Glannon Guide to Criminal Procedure John Kip Cornwell, 2021-06-25 Law school classroom lectures can leave you with a lot of questions. Glannon Guides can help you better understand your classroom lecture with straightforward explanations of tough concepts with hypos that help you understand their application. The Glannon Guide is your proven partner throughout the semester when you need a supplement to (or substitute for) classroom lecture. Here's why you need to use Glannon Guides to help you better understand what is being taught in the classroom: It mirrors the classroom experience by teaching through explanation, interspersed with hypotheticals to illustrate application. Both correct and incorrect answers are explained; you learn why a solution does or does not work. Glannon Guides provide straightforward explanations of complex legal concepts, often in a humorous style that makes material stick.

The Orphan Carpenter Kenneth Ian McQuarrie, 2022-08-29 My God, My God, why have you forsaken me? Have you ever wondered where God is? How can this be happening? What did I do to deserve this? Have your circumstances led you to question your faith? Does God care? Does he even exist? Thoughts flooded my head from our traumatic failed adoption. "Lord, where were you this time? Is this how our seven-year-long journey to have children ends? Are we being punished? Are we cursed? This adoption seemed so right. I thought I was ready. I really thought I could help these kids. After all, I started life as an Orphan." My core beliefs had been shaken. To make sense of what just happened, I went back and examined my own life. So many times, the odds were heavily stacked against me, life, and death situations. Yet, somehow, somehow, God always showed up. From orphan to carpenter and beyond, the pages of this book are my life stories. But the book is not about me or my story. It's about God's. As you read these true stories of my life like parables, may they be a testament that God is present and active in your life, that he loves you and has a plan to give you hope and a future.

Mobile Narratives Eleftheria Arapoglou, Mónika Fodor, Jopi Nyman, 2013-08-15 Emphasizing the role of travel and migration in the performance and transformation of identity, this volume addresses representations of travel, mobility, and migration in 19th–21st-century travel writing, literature, and media texts. In so doing, the book analyses the role of the various cultural, ethnic, gender, and national encounters pertinent to narratives of travel and migration in transforming and problematizing the identities of both the travelers and travelees enacting in the borderzones between cultures. While the individual essays by scholars from a wide range of countries deal with a variety of case studies from various historical, spatial, and cultural locations, they share a strong central interest in the ways in which the narratives of travel contribute to the imagining of ethnic encounters and how they have acted as sites of transformation and transculturation from the early nineteenth century to the present day. In addition to discussing textual representations of travel and migration, the volume also addresses the ways in which cultural texts themselves travel and are reconstructed in various cultural settings. The analyses are particularly attentive to the issues of globalization and migration, which provide a general frame for interpretation. What distinguishes the volume from existing books is its concern with travel and migration as ways of forging transcultural identities that are able to subvert existing categorizations and binary models of identity formation. In so doing, it pays particular attention to the performance of identity in various spaces of cultural encounter, ranging from North America to the East of Europe, putting particular emphasis on the representation of intercultural and ethnic encounters.

The Sword of Lincoln Jeffry D. Wert,2005-04-06 The Sword of Lincoln is the first authoritative single-volume history of the Army of the Potomac in many years. From Bull Run to Gettysburg to Appomattox, the Army of the Potomac repeatedly fought -- and eventually defeated -- Robert E. Lee and his Army of Northern Virginia. Jeffry D. Wert, one of our finest Civil War historians, brings to life the battles, the generals, and the common soldiers who fought for the Union and ultimately prevailed. The obligation throughout the Civil War to defend the capital, Washington, D.C., infused a defensive mentality in the soldiers of the Army of the Potomac. They began ignominiously with defeat at Bull Run. Suffering under a succession of flawed commanders -- McClellan, Burnside, and Hooker -- they endured a string of losses until at last they won a decisive battle at Gettysburg under a brand-new commander, General George Meade. Within a year, the Army of the Potomac would come under the overall leadership of the Union's new general-in-chief, Ulysses S. Grant. Under Grant, the army marched through the Virginia countryside, stalking Lee and finally trapping him and the remnants of his army at Appomattox. Wert takes us into the heart of the action with the ordinary soldiers of the Irish Brigade, the Iron Brigade, the Excelsior Brigade, and other units, contrasting their experiences with those of their Confederate adversaries. He draws on letters and diaries, some of them previously unpublished, to show us what army life was like. Throughout his history, Wert shows how Lincoln carefully oversaw the operations of the Army of the Potomac, learning as the war progressed, until he found in Grant the commander he'd long sought. With a swiftly moving narrative style and perceptive analysis, The Sword of Lincoln is destined to become the modern account of the army that was so central to the history of the Civil War.

Breast Stories Phil Carpenter,2012 Breast stories is a Canadian publishing project that casts a spotlight on the subject of breast cancer, mastectomy, and female identity that, each year, touches the lives of many thousands of women in Canada and around the world. Three years in the making, the project features the stunning photographs and frank personal essays of more than 50 women from British Columbia to Newfoundland and Labrador. Each of the women included in this groundbreaking project is a breast cancer survivor who had a mastectomy-- From publisher description.

Left to Our Own Devices Julia Ticona,2022-01-18 The Digital Hustle When we met in the middle of a rare snowstorm in Washington, DC, in January, Charlie was bundled up against the cold in his Carhartt jacket, thick socks, and sturdy work boots, with a knit cap pulled down over his ears. As he peeled off his many layers in our booth at a Dunkin' Donuts, he apologized for smelling like cigarette smoke, saying that bad winter weather always makes him think a little harder about quitting for good. Charlie explained that smoking was a small comfort in what he felt were uncertain times. It's like, every day you just you walk out your door and you're already stressed. Because we never know, even these days, you never know what the next day is going to be like. You have no idea. I'm just trying to

keep my guys busy. Charlie's guys are a small crew of two or three manual workers he tried to keep in regular work through a patchwork of contracting, demolition gigs, and moving jobs. Looking older than his forty-seven years, Charlie told me about how he came to start his own home contracting and moving business after he left his union construction job when his boss was replaced by someone much younger than him. He enjoyed the freedom and independence that came with being his own boss: being my own boss, I don't have to deal with nobody. And for me, because I'm forty-seven, I can't deal with a twenty- or thirty-year-old, some young kid like you being my boss.--
