Rubbernecker Belinda Bauer,2015-08-04 A medical student with Asperger's is drawn into a deadly mystery in this unique crime thriller from the CWA Gold Dagger Award-winning author. Winner of the 2014 Theakstons Old Peculier Crime Novel of the Year Award, *Rubbernecker* is a gripping thriller about a medical student who begins to suspect that something strange is going on in the cadaver lab. "The dead can't speak to us," Professor Madoc had said. But that was a lie. The body Patrick Fort is examining in anatomy class is trying to tell him all kinds of things. But no one hears what he does, and no one understand when he tries to tell them. Life is already strange enough for Patrick—being a medical student with Asperger's Syndrome doesn't come without its challenges. And that's before he is faced with solving a possible murder, especially when no one believes a crime has even taken place. Now he must stay out of danger long enough to unravel the mystery. But as Patrick learns one truth from a dead man, he discovers there have been many other lies closer to home. "A murder mystery with more twists and turns than a rollercoaster."
—Bustle

Carousel Cat Robert J. Blake,2005 One day, after Dan is forced to close the boardwalk carousel, he and his neighbors search for their missing cat friend at the same time that a local building catches fire.

Pretending to Dance Diane Chamberlain,2015-10-06 Molly Arnette is very good at keeping secrets. She lives in San Diego with a husband she adores, and they are trying to adopt a baby because they can't have a child on their

own. But the process of adoption brings to light many questions about Molly's past and her family-the family she left behind in North Carolina twenty years before. The mother she says is dead but who is very much alive. The father she adored and whose death sent her running from the small community of Morrison's Ridge. Her own birth mother whose mysterious presence in her family raised so many issues that came to a head. The summer of twenty years ago changed everything for Molly and as the past weaves together with the present story, Molly discovers that she learned to lie in the very family that taught her about pretending. If she learns the truth about her beloved father's death, can she find peace in the present to claim the life she really wants? Told with Diane Chamberlain's compelling prose and gift for deft exploration of the human heart, *Pretending to Dance* is an exploration of family, lies, and the complexities of both.

Trampled by Unicorns Maelle Gavet,2020-10-06 A Wall Street Journal Bestseller An insider's revealing and in-depth examination of Big Tech's failure to keep its foundational promises and the steps the industry can take to course-correct in order to make a positive impact on the world. *Trampled by Unicorns: Big Tech's Empathy Problem and How to Fix It* explores how technology has progressed humanity's most noble pursuits, while also grappling with the origins of the industry's destructive empathy deficit and the practical measures Big Tech can take to self-regulate and make it right again. Author Maëlle Gavet examines the

tendency for many of Big Tech's stars to stray from their user-first ideals and make products that actually profoundly damage their customers and ultimately society. Offering an account of the world of tech startups in the United States and Europe—from Amazon, Google, and Facebook to Twitter, Airbnb, and Uber (to name a few)—*Trampled by Unicorns* argues that the causes and consequences of Big Tech's failures originate from four main sources: the Valley's cultural insularity, the hyper-growth business model, the sector's stunning lack of diversity, and a dangerous self-sustaining ecosystem. However, the book is not just an account of how an industry came off the rails, but also a passionate call to action on how to get it back on track. Gavet, a leading technology executive and former CEO of Ozon, an executive vice president at Priceline Group, and chief operating officer of Compass, formulates a clear call to action for industry leaders, board members, employees, and consumers/users to drive the change necessary to create better, more sustainable businesses—and the steps Western governments are likely to take should tech leaders fail to do so. Steps that include reformed tax codes, reclassification of platforms as information companies, new labor laws, and algorithmic transparency and oversight. *Trampled by Unicorns'* exploration of the promise and dangers of technology is perfect for anyone with an interest in entrepreneurship, tech, and global commerce, and a hope of technology's all-empowering prospect. An illuminating book full of insights, *Trampled by Unicorns* describes a realistic path forward, even as it uncovers and explains the errors of the past. As Gavet puts it, “we don't need less tech, we need more empathetic tech.” And how that crucial distinction can be achieved by the tech companies themselves, driving change as governments actively pave the road ahead.
