feelings with an open heart, free from judgment, as we care for others and ourselves. Take Good Care offers valuable care suggestions throughout—from how to navigate difficult conversations to what contact numbers to post on the refrigerator. This manual for living will enlighten any caregiver's experience, and Cynthia holds your hand through the process as only she can. —Lisa Sue Woititz, author of Unwelcome Inheritance: Break Your Family's Cycle of Addictive Behaviors In Take Good Care, author Cynthia Orange brings together compelling testimonies from a wide range of caregivers, advice from leading experts in the field, and her own hard-won wisdom to capture the subtle differences between caretaking and caregiving. With a foreword by Susan Allen Toth, the critically acclaimed author of No Saints around Here: A Caregiver's Days, this book shows us how and why caring for each other can

be a mutually rewarding experience. It's easy to become overinvolved in another person's life and needs when giving care. Feeling burdened with expectations and resentments in a codependent relationship hinders a sense of joy, purpose, and engagement. Relationships require empathy and boundaries; with them, a codependent caretaker can transform into an intentional, self-aware, and compassionate caregiver.

**Self-Care for Caregivers** Susanne White, 2022-09-06 Take care of yourself as you care for others with this accessible, easy-to-follow self-care guide to relax and rejuvenate. It's been said that there are only four kinds of people in the world: those who have been caregivers, those who are currently caregivers, those who will become caregivers, and those who will need caregivers. **Trainee's Manual Personal Care Aide** Center For Development of Human Services Social Services Resource Center, 2012-02-14

**Care for the Caregiver** Sherry L. Blake, 2020-11-30 Dr. Sherry Blake, a prominent, licensed clinical psychologist who serves a clientele that includes some of America's top professionals and entertainers, discovers through a series of subtle and harrowing incidents that her mother and father are no longer

able to live independently. Her mother suffers from an unexpected onset of Alzheimer's, while her father battles dementia. Dr. Sherry, as she is better known, compares her caregiving experience to that of an emotional roller coaster ride with gravity-defying twists and turns, uphill climbs and downhill slides that leave her terrified and off-balance. She enlists all of her resources, skills and talents to step up to the challenge of meeting the many needs of her parents and their care. As the ride reaches maximum velocity, Dr. Sherry finds herself in a head-on crash with a pair of willful parents, especially her mother, and a set of siblings stuck in what she calls the denial zone. Over the course of 10 years, Dr. Sherry executes a series of solutions for her parents' care--from an extended stay at an assisted living home, to placement at a residential care home when they become too frail, to a final return home to live out their last days. Dr. Sherry's goal in *Care for the Caregiver* is to provide useful and needed information that will reduce emotional stress and provide readers with critical tools for their respective journeys. After analyzing her own journey and the experiences of many other caregivers, she concluded that there are three distinct Rs or phases in caregiving: Recognition--Pre-Caregiving;

Reality--Caregiving; and Release--Post-Caregiving, with specific aspects of each phase, including: recognizing, adjusting to and understanding the physical and/or emotional changes of your loved ones; identifying and providing what is needed at any given time; and coping with and accepting the ongoing multiple changes without losing control emotionally, while preparing to let them go. While readers may not be able to get out of their caregiver coasters, Care for the Caregiver will definitely make the ride less frightening and stressful and a great deal more manageable.
