Understanding Caricature Greg Houston, 2021-04-27 A truly comprehensive and laser-focused examination of a really wonderful, expressive art form. *Understanding Caricature* offers artists, aspiring artists, students, journalists, bloggers, etc. a lively guide to an old and respected art form. A great caricature is one that not only captures the subject's look and personality but amplifies them significantly. They are almost always funny and very often (but not always) mean spirited. Eyes, ears, nose, mouth, hairline, cheeks, eyebrows, teeth, chin: There's no facial feature (or any other body part, for that matter) that can escape the sardonic scrutiny of caricaturist and illustrator Greg Houston. But though he cleverly twists, exaggerates, and distorts each subject's image, he always makes sure the person remains recognizable—an absolute must for successful caricature. Whether on assignment or simply drawing for his own perverse pleasure, Houston loves skewering the high and mighty—movie stars, moguls, politicians, and assorted other VIPs—especially when they misbehave. Caricature, says Houston, is a very sharp weapon for the powerless to use against the powerful, and he can teach you to wield it, too. After defining caricature, differentiating it from other forms of portraiture, and

delving into its centuries-long history, Houston gets down to the nitty gritty of how to do it. He focuses sequentially on the face, the hair, the body, and what he calls “accoutrements”—distinctive items of clothing that help viewers immediately identify celebrities. You yourself will learn to poke artistic fun at the famous through a series of demonstrations that let you follow Houston as he constructs caricatures of Jake Gyllenhaal, Masie Williams, Dwayne Johnson, Rainn Wilson, and other notable victims of his wicked pen. But Houston doesn’t focus solely on his own approach. A whole chapter of *Understanding Caricature* is devoted to other contemporary caricaturists and the signature mediums they work in, ranging from traditional oils and watercolors, to digital drawing and painting, to sculpture and even puppet-making. And the book’s final chapter displays the work of students who’ve studied with Houston at his Baltimore academy. Brilliant in their own right, these pieces also demonstrate how any artist, with Houston’s guidance, can become a skilled practitioner of the caricaturist’s art.

Learn How to Draw Caricatures - For the Absolute Beginner

John Davidson, 2013-05-15 To draw a caricature is to simply draw an image that is very distinguishable to your model/subject's identity with or without being photographically identical. In early forms of this genre, the type of figures used was animals to represent a certain person. A painting or any type of artwork cannot be called a caricature if the piece does not involve an actual person, because involving a real person as a model is the critical part of this genre.

About The Expert Christy Peraja spent four years in the banking, finance, and customer service industry. This was the career path that she had to pursue due to her background studies. She learned more than what she expected but always felt that it was not enough. She wanted to become an artist. When Christy Peraja was in Junior High, she drew artwork in the school's lobby as requested by one of the teachers. The Visual Arts Club Adviser, who later became her mentor, saw her work and recruited her. He exposed her to many art contests, where she received awards within those two years. She eventually became the club's president and graduated with pride of having that title. For almost twenty years she hid her artwork and secretly but persistently continued to train herself in drawing, painting and writing. Realizing how much she had improved her skills gave her the courage to achieve her lifetime dream. Despite the disapprovals and criticisms, she continued practicing. She is able to do different works of art like painting, pop

art, portraits, cartoons, vector, manga illustrations and so on. She never stopped dreaming of becoming a real artist, that is why she intended to fulfill it now and always believed that it was never too late. One piece of advice from Christy Peraja is, “Don’t ever be afraid to chase your dreams because if you truly enjoy it, your dreams will be the one chasing you in the end. And you can never run away from what your heart truly wants. Practice a lot and do not lose the passion of learning something new that would be helpful in improving your skills.” HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.

What other great artists are saying about Alberto's work: Alberto is, to me, one of the few who has this talent to create powerful and iconic pieces of art.” ~ Thomas Lebeltel (FR) www.theb.over-blog.com “Every painting or drawing by Alberto shows his love for art, and facial architecture. His caricatures are breathtaking, original, and funny. Looking at his work always makes me want to paint!” ~ Wouter Tulp (NL) www.woutertulp.nl “Browsing through Alberto's work is a lust for the eye. He always gets a great likeness, but his art goes far beyond that... just look at the brush strokes or the pencil lines: they are always honest, like sketches should be. All the sketches are great, and my preferred ones are the 'roughest' ones, dynamic compositions with a lot of structure and light-dark contrast in it. This is real art!” ~ Jan Op De Beeck (BE) <http://theb.over-blog.com> “I had great pleasure in admiring the incredible evolution of Alberto's work. He has really created a unique style, varying virtuosity with different techniques and the mastery of distortion to create good caricatures. The perfect alchemy he creates will enable him to become one of the top people in this area.” ~ Anthony Geoffroy (FR) www.AnthonyGeoffroy.com “Alberto Russo's work brings a freshness and excitement to the art of caricature! Caricature set

aside, his drawings are full of life and that is key to capturing solid character. His work, filled with a gritty and edgy mood pulls me in and leaves me wanting more!” ~ Jason Seiler (USA)

www.facebook.com/jasonseilerillustration There is some magic about doing caricature that artists can not tools and even the resemblance. Is a mix of that “everything” in perfect balance, and “that” my colleague Alberto Russo, has it.” ~ Jota Leal (USA)

www.jotaleal.com “Alberto Russo's many graphic researches in pencil prove that he is perfectly capable of leaving his computer behind when he draws caricatures. Not many people can say the same today even though the quality of today's images is higher than ever thanks to the challenges created by Facebook for people drawing caricatures. The risk is that finalising them in a realistic photographic way with the computer creates monotony and uniformity of style. Only adepts of traditional drawing will make a difference, and Alberto is one of them.” ~ Jean Mulatier (FR)

Daumier and Exoticism Elizabeth C. Childs, 2004 Best known as a satirist of Parisian politics and daily life, Honoré Daumier (1808-1879) was a prolific caricaturist. This book is the first to examine the role of exoticism in his art, and to offer a detailed history of the journal *Le Charivari* in which the lithographs appeared. These satires of China, Haiti, the United States, Africa, and the Middle East not only target the theater of international

politics, but also draw on a broad range of physical stereotypes supported by contemporary ideas about race and cultural difference. In an art of comic inversion, Daumier used the exotic to expose the foibles and pretensions of the Parisian bourgeoisie. A pacifist and a Republican, Daumier also satirized the non-European world in order to covertly attack the imperialism of Napoléon III in an age of press censorship. Idealistic as well as pragmatic, he used humor to stage political critique as well as to envision a more unified and compassionate world.

The Hirschfeld Century Al Hirschfeld, 2015-07-07 I am down to a pencil, a pen, and a bottle of ink. I hope one day to eliminate the pencil. Al Hirschfeld redefined caricature and exemplified Broadway and Hollywood, enchanting generations with his mastery of line. His art appeared in every major publication during nine decades of the twentieth and twenty-first centuries, as well as on numerous book, record, and program covers; film posters and publicity art; and on fifteen U.S. postage stamps. Now, *The Hirschfeld Century* brings together for the first time the artist's extraordinary eighty-two-year career, revealed in more than 360 of his iconic black-and-white and color drawings, illustrations, and photographs—his influences, his techniques, his evolution from his earliest works to

his last drawings, and with a biographical text by David Leopold, Hirschfeld authority, who, as archivist to the artist, worked side by side with him and has spent more than twenty years documenting the artist's extraordinary output. Here is Hirschfeld at age seventeen, working in the publicity department at Goldwyn Pictures (1920–1921), rising from errand boy to artist; his year at Universal (1921); and, beginning at age eighteen, art director at Selznick Pictures, headed by Louis Selznick (father of David O.) in New York. We see Hirschfeld, at age twenty-one, being influenced by the stylized drawings of Miguel Covarrubias, newly arrived from Mexico (they shared a studio on West Forty-Second Street), whose caricatures appeared in many of the most influential magazines, among them *Vanity Fair*. We see, as well, how Hirschfeld's friendship with John Held Jr. (Held's drawings literally created the look of the Jazz Age) was just as central as Covarrubias to the young artist's development, how Held's thin line affected Hirschfeld's early caricatures. Here is the Hirschfeld century, from his early doodles on the backs of theater programs in 1926 that led to his work for the drama editors of the *New York Herald Tribune* (an association that lasted twenty years) to his receiving a telegram from *The New York Times*, in 1928, asking for a two-column

drawing of Sir Harry Lauder, a Scottish vaudeville singing sensation making one of his (many) farewell tours, an assignment that began a collaboration with the Times that lasted seventy-five years, to Hirschfeld's theater caricatures, by age twenty-five, a drawing appearing every week in one of four different New York newspapers. Here, through Hirschfeld's pen, are Ethel Merman, Benny Goodman, Judy Garland, Mickey Rooney, Katharine Hepburn, the Marx Brothers, Barbra Streisand, Elia Kazan, Mick Jagger, Ella Fitzgerald, Laurence Olivier, Martha Graham, et al. . . . Among the productions featured: Fiddler on the Roof, West Side Story, Rent, Guys and Dolls, The Wizard of Oz (Hirschfeld drew five posters for the original release), Gone with the Wind, The Sopranos, and more. Here as well are his brilliant portraits of writers, politicians, and the like, among them Ernest Hemingway (a pal from 1920s Paris), Tom Wolfe, Charles de Gaulle, Nelson Mandela, Joseph Stalin, Winston Churchill, and every president from Franklin D. Roosevelt to Bill Clinton. Sumptuous and ambitious, a book that gives us, through images and text, a Hirschfeld portrait of an artist and his age.
