With its minimal text and Alexandra Day's signature art, CARL GOES TO THE DOG SHOW is sure to please Carl fans, Rottweiler lovers, and dog enthusiasts of all sorts.

**Poor Carl** , 2012-01-01 Carl's big brother does not think it would be easy to be a baby, but he also realizes Carl is lucky to have someone to play with and protect him.

**Superintelligence** Nick Bostrom, 2014 This profoundly ambitious and original book picks its way carefully through a vast tract of forbiddingly difficult intellectual terrain.

Segregation Carl H. Nightingale, 2016-07-11 When we think of segregation, what often comes to mind is apartheid South Africa, or the American South in the age of Jim Crow--two societies fundamentally premised on the concept of the separation of the races. But as Carl H. Nightingale shows us in this magisterial history, segregation is everywhere, deforming cities and societies worldwide. Starting with segregation's ancient roots, and what the archaeological evidence reveals about humanity's long-standing use of urban divisions to reinforce political and economic inequality, Nightingale then moves to the world of European colonialism. It was there, he shows, segregation based on color--and eventually on race--took hold; the British East India Company, for example, split Calcutta into "White Town" and "Black Town." As we follow Nightingale's story around the globe, we see that division replicated from Hong Kong to Nairobi, Baltimore to San Francisco, and more. The turn of the twentieth century saw the most aggressive segregation movements yet, as white communities almost everywhere set to rearranging whole cities along racial lines. Nightingale focuses closely on two striking examples: Johannesburg, with its state-sponsored separation, and Chicago, in which the goal of segregation was advanced by the more subtle methods of real estate markets and housing policy. For the first time ever, the majority of humans live in cities, and nearly all those cities bear the scars of segregation. This unprecedented, ambitious history lays bare our troubled past, and sets us on the path to imagining the better, more equal cities of the future.

**Carl Schmitt** Carl Schmitt, 2013 Carl Schmitt expressed the beauty of truth in painting in the way that the deepest spiritual writers expressed in words the truths about God and creation. In 43 paintings selected to show the broad range of his work, this book presents not only art, but his ideas about art and life. Scepter is proud to join with the Carl Schmitt Foundation to present a selection of his work for the first time, from private and public collections. It arrives just ahead of the 125th anniversary of the author's birth in Warren, Ohio. Carl Schmitt (1889-1989) produced hundreds of paintings from landscape and still life to portraits of his wife and nine children as well as poets, artists, and Marian and religious themes. His over 500 works painted in the U.S. and Europe are scattered through museums from the National Gallery in Washington DC to private collections worldwide.

His painted with extreme precision to present art as an expression of the beauty that lies within all creation. He was a man of deep faith, a lifelong Catholic, who saw God in everything he studied and drew.

*Chomp* Carl Hiaasen, 2012-03-27 In this hysterical #1 New York Times bestseller, one kid has to wrangle gators, snakes, bats that bite, and a reality show host gone rogue! This is Carl Hiaasen's Florida—where the creatures are wild and the people are wilder! When Wahoo Cray's dad—a professional animal wrangler—takes a job with a reality TV show called Expedition Survival!, Wahoo figures he'll have to do a bit of wrangling himself to keep his father from killing Derek Badger, the show's inept and egotistical star. But the job keeps getting more complicated: Derek Badger insists on using wild animals for his stunts; and Wahoo's acquired a shadow named Tuna—a girl who's sporting a shiner courtesy of her father and needs a place to hide out. They've only been on location in the Everglades for a day before Derek gets bitten by a bat and goes missing in a storm. Search parties head out and promptly get lost themselves. And then Tuna's dad shows up with a gun . . . It's anyone's guess who will actually survive Expedition Survival. . . “Only in Florida—and in the fiction of its native son Carl Hiaasen—does a dead iguana fall from a palm tree and kill somebody.” —New York Post “Chomp is a delightful laugh-out-loud sendup of the surreality of TV that will be enjoyed by readers of all ages.” —Los Angeles Times

*Carl Auböck* Carl Auböck, Sophia Lambrakis, 2012-11-13 The work Austria's premier design and fabrication shop—specializing in modern and sophisticated objects for the home in bronze, horn, wood, wicker, leather, and glass for over a century—is collected in Carl Auböck: The Workshop. The Werkstätte (Workshop) Carl Auböck was founded in the 19th century—one of many workshops in Vienna specializing in bronze-casting. However, Carl Auböck II (1900-1957) was one of the very few Viennese students who attended the Bauhaus in post-World War I Weimar, and when he returned to the Workshop he brought inspiration from this new design movement. Expert craftsmanship and superior quality materials such as hand-sewn leather, polished bronze, and various woods became the signature of the Bauhaus-inspired Auböck Workshop and many of their whimsical, modernist designs stand out as prescient objets d'art. Carrying on generations of the Workshop tradition, son Carl Auböck III (1924-1993) and grandson Carl Auböck IV (born 1954) were instrumental in forging ahead with new ideas and designs while preserving the quality craftsmanship and integrity of the Workshop which today remains among the last of its kind. Despite designing over 6,000 original objects and pieces of furniture in the early to mid-20th century, Auböck somehow has eluded the spotlight and the Workshop's products remain cult objects of desire, cherished quietly by design greats and savvy collectors. More incredibly, only one quarter of the Workshop's designs have been documented, leaving an astounding 4,000 objects yet to be discovered. Carl Auböck: The Workshop documents hundreds of signature Workshop objects culled from exclusive private collections, and brings us into the Workshop itself with contemporary photographs, interviews with Carl Auböck IV, and historical documents and photographs depicting the Workshop's historic legacy. . . . The strange and luminous world of the Viennese designer Carl Auböck (1900-57). A master of

elemental materials like brass, leather, wood and horn, Auböck had a flair for exquisitely turned curios-paperweights, corkscrews, pipe holders-that still exert a magnetic pull... His larger works-Nakashima-like free-edge wooden tables with spindly brass legs, leather-sling magazine racks, gooseneck lamps that evoke alien plant life from 1950s sci-fi flicks-have their fans. But...the smaller household and office objects from the 1940s and '50s have made Auböck a full-blown cult hero. Beloved by contemporaries like Charles and Ray Eames and Walter Gropius, these pieces are now hunted down by collectors the likes of Michael Maharam and Diane von Furstenberg. - The New York Times, T Magazine, Brass in Pocket, Carl Auböck's Exquisite Curios, May 20, 2010

*Carl Van Vechten and the Harlem Renaissance* Emily Bernard,2012-02-28 By the time of his death in 1964, Carl Van Vechten had been a far-sighted journalist, a best-selling novelist, a consummate host, an exhaustive archivist, a prescient photographer, and a Negrophile bar non. A white man with an abiding passion for blackness.

*The Philosophical Foundations of Ecological Civilization* Arran Gare,2016-08-05 The global ecological crisis is the greatest challenge humanity has ever had to confront, and humanity is failing. The triumph of the neo-liberal agenda, together with a debauched 'scientism', has reduced nature and people to nothing but raw materials, instruments and consumers to be efficiently managed in a global market dominated by corporate managers, media moguls and technocrats. The arts and the humanities have been devalued, genuine science has been crippled, and the quest for autonomy and democracy undermined. The resultant trajectory towards global ecological destruction appears inexorable, and neither governments nor environmental movements have significantly altered this, or indeed, seem able to. *The Philosophical Foundations of Ecological Civilization* is a wide-ranging and scholarly analysis of this failure. This book reframes the dynamics of the debate beyond the discourses of economics, politics and techno-science. Reviving natural philosophy to align science with the humanities, it offers the categories required to reform our modes of existence and our institutions so that we augment, rather than undermine, the life of the ecosystems of which we are part. From this philosophical foundation, the author puts forth a manifesto for transforming our culture into one which could provide an effective global environmental movement and provide the foundations for a global ecological civilization.

*Carl Rogers* Brian Thorne,Pete Sanders,2012-11-13 As founder of the person-centred approach, Carl Rogers (1902-1987) is arguably the most influential psychologist and psychotherapist of the 20th century. This book provides unique insights into his life and a clear explanation of his major theoretical ideas. This Third Edition is co-authored by Brian Thorne and Pete Sanders, leading person-centred practitioners and bestselling authors. Pete Sanders contributes a new chapter on The Ongoing Influence of Carl Rogers, covering topics such as research, the emerging tribes in person-centred tradition, and its interaction with the medical profession. Brian Thorne draws on his experience of having known and worked with Rogers to beautifully describe the way in which Rogers worked with clients and from that, to draw out the practical implications of what is, in effect, a functional philosophy of human growth and relationships. In the twenty years since the first edition of Carl Rogers appeared,

the book has continued to provide an accessible introduction for all practitioners and students of the person-centred approach.

**I Was Born This Way** Carl Bean,2010-06-01 In I Was Born This Way, Carl Bean, former Motown recording artist, noted AIDS activist, and founder of the Unity Fellowship of Christ Church in Los Angeles, shares his extraordinary personal journey from Baltimore foster homes to the stage of the Apollo Theater and beyond. CARL BEAN has been crossing boundaries all his life and helping others do the same. He's never been stopped by his race or orientation, never fit or stayed in the boxes people have wanted to put him in. He left his foster home in Baltimore at seventeen and took the bus to New York City, where he quickly found the rich culture of the Harlem churches. As a singer, first with the gospel Alex Bradford Singers and later as a Motown recording artist, Bean was a sensation. When Berry Gordy signed him to record I Was Born This Way, it was a first: the biggest black-owned record company broadcasting a statement on gender identity. The #1 song, recorded with the Sweet Inspirations, was the first gay liberation dance club hit. Whether making records, educating the black community about HIV and AIDS, or preaching to his growing congregation, Archbishop Bean has never wanted to minister to just one group. He's worked on AIDS issues with C. Everett Koop and Elizabeth Taylor and on civil rights issues with Maxine Waters, Julian Bond, and Reverend Joseph Lowery. At the height of his recording career, he worked with Dionne Warwick, Burt Bacharach, Miles Davis, and Sammy Davis Jr. He's brought South Central Los Angeles gang members into his church, which now has 25,000 members in twelve cities nationwide; those same Crips and Bloods have shown up at the Gay Pride parades Bean has organized with U.S. Congresswoman Maxine Waters. And he has courageously devoted his time and energy to spurring black civil rights leaders to address the AIDS health crisis within the African American community—an issue on which they had been silent. Preaching an all-embracing progressive theology, he is an outspoken practitioner of brotherly love, a dynamic preacher, and a social activist. The Unity Fellowship message is grace: God is love, and God is for everyone; God is gay, God is straight, God is black, God is white. I Was Born This Way is the rare personal history of one of black gospel's biggest stars and a frank, powerful, and warmhearted testament to how one man found his calling.

*The Legal Theory of Carl Schmitt* Mariano Croce,Andrea Salvatore,2013-10-11 The Legal Theory of Carl Schmitt provides a detailed analysis of Schmitt's institutional theory of law, mainly developed in the books published between the end of the 1920s and the beginning of the 1930s. By reading Schmitt's overall work through the lens of his institutional turn, the authors offer a strikingly different interpretation of Schmitt's theory of politics, law and the relation between these two domains. The book argues that Schmitt's adhesion to legal institutionalism

was a key theoretical achievement, based on serious reconsideration of the main flaws of his own decisionist paradigm, in the light of the French and Italian institutional theories of law. In so doing, the authors elucidate how Schmitt was able to unravel many of the impasses that affected his previous conceptual framework. The authors also make comparisons between Schmitt and other leading legal theorists (H. Kelsen, M. Hauriou, S. Romano and C. Mortati) and explain why the current legal debate should take into serious account his legacy.

**The Beach Book** Carl Heywood Hobbs, 2012 Waves and tides, wind and storms, sea-level rise and shore erosion: these are the forces that shape our beaches, and beach lovers of all stripes can benefit from learning more about how these coastal processes work. With animation and clarity, The Beach Book tells sunbathers why beaches widen and narrow, and helps boaters and anglers understand why tidal inlets migrate. It gives home buyers insight into erosion rates and provides natural-resource managers and interested citizens with rich information on beach nourishment and coastal-zone development. And for all of us concerned about the long-term health of our beaches, it outlines the latest scientific information on sea-level rise and introduces ways to combat not only the erosion of beaches but also the decline of other coastal habitats. The more we learn about coastline formation and maintenance, Carl Hobbs argues, the better we can appreciate and cultivate our shores. Informed by the latest research and infused with a passion for its subject, The Beach Book provides a wide-ranging introduction to the shore, and all of us who love the beach and its associated environments will find it timely and useful.

How Spaces Become Places John F. Forester, 2021-10-12 A diverse set of place makers describe how they transformed contested or empty spaces into vibrant and functional places. Spanning four countries and ten U.S. locales, these projects range from building affordable housing, to community building in the aftermath of racial violence, to the integration of the arts in community development. By recounting how they built trust, diagnosed local problems, and convened stakeholders to invent solutions, place makers offer pragmatic, instructive strategies to employ in other communities--
